REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Islamic Income Fund (ABL-IIF), is pleased to present the Condensed Interim Financial Statements (un-audited) of ABL Islamic Income Fund for the quarter ended September 30, 2021.

ECONOMIC PERFORMANCE REVIEW

The average NCPI during the period settled at 8.58%YoY against 8.85%YoY in the same quarter last year. Despite the higher base effect, the inflation only manages to decline slightly as a result of rising housing costs, electricity tariff adjustments, and higher food prices. We estimate the average NCPI for FY22 to settle between 8.5-9.0%YoY.

The country reported a current account deficit of USD 2.2bn in the two months of FY22 compared to a surplus of USD 838mn for SPLY. This increase in imports came due to a recovering economy driven by consumption as it came roaring back. The country imported goods worth USD 13.03bn up by 62.2% for the period under consideration compared to SPLY when it imported USD 8.03bn. On the export front, the country exported USD 5.60bn compared to USD 4.19bn, up by 33.6% YoY. Remittances, on the other hand, clocked in at USD 5.36bn up by 10.4% YoY, remittances are expected to continue the upward trend in coming months. Portfolio investments came in at USD 962bn inflows compared to outflows of USD 135mn in the SPLY. Pakistan also managed to increase its foreign reserves in the period under review due to inflows from the SDR release by the IMF to support global growth. SBP reported its reserves at USD 19.92bn enough to support imports cover of ~3.21 months. On the fiscal side, FBR reported collecting PKR 1.39tr taxes in the 1QFY22 compared to PKR 593bn collected SPLY.

The Large Scale Manufacturing (LSM) grew by 2.25% in July, reflecting a slowdown in industrial output. This slowdown came on the back of growth in LSM during the second half of the FY21 as the economy recovered from the covid-19 lockdowns. Sector-wise, production of 11 items under the Oil Companies Advisory Committee fell by 3.57% YoY in July. The 36 items under the Ministry of Industries and Production rose by 1.40%, while 65 items reported by the provincial bureaus of statistics were up by 5.22%.

MONEY MARKET REVIEW

On the basis of forward looking inflation and rapid deterioration of country's Current Account deficit, the monetary policy committee (MPC) for the first time after a period of 14-months decided to increase the policy rate by 25bps to 7.25%. While the market was on 90/10 split over the "No Change" vs. "Rate Hike", the meager 25 bps resulted in a substantial impact on secondary market yields of both T-bills & Bonds.

On Short term Islamic side, Issuers like K-Electric & HUBCO continued to float Islamic Commercial Papers at spreads between 50 to 100 bps over 6M KIBOR while the short term deposit rates hovered between 7.30% - 7.50% percent. Increased activity was also witnessed in Bai-Muajjal market with placement rates between 7.25% - 7.50% for 1 to 3 month placement. Also, during the year, GoP issued PKR 12.7 billion worth of Long Term Ijara Sukuks.

MUTUAL FUND INDUSTRY REVIEW

Total Assets under management (AUMs) of open end mutual fund posted growth of 1.89% during 3MFY22 (From PKR 1074bn to PKR 1094bn). Fixed income funds (conventional & Islamic) which surged by 15% while, money market (conventional & Islamic) which swelled by 2% to close the period at PKR 268bn and 486bn respectively. AUMs of equity funds (conventional & Islamic) declined by 12% during the said period. Growth in fixed income and money market funds can be attributed on the basis of investor demand for less risky assets amid volatile equity market backed by higher commodity prices in international market and uncertainty regarding the IMF program. ABL Asset Management Company's market share stood at 8.02%.

FUND PERFORMANCE

ABL Islamic Income Fund posted an annualized return of 6.38% during the 1QFY22, against the benchmark return of 3.13%, reflecting an outperformance of 325bps.

At the end of September, the fund had 25.45% of the exposure as Corporate Sukuks, 9.72% was placed with DFI's, 12.87% exposure in commercial paper and 47.59% of the funds exposure was placed as Cash. During the quarter, the fund maintained major exposure in cash in order to benefit from attractive rates offered by Islamic Banks.

During the Quarter, ABL Islamic Income Fund's AUM increased to PKR 4,829.23 million as at September 30, 2021 from PKR 4,737.57 million at the end of June 30, 2021.

AUDITORS

M/s. A.F. Fergusons & Co. (Chartered Accountants), have been re-appointed as auditors for the year ending June 30, 2022 for ABL Islamic Income Fund (ABL-IIF).

