

For Immediate Release

Dated: September 30, 2020

Avanceon Awarded Supply Orders for High-End Instrumentation and Control Valves for One of the Leading Chemical Companies in Pakistan

Avanceon will team up with Endress+Hauser and Samson Controls to Provide Comprehensive State-of-the-Art Supplies

Dubai, UAE – Avanceon FZE, a UAE based 100% owned subsidiary of Avanceon Limited, has signed multiple high valued contracts for the supply of Control Valves and Instrumentation with one of the largest chemical companies in Pakistan. Avanceon will partner with Endress+Hauser and Samson Controls for the provision of the Instrumentation and Control Valves.

Avanceon scope of supplies will include,

- Self-Regulating Valves (PCV & TCV) and Control Valves from Samson Controls
- Complete Instrumentation Package from Endress+Hauser which will include flow, temperature pressure and level instruments.

Avanceon is the authorized distributor of Samson Controls in Pakistan and regional markets in Dubai, UAE, since 2005. In the past, Avanceon has supplied and installed Samson Controls Valves across a wide range of industries. It is a key component of control and automation solutions.

In 2019, Avanceon entered into a partnership agreement with Endress+Hauser to offer high-end industrial field instrumentation & solutions in Pakistan. As a leading supplier of products, solutions and services for industrial process measurement and automation, Endress+Hauser offers comprehensive process solutions flow, level, pressure, analysis, temperature, recording and digital communications across a wide range of industries.

Avanceon will be providing Endress+Hauser's best in class measurement and automation supplies for optimizing the processes with regards to economic efficiency, safety and environmental protection.

Avanceon, Pakistan's leading control, and automation system integrator has been serving the industry for more than 30 years now. It has an impressive history of delivering high-end control and automation projects with some of the major local and multinational clients. Avanceon's long term service history, strong project references, and a technically sound solution played a major role in acquiring this project.

---End of News Release---

Endress+Hauser has been a reliable partner for the process industry for 65 years providing comprehensive support to customers, from the laboratory to the process. The Group employs more than 13,000 personnel across the globe. 48 sales centers, 80 representatives and production centers in 12 countries guarantees competent worldwide support.

Endress+Hauser provides products, services and solutions for flow, level, pressure and temperature measurement, process analysis & data management along with analytical instruments and bioanalytical systems. The breadth and depth of their offering is unique in the industry and set standards in quality and technology.

Strategic acquisitions of recent years have expanded the company's fields of activities and added know-how in the areas of laboratory analysis and advanced process analyzer systems for liquids, solids and gases. This extensive portfolio allows Endress+Hauser to offer proven solutions that address several measurement tasks and is fully standardized and aligned for enhanced safety and efficiency across different industry sectors.

Founded in 1953, the Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
