RECITALS

WHEREAS by this Scheme of Arrangement ("Scheme"), it is *inter alia* proposed that:-

1. The undertaking, comprising the Assets, Liabilities and Obligations of FTML shall be split into 2 (two) separate segments i.e. the Real Estate Undertaking and the Textile Undertaking.
2. The segment comprising all the Assets, Liabilities and Obligations of the Real Estate Undertaking shall be carved out and, as at the Effective Date (as defined below), stand merged with, transferred to, vested in, and be assumed by LLPT.
3. As consideration for the above, it is proposed that LLPT Shares shall be issued to the YBG Shareholders in accordance with this Scheme.
4. Furthermore, simultaneously, the remaining undertaking of FTML, comprising all the Assets, Liabilities and Obligations of the Textile Undertaking, as at the Effective Date (as defined below), shall stand merged with, transferred to, vested in, and be assumed by GTML.
5. In consideration of the above, it is proposed that GTML Shares shall be issued to the YBG Shareholders and the Other Shareholders in accordance with this Scheme.

295

6. Upon the merger and transfer of the Real Estate Undertaking and Textile Undertaking to LLPT and GTML respectively in the manner prescribed under this Scheme, FTML shall be dissolved without winding up.
7. This Scheme, if approved by the respective shareholders of GTML, FTML and LLPT, through a special resolution and sanctioned by the Court by an order passed in this respect, is to be binding on GTML, FTML and LLPT along with all the shareholders, creditors, employees, Customers, contracting parties, tax authorities and any other regulatory / statutory bodies of or with respect to GTML, FTML and LLPT (as applicable) respectively.

BENEFITS OF THIS SCHEME

A. Separation of Businesses Being Distinct in Nature

The existing business of FTML can be categorized under two separate heads, i.e. (i) textiles; and (ii) property development / real estate, which are completely distinct in nature, require different approaches and separate facilities and managements.

The business segment pertaining to textiles carries out the business of, *inter alia*, spinning, weaving, knitting, manufacturing, pressing, packing and selling of yarn, cloth and other fabrics and value added finished goods. On the other hand, the segment pertaining to property development / real estate carries out the business of building, contracting, developing and dealing in real estate, projects and buildings.

Since each of the business undertakings / segments of FTML are completely different from one other, it is prudent and beneficial to separate these segments so that the same can be managed, operated and developed independently and effectively. Furthermore, by separating the business segments of FTML and merging the same into a company that specializes in the field of textiles (i.e. GTML) and another company which has been created for the specific purpose of property development / real estate (i.e. LLPT), the individual business segments shall have unique identities and a more focussed business and customer base.

B. Objectives of Specialization, Long Term Growth and Expansion

The separation of the Real Estate Undertaking and the Textile Undertaking, and merger of the same with and into LLPT and GTML respectively, will allow the management of each of the latter companies to focus on the individual business segments carried out by the respective companies, resulting in better performance of the same. At the same time the respective managements shall be able to apply their skills and experience towards the long term growth of their respective companies and hence the business segments which will benefit all the stakeholders of GTML, FTML and LLPT. It is emphasized that LLPT has been incorporated for the specific purpose of utilizing the Real Estate Undertaking and hence will specialize in that manner while GTML (and consequently its shareholders), having an established base in textiles, shall be in a position to expand and benefit from the merger with the Textile Undertaking.

297

The specialization envisaged under this Scheme is expected to allow GTML to improve its products, allowing it to become a leading supplier / manufacturer in the textile industry of the country, resulting in greater benefits for its stakeholders and improved financial statements.

C. Distribution of Risk and Increase in Risk Absorption Capacity

The separation of the Real Estate Undertaking and the Textile Undertaking, and the amalgamation of the same into LLPT and GTML respectively, shall distribute the risk of carrying on business. Subsequent to the Amalgamations, loss, damage, market variation or other potential risks arising out of any adverse and uncertain operating environment with respect to one business segment will not undermine or have a detrimental impact on the other. This shall provide greater stability to each surviving company (i.e. GTML and LLPT) and protection to their respective shareholders.

Furthermore, the larger size of GTML, subsequent to the GTML Amalgamation would increase GTML's risk absorption capacity, thus enhancing the capacity to manage the potential risks arising out of adverse and uncertain operating environments. In the long run, this factor would provide greater stability as well as sustainability in operations for GTML.

D. Larger Asset Base for GTML

The GTML Amalgamation would lead to an increased asset base and the size of GTML which is a listed company. This would in turn assist the management to have access to more external funds at competitive rates. The larger size of equity and asset base would provide greater comfort to existing and potential creditors of GTML. Access to larger resources would, in turn improve growth prospects and ability to undertake large assignments.

E. Synergies

The GTML Amalgamation would give an opportunity to operate the business of GTML and FTML (to the extent of the Textile Undertaking) through a consolidated operations department and a single accounts department, thus resulting in economies of scales. Subsequent to the GTML Amalgamation, GTML will also be in a position to effectively and efficiently manage raw materials and working capital requirements with respect to the combined business of GTML and FTML (to the extent of the Textile Undertaking) which will further result in economies of scale.

F. Integration

The arrangement will strengthen GTML's activities by integrating different stages of production within the field of textile manufacturing, thereby giving room in future for expansion of its business and consequently effecting economies of scale and improving the business now carried on by GTML and proposed to be carried on by it in the future.

299

G. Reduction In Administrative Costs

The arrangement would enable GTML and FTML (to the extent of the Textile Undertaking) to carry out their respective businesses through consolidated operations, accounts, treasury and management information system (MIS) department with consolidated sets of management and staff, thus resulting in substantial cost savings and economies of scales leading to enhanced profitability.

H. Consolidated Corporate and Tax Reporting

The GTML Amalgamation will make consolidated corporate and tax reporting possible for GTML and FTML. It will entail elimination of maintenance of separate records for business operation, selling, purchasing, marketing, legal, administrative, and secretarial and other records under the various laws resulting in duplication of work and higher costs.

GTML will also be in a position to benefit from the utilization of unused / surplus tax credits of the Textile Undertaking which shall benefit the shareholders and the company.

I. Leveraging Against Certain Properties of FTML

The GTML Amalgamation will allow GTML to acquire the benefit of use of certain properties of FTML (not including the Real Estate Undertaking) without having to pay upfront cash consideration to the shareholders of FTML. The shareholders of GTML, by diluting their shareholding in GTML, shall make the operations of GTML (subsequent to the GTML Amalgamation) more efficient financially for the company.

J. Strategic Geographical Locations

The GTML Amalgamation shall allow GTML to have additional industrial presence in the southern region of Pakistan, which will provide a strategic advantage to the merged entity throughout Pakistan. GTML will be able to compete more easily with the southern region competitors to capture the huge potential / prospective Karachi market due to lower transportation costs and availability of technical support in the region to support the customer care. Furthermore, the presence of GTML in the northern and southern regions will enable it to procure additional orders / business, including the export market.

ARTICLE 10

CONSIDERATION FOR THE AMALGAMATIONS

- 10.1. As consideration for the LLPT Amalgamation, LLPT shall issue a total of 13,500,740 (Thirteen Million Five Hundred Thousand Seven Hundred Forty) LLPT Shares to the YBG Shareholders at par and allot approximately 29 (Twenty Nine) LLPT Shares, credited as fully paid up for every 10 (Ten) share(s) of the face value of PKR 10/- (Pak Rupees Ten only) each of FTML, to the YBG Shareholders on the basis of a swap ratio of 2.9146 LLPT Shares for every 1 (one) share of FTML held by each of the YBG Shareholders (the "LLPT Swap Ratio"), approved by the Board of Directors of each of LLPT and FTML from the options stated in the Swap Letter, and all entitlements of the YBG Shareholders shall be determined in the proportion aforesaid. All fractions less than a share shall be consolidated into whole shares which shall be disposed off by LLPT in a manner determined by the Board of Directors of LLPT. Furthermore, as consideration for the LLPT Amalgamation and in lieu of the Other Shareholders foregoing any right to receive shares of LLPT, the Other Shareholders shall receive shares of GTML in excess of the YBG Shareholders as per the provisions of Article 10.3. (ii) below.
- 10.2. The LLPT Swap Ratio has been determined on the basis of the annual audited accounts of FTML for the year ended June 30, 2014 and Balance Sheet of LLPT as at September 30, 2014 and the relative valuations carried out by A. F. Ferguson & Co. in terms of the Swap Letter, as approved by the Board of Directors of each of FTML and LLPT.
- 10.3. As consideration for the GTML Amalgamation, GTML shall issue a total of 4,592,083 (Four Million Five Hundred Ninety Two Thousand Eighty Three) GTML Shares to the shareholders of FTML at par and allot, approximately 7,422 (Seven Thousand Four Hundred Twenty Two) GTML Shares, credited as fully paid up for every 10,000 (Ten Thousand) share(s) of the face value of PKR 10/- (Pak Rupees Ten only) each of FTML, to the shareholders of FTML on the

20

331

basis of a swap ratio of 0.7422 GTML Shares for every 1 (one) share of FTML held by the shareholders of FTML (the "GTML Swap Ratio"), as approved by the Board of Directors of each of GTML and FTML from the options stated in the Swap Letter. Furthermore, as consideration for the Amalgamations (in their entirety), and in light of the arrangement contemplated under Article 10.1. above, the Other Shareholders shall receive shares of GTML in excess of the YBG Shareholders; accordingly, GTML shall issue at par and allot:

- (i) 1,550,484 (One Million Five Hundred Fifty Thousand Four Hundred Eighty Four) GTML Shares, credited as fully paid up for the 4,632,126 (Four Million Six Hundred Thirty Two Thousand One Hundred Twenty Six) share(s), of the face value of PKR 10/- (Pak Rupees Ten only) each, of FTML, to the YBG Shareholders on the basis of a swap ratio of 0.3347 GTML Shares for every 1 (one) share of FTML held by the YBG Shareholders (the "YBG Swap Ratio"), as stated in the Swap Letter, and all entitlements of the YBG Shareholders shall be determined in the proportion aforesaid; and
- (ii) 3,041,599 (Three Million Forty One Thousand Five Hundred Ninety Nine) GTML Shares, credited as fully paid up for the 1,555,377 (One Million Five Hundred Fifty Five Thousand Three Hundred Seventy Seven) share(s), of the face value of PKR 10/- (Pak Rupees Ten only) each, of FTML, to the Other Shareholders (as existing on the Record Data), on the basis of a swap ratio of 1.9555 GTML Shares for every 1 (one) share of FTML held by the Other Shareholders (the "OS Swap Ratio"), as stated in the Swap Letter, and all entitlements of the Other Shareholders shall be determined in the proportion aforesaid. It is clarified that the additional shares of GTML being offered to the Other Shareholders by way of the OS Swap Ratio is in lieu of the Other Shareholders not being offered shares of LLPT.

All fractions less than a share shall be consolidated into whole shares which shall be disposed off by GTML in a manner determined by the Board of Directors of GTML.

- 10.4. The GTML Swap Ratio, YBG Swap Ratio and the OS Swap Ratio have been determined on the basis of the annual audited accounts of FTML and GTML for the year ended June 30, 2014 and the relative valuations carried out by A. F. Ferguson & Co. in terms of the Swap Letter, as approved by the Board of Directors of each of FTML and GTML.
- 10.5. It is clarified that since the YBG Shareholders shall directly receive the benefit of the amalgamation of the Real Estate Undertaking with and into LLPT through the allotment and issue of LLPT Shares in their favour in accordance with Article 10.1. above, they shall receive a smaller proportion of GTML Shares for the amalgamation of the Textile Undertaking with and into GTML in terms of the YBG Swap Ratio. Accordingly, and to ensure that this Scheme is fair for all shareholders of the various companies, the Other Shareholders shall receive a higher proportion of GTML Shares, in terms of the OS Swap Ratio, which shall also compensate them for the amalgamation of the Real Estate Undertaking with and into LLPT. It is emphasized that the OS Swap Ratio has been prepared to ensure that the Other Shareholders are fairly rewarded for the LLPT Amalgamation by receiving a higher proportion of GTML Shares, thus diluting the shareholding of the YBG Shareholders in GTML (who have also received LLPT Shares). The effect of the above arrangement is that the Other Shareholders shall effectively receive valid consideration for the LLPT Amalgamation, as well as the GTML Amalgamation, by way of equivalent value of GTML Shares. On the other hand, the YBG Shareholders shall receive GTML Shares of such value which shall specifically exclude the benefit already

L

333

received by the YBG Shareholders from the allotment and issue of the LLPT Shares. Furthermore, in this manner, the Other Shareholders will not be required to assume the risks associated with the real estate business, particularly in the current volatile market and will gain a greater share of the merged textile business (in which such shareholders had originally sought to invest in).

- 10.6 At least 7 (seven) days' notice shall be given to the shareholders of FTML, in the manner provided in the Articles of Association of FTML and as prescribed under the applicable laws, specifying the Record Date. Such notice shall also specify the date by which the shareholders of FTML (including the YBG Shareholders and the Other Shareholders) shall deliver to FTML, for cancellation, all the share certificates representing ordinary shares in FTML held by them and such share certificates shall be delivered to FTML on or before that date. In relation to those shareholders of FTML who hold shares in book entry form through the CDS on the date specified in the notice, the book entries relating to the shares of FTML in the CDC accounts of such shareholders shall stand cancelled.
- 10.7 The share certificates delivered by the shareholders of FTML in accordance with Article 10.6. above shall stand cancelled and the surrender of the same shall entitle the shareholders of FTML to share certificates of LLPT and GTML for the number of fully paid up shares to which the respective shareholder of FTML is entitled to in accordance with the provisions of this Scheme.
- 10.8 The allotment of the LLPT Shares and the GTML Shares (in accordance with the provisions of this Article 10 shall be made by the respective companies within 30 (thirty) days from the date notified above. The share certificates for such shares shall be made ready for delivery as soon as practicable thereafter and notices of their readiness for their delivery shall be given to the shareholders of each company in the manner provided in the Articles of Association of the respective companies. Share certificates not collected within the time specified in any such notice shall be sent by post in prepaid envelopes addressed to the persons entitled thereto at their respective registered addresses. In the case of joint shareholders, share certificates may be delivered to or may be sent to the address of that one of the joint holders whose name appears first in respect of such joint holding. Neither LLPT, nor GTML shall be responsible for loss of the share certificates in such transmission. In the case of shareholders of FTML, holding shares of FTML in book entry form through the CDS, the CDC shall, on the date to be specified in the notice mentioned in Article 10.6. above, credit their respective CDC accounts / sub-accounts with book entries relating to the corresponding number of GTML Shares and / or LLPT Shares which the relevant shareholder is entitled to in accordance with this Article 10. Such allotment shall be carried out in accordance with the rules and regulations of the CDC.
- 10.9 The GTML Shares and LLPT Shares respectively, issued and allotted to the YBG Shareholders and the Other Shareholders (as applicable) in accordance with the provisions of this Scheme shall, in all respect, rank pari passu and shall be entitled to all dividends declared by the respective companies after the Effective Date. As stated in the Swap Letter, the relevant swap ratios have been calculated on the basis that FTML and GTML have declared dividends after June 30, 2014 (for profit earned by FTML and GTML up to June 30, 2014), which have been paid on November 27, 2014. The dividend have been distributed to the shareholders of FTML and GTML respectively on the basis of book closure determined by the respective Boards of Directors of FTML and GTML and it is clarified that any shareholders of FTML who

335

are issued shares of GTML pursuant to sanction of this Scheme shall not be entitled to any such dividends of GTML.

ARTICLE 11

As of June 30, 2014, an amount of PKR 4,396,000,000/- (Pak Rupees Four Billion Three Hundred Ninety Six Million only) remains outstanding and payable by FTML to the Creditors of FTML, the particulars of which are also detailed in Annexure H attached hereto.

3. THE SCHEME OF ARRANGEMENTS

3.1 Based on the draft of the Scheme provided to us, we understand that the Scheme is for:

- i- separating certain immovable properties of FTML (hereinafter referred to as 'the Specified Properties') including all assets, liabilities and obligations of these properties (hereinafter referred to as 'FTML Real Estate Undertaking') and all other businesses and undertakings of FTML including all the rights, assets, obligations and liabilities of FTML other than the FTML Real Estate Undertaking (hereinafter referred to as 'FTML - Textile Undertaking');
- ii- transfer to, and vesting into GTML, the FTML - Textile Undertaking;
- iii- transfer to, and vesting into LLPT, the FTML Real Estate Undertaking;
- iv- GTML issuing shares in its share capital to FTML - YBG Shareholders and to the FTML - Other Shareholders against the transfer to, and vesting into GTML, the FTML - Textile Undertaking;
- v- LLPT issuing shares in its share capital to FTML - YBG Shareholders against the transfer to, and vesting into the LLPT, the FTML Real Estate Undertaking; and
- vi- Dissolution of FTML without winding up.