FUND STABILITY RATING

On December 31, 2020: VIS Credit rating Company (VIS) has upgraded the Fund Stability Rating (FSR) of ABL Islamic Income Fund (ABL IIF) to 'A+ (f)' (Single A plus (f)) from 'A (f)' (Single A (f)).

MANAGEMENT QUALITY RATING

On December 31, 2020: VIS Credit Rating Company Limited (VIS) has maintained the Management Quality Rating (MQR) of ABL Asset Management Company (ABL AMC) at 'AM2++' (AM-Two-Double Plus). Outlook on the assigned rating has been revised from 'Stable' to 'Positive'.

OUTLOOK AND STRATEGY

With drastic improvement in COVID19 outlook, return of inflation due to higher than usual increase in international commodity prices & significant rise in imports resulting in the widening of trade & current account deficits, we expect the policy rate to continue adjusting upwards during the next few policies with a total expectation of at least 200 bps increase by the end of FY'22.

The fund's strategy will be to minimize interest rate risk on the portfolio by running a short duration portfolio which means avoiding exposure in any instruments with maturity period exceeding 90 days. The fund shall pivot its investment strategy in favour of long term bank deals in order to minimize the volatility in daily returns. The fund shall also take limited exposure in floating rate instruments.

ACKNOWLEDGEMENT

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Central Depository Company of Pakistan Limited) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. The Directors also appreciate the efforts put in by the management team.

- 6.1** As per regulation 61 of the NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the Offering Document subject to the total expense ratio limit. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration under the following rates:

Rate applicable from July 1, 2021 to September 27, 2021	Rate applicable from September 28, 2021 to September 30, 2021	Rate applicable from July 1, 2020 to June 30, 2021
1.00% of average daily net assets	8% of gross earning subject to minimum floor of 0.40% of net assets p.a. and maximum cap of 1.00% of net assets p.a.	1.00% of average daily net assets

The remuneration is payable to the Management Company monthly in arrears.

- 6.2** During the period, an amount of Rs. 2.005 million (2020: Rs 3.445 million) was charged on account of sales tax on management fee levied through Punjab Sales Tax on Services Act, 2012.

- 6.3** The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 01, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 19.142 million is being retained in these financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the Net Asset Value of the Fund as at September 30, 2021 would have been higher by Re 0.018 (June 30, 2021: Re 0.018) per unit.

- 6.4** In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

The Management Company based on its own discretion has currently fixed a maximum capping of 0.1% (2020: 0.1%) of the average annual net assets of the scheme for allocation of such expenses to the Fund.

- 6.5** The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.

During the year ended June 30, 2020, the SECP through its circular 11 dated July 5, 2019 had revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum had been lifted and the asset management company was required to set a maximum limit for charging of such expense to the Fund and the same should be approved by the Board of Directors of the Management Company as part of annual plan. Furthermore, the time limit of three years had also been removed in the revised conditions.

Accordingly, the Management Company has currently charged such expenses at the rate of 0.15% (2020: 0.15%) from July 1, 2021 to September 30, 2021 which is applied to average annual net assets of the Fund. This has also been approved by the Board of Directors of the Management Company.

- 7.1** During period, SRB through its letter dated August 12, 2021 has intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. This development was discussed at MUFAP level and has also been taken up with the SECP and all the Asset Management Companies, in consultation with SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Funds, for the period from May 21, 2015 to June 30, 2017, on August 13, 2021. The SECP has also given its concurrence for prospective reversal of provision for SWWF.

During the month of August 2021, provisioning against Sindh Workers' Welfare Fund amounting to Rs.4.679 million has been reversed. This reversal of provision has contributed towards an unusual increase in NAV of Fund by 0.09%. This is one-off event and is not likely to be repeated in the future.

8 CONTINGENCIES AND COMMITMENTS

There were no other contingencies and commitments outstanding as at September 30, 2021 and June 30, 2020.

9 TAXATION

The income of the Fund is exempt from income tax as per clause 99 of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders as cash dividend. The Fund is exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. Subsequent to the year end, the management has distributed 90 percent of the Fund's net accounting income earned by the year end as cash dividend to the unit holders. Accordingly, no provision in respect of taxation has been made in these financial statements.

10 EARNINGS PER UNIT

The prescribed limit for the ratio is 2.50% (September 30, 2020: 2.50%) (excluding government levies) under the NBFC Regulations for a collective investment scheme categorised as a "Islamic Income" scheme.

13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at September 30, 2021 and June 30, 2020, the Fund held the following financial instruments measured at fair value:
