Attention: Mr. Muhammad Ghufraan
Deputy General Manager

Dear Sirs,

Re: *Start-up and Commissioning of Second Gas Processing Facility, Gambat South*

With reference to our letter No. SAA/CS/SE-0544, dated 11th August 2016, please note that the expected production of LPG given in the penultimate line of paragraph 2 thereof was inadvertently typed as "10 to 2 metric tonnes" instead of "10 to 12 metric tonnes".

The corrected text is reproduced herein below for ease of reference:

"The initial sale of 22 million standard cubic feet per day (mmscfd) of gas has commenced, which will gradually be increased to 33 million standard cubic feet per day from 50 million standard cubic feet per day of raw gas during the plant's performance testing. The plant after reaching its maximum design capacity is expected to produce 500 to 600 barrels per day of condensate and **10 to 12 metric tonnes** per day of liquefied petroleum gas (LPG) in addition to 33 million standard cubic feet per day of sales gas."

Any inconvenience caused due to the inadvertent typographical error is regretted.

The foregoing may kindly be disseminated to your members.

Yours truly,

Shahana Ahmed Ali
Company Secretary