4. DETERMINATION OF SWAP RATIO

4.1 For determination of SWAP ratios for:

- i- issuance of shares by GTML in its share capital to the shareholders of FTML (the GTML Swap Ratio) by:
 - a. issuance of shares by GTML in its share capital to the FTML - YBG Shareholders (the YBG Swap Ratio), and
 - b. issuance of shares by GTML in its share capital to the FTML - Other Shareholders (OS Swap Ratio); and
- ii- issuance of shares by LLPT in its share capital to the FTML - YBG Shareholders (LLPT Swap Ratio);

estimates of the comparative fair values of FTML Real Estate Undertaking, FTML - Textile Undertaking and GTML have been used.

4.2 As the FTML - Textile Undertaking is being transferred and vested into GTML, the total number of shares to be issued by GTML in its share capital to the shareholders of FTML have been determined based on the comparative fair value estimates of FTML - Textile Undertaking and GTML.

4.3 After the determination of the total number of shares to be issued by GTML in its share capital to the shareholders of FTML, the proportion of these shares to be issued to FTML - YBG Shareholders and FTML - Other Shareholders has been determined taking into account that FTML - YBG Shareholders are also being issued shares by LLPT in its share capital for the transfer to, and vesting into LLPT, the FTML Real Estate Undertaking in addition to shares being issued to them by GTML in its share capital; whereas FTML - Other Shareholders are only being issued shares by GTML in its share capital. Accordingly, the YBG Swap Ratio and OS Swap Ratio inherently include adjustment for FTML - Other Shareholders not receiving shares in the share capital of LLPT.

4.4 The comparative fair value estimates as of the Valuation Date have been made as explained below:

i- FTML Real Estate Undertaking principally consists of Specified Properties and a bank loan in respect of these Specified Properties (hereinafter referred to as 'Properties Bank Loan') and other items associated therewith. The fair values of Specified Properties have been determined by M/s Iqbal A. Nanjee & Co. (Private) Limited and M/s Sadaruddin Associates (Private) Limited (hereinafter referred to as 'the RE Valuers' whose names appear on the approved list of valuers of the State Bank of Pakistan) as appointed by the FTML and GTML, equity-weight average of which fair values, after adjusting for their income taxation consequences, have been used as estimate of the fair value of Specified Properties. The carrying value of Properties Bank Loan and other items associated therewith as appearing in the audited financial statements of FTML on the Valuation Date has been taken to approximate their fair values due to their nature.

ii- FTML - Textile Undertaking and GTML are running businesses of textile. Accordingly, comparative fair values of these have been estimated using (i) valuations based on discounted future cash flows (DCF Valuations), (ii) adjusted net assets' valuation (NA Valuations), and (iii) market capitalisation based valuations (Market Cap Valuations).

DCF Valuations as at the Valuation Date are based on the projected future cash flows prepared by the managements of the respective companies as reviewed by us for reasonableness and consistency, which have been discounted using an appropriate discount rate reflecting the economic, business and financial risk. Wherever relevant, similar assumptions as to the projected future cash flows and as to discount rates have been used in respect of FTML - Textile Undertaking and GTML.

NA Valuations are based on the carrying values of assets and liabilities as per the Balance Sheets of respective undertakings / companies as at the Valuation Date, which carrying values have been adjusted for the fair valuation of items of property, plant and equipment based on the fair valuations carried out by M/s Iqbal A. Nanjee & Co. (Private) Limited as appointed by FTML and GTML (hereinafter referred to as 'the Valuator' whose name appears on the approved list of valuers of the State Bank of Pakistan), after adjusting for their income taxation consequences.

Market Cap Valuations are based on the weighted average market price of the equity shares of FTML and GTML over a period of three calendar months prior to and upto the Valuation Date at all the stock exchanges where these are listed, based on the data reported by these stock exchanges at their web-sites; with adjustment for the value of FTML Real Estate Undertaking determined as mentioned in (i) above.

iii- GTML also has certain investments in other companies, some of which investees are listed companies, and one of which is a holding company of a listed company. The valuation of these are predominantly based on the market prices of the shares of these companies or of the underlying listed companies as reported at the web-site of the Karachi Stock Exchange at the close of business on the Valuation Date. For other assets and liabilities of these investee companies, values appearing in their respected audited financial statements as at the Valuation Date have been used.

iv- Both FTML and GTML have declared final dividends after the Valuation Date. The amounts of these proposed dividends have been excluded from the above estimates.

5. CALCULATION OF SWAP RATIOS

5.1 On the basis of the fair value estimates and the Swap determination methodology as detailed in paragraph 4:

a- the total number of shares to be issued by GTML in its share capital to the shareholders of FTML (detailed workings attached as Annexure I), and for one share of FTML (i.e. based on the shares held both by FTML - YBG Shareholders and FTML - Other Shareholders), the GTML Swap Ratio works out to:

	DCF Valuations	Based on NA Valuations	Market Cap Valuations	Equi- weight average of DCF Valuations, NA Valuations and Market Cap Valuations
GTML Shares to be Issued to Shareholders of FTML	4,237,161	2,444,596	9,114,169	4,592,083
GTML Swap Ratio i.e. number of shares to be issued by GTML in its share capital to the shareholders of FTML for every share that they hold in FTML	0.6848	0.3951	1.4730	0.7422

b- the number of shares to be issued by GTML in its share capital to FTML - YBG Shareholders and FTML - Other Shareholders (detailed workings attached as Annexure II) works out to:

	DCF Valuations	Based on NA Valuations	Market Cap Valuations	Equi- weight average of DCF Valuations, NA Valuations and Market Cap Valuations
Number of shares to be issued by GTML in its share capital to FTML - YBG Shareholders	1,594,193	202,324	3,894,721	1,550,484
Number of shares to be issued by GTML in its share capital to FTML - Other Shareholders	2,642,968	2,242,272	6,219,448	3,041,599

- 5.2 On the basis of the shares held by FTML – YBG Shareholders and FTML – Other Shareholders in the share capital of FTML (as mentioned in paragraph 2.2), and shares to be issued by GTML in its shares capital to FTML – YBG Shareholders and FTML – Other Shareholders as determined in paragraph 5.1, the YBG Swap Ratio and OS Swap Ratio works out to:

	Based on			
	DCF Valuations	NA Valuations	Market Cap Valuations	Equi- weight average of DCF Valuations, NA Valuations and Market Cap Valuations
YBG Swap Ratio i.e. number of shares to be issued by GTML in its share capital to FTML – YBG Shareholders for every share that they hold in FTML	0.3442	0.0437	0.8408	0.3347
OS Swap Ratio i.e. number of shares to be issued by GTML in its share capital to FTML – Other Shareholders for every share that they hold in FTML	1.6992	1.4416	3.3557	1.9555

6. ISSUANCE OF SHARES BY LLPT

LLPT has been incorporated by the FTML – YBG Shareholders with nominal number of shares, which are held amongst them in similar proportion in which they hold shares of FTML amongst themselves, to effect the transfer to, and vesting into the LLPT, the FTML Real Estate Undertaking. Due to this, regardless of the number of shares issued by LLPT to the FTML – YBG Shareholders, their proportionate shareholding will remain the same. The net assets' value, as at the Valuation Date, of the FTML Real Estate Undertaking extracted from the audited financial statements of FTML is Rs. 1,350,074 thousand (detailed workings attached as Annexure III). Considering the par value of shares of LLPT to be Rs. 100/- each, the shares to be issued by LLPT to the FTML – YBG Shareholders works out to 13,500,740. Accordingly, the LLPT Swap Ratio i.e. the number of shares to be issued by LLPT in its share capital to FTML – YBG Shareholders for every share that they hold in FTML works out to 2.9146.

7. MARKET CAP VALUATIONS – TRANSACTION VOLUME OF SHARES

- 7.1 The number of transactions in the shares, and the number of shares transacted, of FTML at the stock exchanges where these shares are listed have been very low. Statistics of trading in the shares of FTML and GTML based on the data available at the web-sites of the stock exchanges where these are listed are attached as Annexure IV.
- 7.2 In case the valuations based on the market capitalisation (Market Cap Valuations) are not considered relevant, workings on the basis of equi-weight average of DCF Valuations and NA Valuations are attached as Annexure V.
