Annual General Meeting

The 57th Annual General Meeting of Shakarganj Limited will be held on Tuesday, 28 January 2025 at 11:00 a.m. at the E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore and through video link.

COMPANY PROFILE AND GROUP STRUCTURE

Shakarganj Limited was incorporated in Pakistan in 1967 as a Public Limited Company and is listed on the Pakistan Stock Exchange. Shakarganj is a leading manufacturer of food products, biofuel, as well as textiles. We transform renewable crops such as sugarcane and cotton into value added products including refined sugar, biofuel and textiles etc. Our registered office is in Lahore with regional office in Faisalabad. Shakarganj Limited, through its strategic shareholding in Shakarganj Food Products Limited, is also active in production of dairy and fruit products.

Sugar Business

We have two manufacturing facilities, which are both located in District Jhang. We produce different types of sugar comprising pharmaceutical, beverage and commercial grades sugar as well as soft brown sugar, castor and icing sugar, sugar cubes, sachets and retail packs. Our combined crushing capacity is of 16,000 Tons of Cane per Day (TCD) which is extendable to 20,000 TCD.

Biofuel Business

We have six distillation plants of which three are located at our Jhang facility and the remaining three are located at our Bhone facility where various grades of biofuel are produced. Our products include Rectified Ethanol (REN) for industrial and food grades, Anhydrous Ethanol for fuel grade, and Extra Neutral Alcohol (ENA) for pharmaceutical and perfume grades. The combined capacity of our distilleries is 350,000 litres per day.

Textile Business:

This cotton spinning unit produces carded cotton and PC yarn ranging from 10/s to 33/s. The installed capacity is 24,960 spindles for cotton spinning.

Farming & Allied Business:

We have different parcels of agriculture land mainly located in Jhang District near our manufacturing facilities. A dairy farm located at Jhang has been developed, with a herd of around 200 milking and fattening cattle. It has also developed non-chemicals fertilizers for our grower community. The product as organic fertilizer has been developed using an aerobic decomposition process with addition of standardized microbial culture in filter cake. The product is a rich source of organic matter, with macro and micro nutrients to help improve soil and it is very useful for better growth, yield and quality of all field crops in general and specifically for sugarcane.

Business Vision and Strategy:

Shakarganj's vision is to create the country's leading renewable ingredients business. We aim to achieve this by building a consistent portfolio of distinctive, profitable, high-value solutions in products and services for our customers. Shakarganj is committed to providing long-term value for our shareholders. Our strategy is to build a stronger value added business with a low-cost commodity base. We focus on five key business objectives to deliver consistent growth.

- Serve our Customers:

Delivering excellent customer service is at the core of everything we do. Our aim is to be the partner of choice in our customers' processes and to help them develop more successful consumer products.

- Operate Efficiently and Safely:

We aim to be the lowest-cost and most efficient producer in all our markets. Through our expertise in high-volume process management, our focus is on technical and manufacturing excellence and the efficient use of services such as logistics and utilities. We are continually working to improve operational efficiency and strive to ensure safe and healthy conditions for everyone at our sites.

- Invest in Long Term Assets and Partnerships:

We continually evaluate investment opportunities that would add strategic value by enabling us to enter new markets or add products, technologies and knowledge more efficiently than we could originally. We also aim to grow our business by forming joint ventures and partnerships to enhance the capabilities of our existing product portfolio. Using alliances and joint ventures can be an efficient way to lower our cost of investing in new areas and markets, and will help secure access to new and complementary technology and expertise.

- Invest in Technology and People:

We are investing in our research and development capabilities to help us in developing innovative solutions that meet our customers' product challenges. We are also complementing our own capabilities through business and technology partnerships, and university collaborations. To develop talent, improve leadership and help our employees succeed. We operate various Programmes designed to ensure the right skills at all levels to grow our business.

- Grow the Contribution from Value Added Products:

We are committed to grow the contribution from our value added products. Value added products utilise technology and intellectual property enabling us to obtain a price premium along with sustainable and/or higher margins.

ORGANIZATIONAL CHART

REVIEW REPORT BY CHAIRMAN

It gives me immense pleasure to present this report to the shareholders of Shakarganj Limited pertaining to the overall performance of the Board and the effectiveness of its role in attaining the Company's aims and objectives.

Shakarganj Limited has implemented a strong governance framework supportive of an effective and prudent management of business matters which is regarded as instrumental in achieving long-term success of the Company.

During the year, the Board Committees continued to work with a great measure of proficiency. The Audit Committee has focused in particular on the management and control of risks associated with the business. At the same time, the Human Resource and Remuneration Committee has ensured that the HR policies regarding performance management, HR staffing, compensation and benefits are market driven, and are properly aligned not only with the Company's performance and shareholders' interests but also with the long-term success of the Company.

The Board as a whole has reviewed the Annual Report and Financial Statements, and is pleased to confirm that in its view the report and financial statements, taken as a whole, are fair, balanced, and understandable.

The Board carries out a review of its effectiveness and performance each year, on a self-assessment basis. The last such review was carried out in October 2024 for the fiscal year 2024. The overall effectiveness of the Board was assessed as satisfactory and areas that required improvement were duly considered and suitable action plans were framed.

The overall assessment was based on an evaluation of the following integral components:

1. **Vision, Mission, and Core Values:** The Board members are familiar with the current vision, mission, and core values and found them appropriate for the organization.
2. **Engagement in strategic planning:** The Board has a clear understanding of the stakeholders whom the organization is meant to serve i.e. its shareholders, farmers, customers, employees, vendors, and the community.
3. **Formulation of policies:** The Board has established policies that cover all essential areas of board responsibility and operations of the Company.
4. **Monitoring the organization's business activities:** The Board is knowledgeable about the organization's current business activities including strengths and weaknesses of each major activity, and has an effective process for tracking performance activity-wise as well as area-wise.
5. **Adequacy of financial resources management:** The Board is knowledgeable about key aspects relating to managing the financial resources of the Company and provides appropriate direction and oversight on a timely basis.
6. **Provide effective fiscal oversight:** The Board ensures that the budget reflects the priorities established in the annual strategic plan and it complies with regulations governing the audit or independent examination of accounts and considers all recommendations made in the independent auditors' report.
7. **Act as a responsible employer:** The Board has created necessary policies which ensure that the organization behaves in an equitable and legal manner towards staff, contractors, vendors, and any other individual working on its behalf.
8. **Relationship between Board and Staff:** Roles and Responsibilities of Board and management staff are clearly defined and understood and climate of mutual trust and respect exists between Board and management.
9. **Organization's Public Image:** Board members promote a positive image of the organization in the community.
10. **Review of CEO performance:** The Board assesses the performance of the Chief Executive Officer in a fair and systematic manner and ensures that CEO's pay is properly aligned with the Company's performance, shareholders' interests and the long-term success of the Company.

11. Board Structure and Dynamics: Size and composition of the Board is adequate to govern the Board procedures and the members are actively engaged in the work of the Board. The Board meets frequently enough to adequately discharge its responsibilities.

On an overall basis, I believe that the strategic direction of the Company for the next three years is clear and appropriate despite of the tough macroeconomic situation. Further, the processes adopted in developing and reviewing the overall corporate strategy and achievement of Company's objectives are comprehensive. Here, I would also like to recognize the management and our people for their resolve, perseverance and untiring support in these testing times, they have stood firm with us and continued to deliver despite hardships of last couple of years.

I would also like to thank all the stakeholders for consistent support, and I hope that your patronage of the Company would continue in years to come.

Manzoor Hussain
Chairman

Overview of the Company's Business

Crushing season was lasted for only 91 days and was among the shortest crushing season in the history of Shakarganj. Difficult season was experienced as sugarcane procurement prices were sky rocketed during the season without corresponding increase in sugar selling price. Business environments were such that the Company was compelled to crush sugarcane with heavy losses. Sugarcane support price at the start of the season was increased to Rs. 400 per 40 kg as notified by the Panjab Government. However, farmer was not ready to supply sugarcane at this rate and mills were compelled to buy sugarcane at prices even beyond Rs. 500 per 40 kg. Due to non-availability of sugarcane at feasible prices, the crushing campaign was closed on 12 February 2024 at Bhone Division and on 23 February 2024 in Jhang Division. Inspite of very challenging situation, your Company managed to crush 778,454 MT of sugarcane as compared to 1,019,181 MT of sugarcane in the corresponding period.

Due to above situation, there is a big challenge because the sugar price was never fixed rather adversely controlled by Government by taking various measures. Our Biofuel business had also suffered due to lower demand in international market and non-availability of molasses at feasible prices. Our textile business has also affected adversely due to overall situation in the yarn market and the difficult business environments continued in the textile sector, therefore, the plant could not be operated during the year.

The Company incurred gross loss of Rs. 2,022.99 million as compared to gross loss of Rs. 322.72 million during last year. Loss from operations was Rs. 2,677.67 million compared to loss from operations of Rs. 935.59 million during last year. Company posted loss before tax of Rs. 3,183.81 million and after-tax loss of Rs. 3,057.44 million as compared to after tax loss of Rs. 546.22 million in the corresponding year. The Company accounted for its share of loss in equity accounted investment in

Shakarganj Food Products Limited amounting to Rs. 137.33 million as compared to profit of Rs. 87.33 million in the previous year.

Principal Risks and Uncertainties Facing

Following are the principal risks and uncertainties currently faced by the Company:

- Higher purchase price of sugarcane as compared to sugar sale price
- Heavy taxation, sales tax rates on finished products
- Lack of irrigation water, reducing the yield of crop & low-capacity utilizations
- Vulnerable to political interests
- Being an agro based industry, inherent risks of natural calamities / conditions
- Increasing cost of production and labour
- Overall inflationary increase in operational expenses
- Environmental concerns and sugar free products
- Further Rupee devaluation will result in cost escalation

Adequacy of Internal Control

The system of internal control of the Company is sound in design and has been effectively implemented and monitored. The Board of Directors is aware of its responsibility with respect to internal controls environment and accordingly has established an efficient system of internal financial controls, for ensuring effective and efficient conduct of operations, safeguarding of Company's assets, compliance with applicable laws and regulations and has a reliable financial reporting system. The outsourced independent internal audit function is in operation and such function regularly appraises and monitors the implementation of financial controls. Audit Committee of the Board, reviews the effectiveness of the internal control framework and financial statements regularly on quarterly basis.

Auditors

The auditors Kreston Hyder Bhimji & Co., Chartered Accountants will retire and have offered themselves for reappointment. The Board, on recommendation of the Audit Committee, has recommended the reappointment of Kreston Hyder Bhimji & Co., Chartered Accountants, as auditors for consideration of members at the forthcoming Annual General Meeting.

Corporate Social Responsibility

We actively seek opportunities to contribute to the communities in which we operate and to improve the environments that sustain us all. Our areas of primary focus are education, health and safety, energy conservation, waste reduction, and community building. During the year Shakarganj contributed around Rs. 22.62 million toward these activities. As a responsible member of the corporate community, Shakarganj always contributes substantially towards the national economy on account of taxes and other government levies. Company's contribution toward federal, provincial and local taxes was Rs. 1,434 million during the year under review.

At Shakarganj, Corporate Social Responsibility (CSR) is a strategic management driven initiative that incorporates our business, environmental, and citizenship activities in a manner that supports our vision and upholds our values. We aim to play a positive role in the communities in which we operate. Our community involvement policy is one of the core components underpinning our ethical behaviour. Our programmes involve building long term relationships with local communities to deliver our shared objective: establishing strong, safe, healthy and educated communities by investing time and resources into projects that directly address local needs. Our Social Action Programme (under Shakarganj Foundation) delivers a variety of social services in our extended community under the banner of "Sukh Char Programme" These services include education, healthcare, promotion of arts, and protection of our cultural heritage.

Our school adoption initiative provides support to 35 local girls' and boys' schools that includes provision of clean drinking water, nutrition supplements, uniforms, maintenance of infrastructure and

building additional facilities where required. Provision of Oolala flavoured milk is our regular feature and 235 students have been provided Oolala flavoured milk on a regular basis in two schools. Shakarganj also provides support to the education programme of The Citizens Foundation. To provide backbone support to the education initiative a purpose-built teachers training institute was established at Shakarganj premises as a public service.

Shakarganj funded special incentives for school children including recognition of high achievers in school exams with scholarships and awards, sports competitions for school children, and inter-school handwriting competitions for school children and teachers. Our Healthcare initiative delivers primary medical facilities at the doorsteps of our extended community. Three teams of qualified doctors, paramedical staff, and mobile dispensaries served over 11,000 patients during the year.

We provide support to promising local talent in improving their artistic skills in a structured training programme at the School of Art and Calligraphy. A display centre exhibiting the works of these artists and promotion of cultural heritage is also maintained by Shakarganj at the School. In the year 2023-2024, total 240 students have been passed out in Fashion Designing and Fine Art batches.

Health, Safety, and Environment

As we always aim to be an exemplary corporate citizen, health, safety, and environmental concerns are always among our key focus points. We are committed to providing healthy, safe, and clean conditions for our employees, contractors and visitors. In providing a good working environment there is no higher priority than safety and we target continuous improvement to reduce recordable injury and accident times to zero. Nearly twelve hundred members of Team Shakarganj have participated in a structured program to obtain professional training and certification in first aid in collaboration with Pakistan Red Crescent Society - Punjab and Rescue 1122. Moreover, about 65 members of Team Shakarganj have participated in Workplace Safety and Decent Work by W.W.F. Preventive action and training and timely response procedures to deal with potential accidents have resulted in minimising recordable injuries and accidents.

Environmental protection issues are always considered on a higher priority than profit concerns. Shakarganj produces all its products from renewable crops and raw materials and does not believe in making profits at the cost of damage to our environment. We proactively fund and support environmental protection activities in our communities in particular and on national level generally. Energy conservation and aiming for 'zero' waste are our key environment friendly policies. Using sugar by-products in our production lines substantially reduces use of fossil fuels and waste disposal problems. Distillery spent-wash is the ultimate waste product in our production process. This is now biologically treated to produce bio-gas as fuel, and water which is safe to use for irrigation. In addition to this we encourage and promote biological pest control, organic farming techniques, and return of all natural nutrients to the soil that are brought with supply of sugarcane to the mills. We strongly support the activities of Worldwide Fund for Nature - Pakistan, run regular training and education programmes for water management and participate in tree plantation campaigns twice every year. We planted 8,500 plants during spring and autumn plantation campaigns. Our approach to HSE is apparent in our Mission Zero Agenda that targets zero accidents and work-related illnesses. To effectively implement the mission zero agenda, we empower and encourage our people to play their part. We all have a part to play in keeping our workplaces safe. One of the most effective ways we can do this is by being aware of the risks around us and taking action to address these. That's why we actively encourage all our people to regularly assess their working environments and report any identified risks - as they arise. As a result, we have achieved 3.16 million safe working man hours without lost time injury.

To ensure a safe and healthy work environment within the Company premises strict checking is ensured and measures also include categorization of staff essential to be present in office for uninterrupted operations.

Shakarganj is committed to providing a healthy and safe workplace for all personnel performing their duties on its behalf, in a manner that protects the environment, prevention of pollution, and compliance of applicable legal and other requirements. We remain committed to protecting the

physical and mental health of our employees, extending the scope and coverage of occupational health services, and constantly improving our occupational health management system. At Shakarganj, health checks are organised on a regular basis for our employees. In addition, we keep health records of employees for better health management and disease prevention. We also pay close attention to a dedicated health support system and provide special disease checks to ensure the health and safety of our employees. We have also released the comprehensive Emergency Plan for incidents and accidents at Shakarganj, and have established a safety management and risk prevention system for the Company. We organise regular emergency drills to improve the plan, enhance awareness of prevention and self-help of the employees and improve the team's ability to handle emergencies.

As required under the accounting and reporting standards as applicable in Pakistan and as per the requirements of Companies Act, 2017 (XIX of 2017), the management is aware of its responsibility for the preparation and fair presentation of the financial statements for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Chief Executive Officer and Chief Financial Officer presented the financial statements, duly endorsed under their respective signatures, for consideration and approval of the Board of Directors and the Board, after consideration and approval, authorised the signing of financial statements for issuance and circulation. The financial statements of the Company have been duly audited and approved by the auditors of the Company, Kreston Hyder Bhimji & Co., Chartered Accountants and their report is attached with the financial statements. The Directors endorse the contents of this annual report and those shall form an integral

part of the Directors' Report in terms of Section 227 of the Companies Act, 2017 and the requirements of the Listed Companies (Code of Corporate Governance) Regulations 2017.

Dividend and Carried Forward

The Directors have recommended nil dividend for the year ended 30 September 2024. Moreover, no amount is being carried forward to the general reserve or any other reserve funds account.

Subsequent Events

No material changes and commitments affecting the financial position of the Company have occurred between the end of the financial year to which this Balance Sheet relates and the date of the Directors' Report.

Default in Payments, Debt or Loan

The Company recognizes its responsibility of timely repayments of due amount and adhering to the best practices prevails in the industry it is stated that no default in payment of any loan or debts was occurred during the year under review except as disclosed in financial statements.

Change in Nature of Business

No change has been occurred during the financial year relating to the nature of the business of the Company.

Related Party Transactions

All related party transactions are approved by the Board after review and recommendation of Audit Committee. The Company has made detailed disclosures about related party transactions in its financial statements annexed with this annual report. Such disclosure is in line with the requirements of the 4th Schedule to the Companies Act, 2017 and applicable International Financial Reporting Standards.

Financial Review and Going Concern Assumption

In view of low crushing and production, the financial results were not encouraging, however, the Company remains committed to its best efforts to achieve better performance and to improve its liquidity scenario in future. As reported earlier, Shakarganj Limited has been included in Non-Compliant List by Pakistan Stock Exchange. Its current liabilities have exceeded its current assets by Rs. 5,417.81 million. However, the Company remains committed to improve its liquidity scenario. Various steps have been planned to overcome the liquidity crunch as given in Note 1.3 to the financial statements attached herewith. All out efforts are being made to improve the production and profitability of the Company through efficiency, effectiveness, and reducing production cost. The management considers that the measures explained might result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. However, as mentioned above, the business environments were such that the Company was compelled to crush sugarcane with heavy losses which factor affected the progress seriously. But still the management of the Company was determined to take chance wherever opportunities arise in future.

Future Outlook

For next crushing season, Government has not fixed sugarcane price and no notification has been issued so far. It is hoped that The Punjab Government would continue to let the market forces work in all the fields for fair play. This factor may cause to create better business environment with better margins. Raw material for our biofuel operations was not available at feasible prices in view of lower crushing and short season. Whereas future outlook of our distilleries operations is always dependent on continuous availability of good quality molasses. Due to higher prices and cash flow crunch buying

on large scale basis is not expected, however, management is determined to try its best to run the distilleries at capacity in next season. Further cut in rate of interest would also help to ease out financial worries of industries. However, difficult business environments in the textile business due to high cost of raw material, the operations could not be started yet. As mentioned in our last annual report, management is taking steps to overcome the liquidity crunch and we are hopeful that the Company would continue its operations. Inspite of all the challenges, we remain committed to navigating through the challenging times.

Acknowledgment

The Directors wish to express their appreciation to the staff & workers of the Company for their dedication and devotion to the Company. The Directors feel pleasure in expressing appreciation for the continued interest and support of the shareholders, bankers and all other parties involved and hope that the same spirit will prevail in the future as well.

By Order of the Board

Independent Auditor's Review Report

To the members of Shakarganj Limited

Review Report to the members on the Statement of Compliance contained Listed Companies
(Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Shakarganj Limited (the Company) for the year ended 30 September 2024 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the statement of compliance reflects the status of Company's compliance with the provisions of regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations required the Company to place before the Audit Committee, and upon the recommendation of the Audit Committee, place before the Board of Directors, for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Regulations as applicable to the Company for the year ended 30 September 2024.

INDEPENDENT AUDITOR'S REPORT

To the members of Shakarganj Limited

Report on the Audit of the Unconsolidated Financial Statements

Adverse Opinion

We have audited the annexed unconsolidated financial statements of Shakarganj Limited (the "Company"), which comprises statement of financial position as at 30 September 2024 the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity, the unconsolidated statement of cash flows for the year then ended and notes to the unconsolidated financial statements including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of the audit.

In our opinion and to the best of our information and according to the explanations given to us, because of the significance of the matters described in Basis for Adverse Opinion Paragraph, the unconsolidated statement of financial position, the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes forming part thereof do not conform with the accounting and reporting standards as applicable in Pakistan and do not give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively do not give a true and fair view of the state of the Company's affairs as at 30 September 2024 and of the loss, the other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Adverse Opinion

The Company has again sustained loss after income tax for the year ended 30 September 2024 amounting to Rs. 3,057.44 million, which took the accumulated loss to Rs. 5,299.23 million at the reporting date along with adverse current ratio at that date. Further, the textile segment of the Company remained closed during the whole period as well as the previous year. The Company has also overdue statutory obligations. The disposal of certain assets are held up due to court cases, while the company needs funds for the upgradation of plant & machinery of textile and sugar divisions at Jhang. There is no written commitment from the directors / shareholders of the company to finance its above said obligations / working capital requirements.

All these situations indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern, which has not been appropriately resolved, assessed and disclosed in these financial statements.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key Audit Matter(s):

S.No.	Key audit matters	How the matters were addressed in our audit
1.	Inventory As at 30 September 2024 inventory comprises consumable stores and spares and stock in trade as disclosed in notes – 9 and 10 to the annexed unconsolidated financial statements. There is a risk in estimating the eventual NRV of items held, as well as assessing which items may be slow-moving or obsolete. The Company's principal accounting policy on inventory and the critical accounting estimates, judgements and assumptions are disclosed in note 4.6 to the annexed unconsolidated financial statements. Further, stock in trade in unconsolidated financial statements as disclosed in notes – 9 and 10 include: • Raw materials comprising mainly molasses; • work-in-progress mainly comprising sugar in process, molasses in process and polyester in process; and • finished goods mainly in the shape of refined sugar and ethanol. The molasses and ethanol is stored in storage tanks. As the weighing of these inventories of stock in trade is not practicable by obtaining measurements of tanks and converting these measurements to units of volume by using an angle of repose, therefore, management assesses the reasonableness of the quantities on hand by relying on the memorandum record and proportion as per production report. - Due to the significance of inventory balances of consumable stores and spares and stock in trade and related estimations involved, this is considered a key audit matter. -	Our audit focused on whether the valuation of year-end inventory was in line with IAS 2. This included challenging judgements taken regarding obsolescence and net realizable value provisions. We obtained assurance over the appropriateness of management's assumptions applied in calculating the value of inventory by: • checking the effectiveness of controls associated with the existence and condition of inventories by attending inventory counts at year end with sample / verification test; • critically assessing the Company's provisioning policy, with specific consideration given to aged / slow-moving inventory; • assessed the management's process of measurement and the determination of values using conversion of volumes to total weight as well as confirming it from perpetual record. • obtained and reviewed the inventory valuation report relating to molasses of the external surveyor and assessed its accuracy and authenticity; and • tested the NRV of the inventories held by performing a review of sales close to and subsequent to the year end.

2.	Revenue Recognition As per ISA 240, there is a presumed risk of material misstatement due to inappropriate revenue recognition. This may either result from an overstatement of revenues through premature revenue recognition or recording fictitious revenues or understatement of revenues through improperly shifting revenues to a later period. These revenue may also be manipulated through the use of inappropriate rates for the overstatement / understatement of revenue to achieve desired financial results. The accounting policy related to recognition of revenue by the company is provided in note 4.28 to the annexed unconsolidated financial statements. - In view of significant value of transactions and presumed risk of material misstatement involved, we have considered this as a key audit matter.	In this regard, our audit procedures amongst others included the following: • Assessing the appropriateness of the Company's accounting policies for revenue recognition and compliance of those policies with applicable accounting standards including management's assessment of impact of "Revenue from contracts with customers" (IFRS 15). • Obtaining an understanding of the nature of the revenue contracts entered into by the Company, testing a sample of sales contracts to confirm our understanding and assessing whether or not management's application of IFRS 15 requirements was in accordance with the standard. • Performing cut-off procedures for a sample of revenue transactions at year end in order to conclude as to whether they were recognized at the moment the related goods actually sold. • Analyzing other adjustments and credit notes issued after the reporting date, if any. • Performing analytical procedures on entries in the daily ledger related to revenue made by the Company. These procedures were carried out by paying special attention to accounting entries recorded close to the yearend or subsequently, as well as those deemed unusual, among other reasons, due to their nature, amount and date of occurrence. • Reviewing disclosures included in the notes to the annexed unconsolidated financial statements.
3.	Contingencies As disclosed in Note 26 to the annexed unconsolidated financial statements, the Company has contingent liabilities in respect of various matters, which are pending adjudication before respective authorities and courts of law. Management has engaged independent lawyers and legal advisors on these matters. Accounting for and disclosures of contingencies is complex and a matter of significance in our audit because judgments and estimates may be required against such contingencies in accordance with applicable financial reporting standards, in relation to the	Our audit procedures among others included obtaining an understanding of the process and controls on this area relevant to our audit. Further, we have: • Obtained the letter received from the authorities and reviewed to understand the basis of claims and details of the pending matters. The same was discussed with the Company's management. • Reviewed the correspondence of the Company with the relevant authorities, tax and legal advisors, including judgments or orders passed by the competent authorities,

	interpretation of laws, statutory rules and regulations, and the probability of outcome and financial impacts, if any, on the Company for disclosure and recognition and measurement of any provisions. Due to the significance of the amounts involved, uncertainties regarding the outcome of certain matters, and the utilization of substantial management judgments and estimates to assess the same, including the associated financial impacts, we have identified these as a key audit matter. For further information on contingencies, refer to notes 4.17 and 26.	to track the progress of the claim up to date the auditor's report is issued. • Obtained and reviewed confirmations from the Company's external tax and legal advisors for their views on the probable outcome of the open tax assessments and other contingencies. • Discussed with in house legal department personnel of the company, remit and scope of the legislation and to assess reasonableness of management's conclusions on such pending matters. • Reviewed and evaluated the adequacy of disclosures made in respect of such contingencies in notes to unconsolidated financial statements, to conclude as to whether the disclosure is sufficient for compliance with IAS-37 "Provisions, Contingent Liabilities and Contingent Assets".

Information Other than the Unconsolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the unconsolidated financial statements and auditor's report thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. As described in the Basis for Adverse Opinion section above, the Company should have incorporated and accounted for these adjustments. We concluded that the other information is materially misstated for the same reason with respect to the amounts or other items in the directors' report affected by the failure to incorporate and account for these adjustments.

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of directors is responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the unconsolidated statement of financial position, the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows (together with the notes thereon have been drawn up in conformity with the Companies Act, 2017(XIX of 2017) and are in agreement with the books of account and returns, except for the matters described in Basis for Adverse Opinion section;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

Other Matter

The financial statements of the Company for the year ended September 30, 2023, were audited by another auditor who expressed an adverse opinion on those unconsolidated financial statements on February 15, 2024. The basis of adverse opinion was:

The Company has suffered loss after taxation of Rs. 546.22 million during the current year and has accumulated losses of Rs. 2,797.84 million as at the reporting date. The current liabilities of the Company exceeded its current assets by Rs. 3,238.93 million. The Company has overdue statutory obligations. The textile segment of the Company remained closed during the whole year. The management of the Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Company which includes Sugar and Biofuel divisions. However, we noted that certain shareholders of the Company have filed petitions in Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective Courts regarding the approval of disposal of certain agricultural land of the Company. As the going concern assumption used in preparation of the financial statements is dependent upon roll out of the aforesaid turnaround plan and whose roll out requires prior approval of shareholders of the Company in their general meeting and such approval of shareholders and disposal of the Bhone Unit is unlikely in current litigation scenario, hence this situation indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. The financial statements do not adequately disclose this fact.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2024

1 CORPORATE AND GENERAL INFORMATION

1.1 Legal status and operations

Shakarganj Limited (the Company) is a public limited company incorporated on 20 September 1967 in Pakistan under the Companies Act, 1913 (Now Companies Act, 2017) and is listed on Pakistan Stock Exchange Limited. It is principally engaged in manufacture, purchase and sale of sugar, biofuel and yarn. The Company has its principal manufacturing facilities at Jhang and satellite manufacturing facilities at Bhone. The registered office of the Company is situated at E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore.

These financial statements are of the individual entity i.e. Shakarganj Limited.

1.2 Geographical locations and addresses of all business units of the Company except for the registered office are as follows:

Manufacturing units and offices	Address
Jhang Unit (Sugar, biofuel and textil	5 KM Toba Tek Singh Road, Jhang.
Bhone Unit (Sugar and biofuel)	63 KM Jhang - Sargodha Road, Bhone, Tehsil and District Jhang.
Liaison Office	Nishatabad, Chak Jhumra Road, Faisalabad.

1.3 Going concern assumption

The Company has suffered the loss after income tax of Rs. 3,057.44 (2023: Rs. 546.22) million and its accumulated losses are of Rs. 5,299.23 (2023: Rs. 2,839.28) million as at 30 September 2024. The current liabilities of the Company exceeded its current assets by Rs. 5,417.81 (2023: Rs. 3,238.93) million. Moreover, the Company has overdue statutory obligations. Furthermore Textile segment of the Company remained closed during the whole year. Certain shareholders of the Company have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Company. These factors indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these financial statements have been prepared on going concern basis due to following reasons:

- The Company is making arrangements to sell its agriculture land having market value of Rs. 755.547 million. For this purpose, approval of shareholders has been obtained in Annual General Meeting of the Company held on 28 February 2022 subject to further orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection from lenders. The proceeds through disposal of land will be utilized by the Company to pay to sugarcane growers and to settle the other liabilities of the Company while the remaining proceeds will be utilized for up gradation of plant and machinery of textile and sugar divisions at Jhang.
- The management of the Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Company which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 30 September 2024 is Rs. 7.051 billion. Price discovery by the management for the whole Bhone Unit of the Company including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Company. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2024.

- The Company is in the process of installing the falling film evaporators. Falling film evaporators are alternative to Robert type evaporators and help to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would also increase the recovery ratio accordingly.
- The Company remains committed to its best efforts to improve liquidity position. The financial projections of the Company show improvements in cash generation and profits. The management considers that the measures as explained above would result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, these financial statements have been prepared on a going concern basis which assumes that the Company will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.

2 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards or IFAS, the provisions of and directives issued under the Companies Act, 2017, have been followed.

3 BASIS OF MEASUREMENT

a) Accounting convention

These financial statements have been prepared following accrual basis of accounting except for the statement of cash flows.

These financial statements have been prepared under the historical cost convention without any adjustments for the effect of inflation or current values, except for the following material items in the statement of financial position:

- Inventories that are valued at lower of weighted / moving average cost or Net Realizable Value (NRV) in accordance with IAS 2;
- Freehold land, buildings on freehold land and plant and machinery that stands at the revalued amount in accordance with IAS 16;
- Biological assets at fair value less estimated point of-sale costs as per IAS 41;
- Actuarial valuation of pension and gratuity as per IAS 19; and
- Certain financial instruments which are carried at their fair value in accordance with IFRS 9.

b) **Separate financial statements**

These financial statements are the separate financial statements of the Company in which investment in subsidiary company is accounted under equity method. Consolidated financial statements of the Company are prepared and presented separately. The Company has 52.39% equity shares of Shakarganj Foods Product Limited as a long-term strategic investment.

c) **Functional and presentation currency**

The financial statements are presented in Pakistani Rupee (Rs.) which is the Company's functional and presentation currency. All financial information presented in Pakistan Rupees has been rounded to nearest rupee, unless otherwise indicated.

d) **Critical accounting estimates, judgements and assumptions**

The preparation of financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. In addition, it requires management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a high degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are documented in the following accounting policies and notes, and relate primarily to:

Description	Note
• Current income tax expense, provision for current tax and recognition of deferred tax asset (for carried forward tax losses)	4.1
• Useful lives and residual values of property, plant and equipment as well as fair values	4.2
• Useful lives, residual values and amortization method of intangible assets	4.3
• Fair value less estimated point-of-sale costs	4.5
• Inventories (stock in trade and consumable stores and spares)	4.6
• Lease term	
• Estimation of provisions	4.13
• Estimation of contingent liabilities	4.15
• <i>Expected credit losses of certain financial assets under IFRS 9</i>	4.17
• <i>Impairment loss of non-financial assets other than inventories</i>	4.17
• <i>Revenue from contracts with customers involving sale of goods</i>	
• <i>Classifications</i>	

The revisions to accounting estimates (if any) are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

e) **Change in accounting policy**

During the year, the Institute of Chartered Accountants of Pakistan (ICAP) has withdrawn Technical Release 27 'IAS 12, Income Taxes (Revised 2012)' and issued the 'IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes' (the Guidance). Accordingly, in accordance with the Guidance, the Company has changed its accounting policy to recognize minimum and final taxes as 'Levy' under IAS 37 "Provisions, Contingent Liabilities and Contingent Assets" which were previously being recognized as 'Income tax'. The Company has accounted for the effects of these changes in accounting policy retrospectively under para 22 of IAS 8 "Accounting Policies, Change in Accounting Estimates and Errors;" and the corresponding figures have been restated in these financial statements. The effects of restatements is disclosed in notes 32 and 33.

f) **Standards, interpretations and amendments to publish approved accounting standards**

The following amendments to existing standards have been published that are applicable to the Company's financial statements covering annual periods, beginning on or after the following dates:

- New accounting standards interpretations and amendments to accounting standards that are effective and relevant
Certain standard amendments and interpretations to approved accounting standards are effective for the accounting periods beginning on or after 01 October 2023 but are considered not to be relevant or to have any significant effect on the Company operations and are, therefore, not detailed in these financial statements.

- New accounting standards and amendments to standards not yet effective

There are certain standards, amendments to the approved accounting standards and interpretations that are mandatory for the Company's accounting periods beginning on or after 01 October 2024 but are considered not to be relevant or to have any significant effect on the Company's operations and are, therefore, not detailed in these financial statements, except for the following.

		Effective for the period beginning on or after
IAS 21	Amendments to IAS 21 'The effects of Changes in Foreign Exchange Rates' address situations where a currency may lack exchangeability, often due to government-imposed controls. In such cases, companies must estimate a spot exchange rate reflecting orderly transactions at the measurement date.	01 January 2025
IFRS - 16	Amendments to IFRS 16, Leases on sale and leaseback	01 January 2024
IAS-1	Amendment to IAS 1 - Non-current liabilities with covenants and amendments regarding the classification of liabilities as current or non-current.	01 January 2024
IFRS 7 and IAS 7	Amendments to IAS 7 and IFRS 7 'Supplier Finance Arrangements to add disclosure requirements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements.	01 January 2024
IFRS 7 and 9	IFRS 7 and IFRS 9 which clarify the date of recognition and derecognition of a financial asset or financial liability. The Company's management at present is in the process of assessing the full impacts of these new standards and the amendments to IFRS 7 and IFRS 9 and is expecting to complete the assessment in due course.	01 January 2026
IFRS-10 / IAS-28	IFRS 10 - Consolidated Financial Statements and IAS 28 - Investment in Associates and Joint Ventures (Amendment regarding sale or contribution of assets between an investor and its associate or Joint Venture).	Deferred indefinitely
IFRS 17	Insurance Contracts (New standard)	01 January 2026

- New Standards issued by IASB but have not yet been notified/adopted by SECP

IFRS 18	IFRS 18 Presentation and Disclosure in Financial Statements and IFRS 19 Subsidiaries without Public Accountability: Disclosures. These standards will become part of the Company's financial reporting framework upon adoption by the SECP.	01 January 2027
IFRS - 1	First Time Adoption of IFRS (restructured version)	01 July 2009

The Company's management at present is in the process of assessing the full impacts of these new standards and the new amendments and is expecting to complete the assessment in due course.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Income tax / levy

Income tax comprises of current tax and deferred tax. Income tax expense is recognized in the statement of profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity (if any), and in which case the tax amounts are recognized directly in in other comprehensive income or equity.

Income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Levy

In accordance with the Income Tax Ordinance, 2001, computation of turnover tax and final tax is not based on taxable income. Therefore, as per IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the ICAP, these fall within the scope of IFRIC 21 / IAS 37 and accordingly have been classified as levy in these financial statements, except for taxes on dividends on the Company's investments in subsidiaries and associates which are specifically within the scope of IAS 12 and hence these continue to be categorised as current income tax.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit / loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses and credits only if it is probable that future taxable amounts will be available to utilise those temporary differences and unused tax losses and credits.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of property, plant and equipment) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Sales tax

Revenues, expenses and assets are recognized net off amount of sales tax except:

- Where sales tax incurred on a purchase of asset or service is not recoverable from the taxation authority, in which case the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables or payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Judgment and estimates

Significant judgment is required in determining the income tax expenses and corresponding provision for tax. There are many transactions and calculations for which the ultimate tax determination is uncertain as these matters are being contested at various legal forums. The Company recognizes liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax assets and liabilities in the period in which such determination is made.

Further, the carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. If required, carrying amount of deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profits to allow the benefit of part or all of that recognised deferred tax asset to be utilised. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Off-setting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable

right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4.2 Property, plant and equipment Operating fixed assets - tangible Owned

Property, plant and equipment except freehold land, buildings on freehold land and plant and machinery are stated at cost less accumulated depreciation and accumulated impairment losses (if any). Freehold land is stated at revalued amount less accumulated impairment losses (if any). Buildings on freehold land and plant and machinery are stated at revalued amount less accumulated depreciation and accumulated impairment losses (if any). The accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of these assets; and thereafter the carrying amount of these assets are adjusted to the revalued amount. Cost of property, plant and equipment consists of historical cost, borrowing cost pertaining to erection / construction period of qualifying assets and other directly attributable cost of bringing the asset to working condition.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefit associated with item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the period in which they are incurred.

De-recognition

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de recognition of the asset is included in the statement of profit or loss in the year the asset is de-recognized.

Depreciation

Depreciation on all operating fixed assets is charged to statement of profit or loss by applying the reducing balance method so as to write off the depreciable amount of the assets over their estimated useful lives at the rates given in Note 5.1. The residual values and useful lives are reviewed by the management at each financial year end and adjusted if impact on depreciation is significant. Depreciation on additions to property, plant and equipment is charged from the month in which the asset is acquired or capitalized, while no depreciation is charged for the month in which the asset is disposed of.

Capital work in progress

Capital work-in-progress is stated at cost less any identified impairment loss and represents expenditure incurred on property, plant and equipment during construction and installation. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. Cost also includes applicable borrowing costs. Transfers are made to relevant operating fixed assets category as and when the assets are available for use.

Revaluation

Any revaluation increase arising on the revaluation of free hold land and building on free hold land and plant & machinery is recognized in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on property, plant and equipment", except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of freehold land

and building on freehold land and plant & machinery is charged to profit or loss to the extent that it exceeds the balance, if any, held in the Revaluation surplus on property, plant and equipment relating to a previous revaluation of that asset. The surplus on revaluation of building on free hold land and plant & machinery to the extent of incremental depreciation charged (net of deferred tax) is transferred to unappropriated profit.

The frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years.

Judgment and estimates

The Company reviews the useful lives and residual values of property, plant and equipment annually by considering expected pattern of economic benefit that the Company expects to derive from the item and the maximum period up to which such benefits are expected to be available. Any change in estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

4.3 Intangibles

Measurement

Intangible assets, other than goodwill, are measured at cost less accumulated amortization and accumulated impairment losses. Amortization is charged so as to allocate the cost of assets over their estimated useful lives, using the straight-line method.

Research and development expenditure is charged to 'administrative and general expenses' in the statement of profit or loss, as and when incurred.

Judgment and estimates

The useful lives, residual values and amortization method are reviewed on a regular basis. The effect of any changes in estimate accounted for on a prospective basis. All intangible assets are estimated to have definite useful lives.

4.4 Investments

Investments intended to be held for less than twelve months from the reporting date or to be sold to raise operating capital are included in current assets, all other investments are classified as non-current. Management determines the classification of its investments at the time of purchase depending on the purpose for which the investments are required and re-evaluates this classification on regular basis.

Investment in subsidiaries

Investments in subsidiaries / associates where the Company has control / significant influence are measured at cost less impairment, if any, in the Company's separate financial statements. At subsequent reporting date, the recoverable amounts of investments are estimated to determine the extent of impairment losses, if any, and carrying amounts of investments are adjusted accordingly. Impairment losses are recognized as expense in the statement of profit or loss. Investments in subsidiaries and associates that have suffered an impairment are reviewed for possible reversal of impairment at each reporting date. Where impairment losses are subsequently reversed, the carrying amounts of the investments are increased to the revised recoverable amounts but limited to the extent of initial cost of investments. Impairment losses

recognized in the statement of profit or loss on investments in subsidiaries and associates are reversed through the statement of profit or loss.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS 27, 'Separate Financial Statements'.

4.5 Biological assets

Biological assets comprises standing crops and livestock. These are stated at fair value less estimated point-of-sale costs, with any resultant gain or loss recognized in the statement of profit or loss. The fair value of standing crops is based on the support price fixed by the Government and other factors such as estimated crop yield and area under cultivation. The fair value of livestock is estimated on the basis of market prices of livestock of similar age, breed and genetic merit. Point-of-sale costs include all costs that are necessary to sell the assets, excluding costs necessary to get the assets to the market.

4.6 Inventories

Measurement

Inventories comprises of refined sugar, bio-fuel, bagasse, molasses, sugar and molasses in process and consumables stores and spares. Inventories are stated at the lower of cost and net realizable value. Cost is calculated on the following basis:

- Finished goods, work-in-process of sugar and molasses

These are valued at the average annual production cost, which comprise cost of direct material, labour and appropriate manufacturing overheads.

- Molasses and bagasse

These are valued at their net realizable value.

- Consumable stores and spares

Consumables stores and spares are valued principally at weighted average cost, while items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus other charges paid thereon.

Net realizable value represents the estimated selling price in the ordinary course of the business less all estimated costs of completion and estimated costs necessary to be incurred in order to make the sale.

Impairment

At each reporting date, inventories are assessed for impairment. If inventory is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in the cost of sales in the statement of profit or loss.

Judgments and estimates

The Company reviews the carrying amount of stock-in-trade on a regular basis. Carrying amount of stock-in-trade is adjusted where the net realizable value is below the cost.

The Company reviews the consumable stores and spares for possible impairment on an annual basis. Any change in estimates in future years might affect the carrying amounts of the respective items of consumable stores and spares with a corresponding effect on the provision.

4.7 Trade debts, deposits and other receivables

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

4.8 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of statement of cash flows, cash and cash equivalents comprise cash in hand, cash at banks on current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amounts of cash net of temporary bank or books overdrafts / overdrawn.

4.9 Non-current assets are classified as held for sale

Non-current assets are classified as held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. These are stated at the lower of carrying amount and fair value less costs to sell.

4.10 Borrowings / loans and borrowing costs

Interest bearing borrowings / Loans

Interest bearing borrowings / loans are recorded at the proceeds received. Borrowings are subsequently stated at amortized cost, any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest rate method. Finance costs are accounted for on accrual basis and are reported under accrued mark up to the extent of the amount remaining unpaid.

Interest free loans payable on discretion of the company

Interest free loans given by directors and sponsors of the company and repayable at the discretion of the Company are initially measured and subsequently recognized in line with Technical Release - 32 (TR 32 - Accounting Directors' Loan) issued by the Institute of Chartered Accountants of Pakistan (ICAP), these loans are shown as part of equity.

Overdrafts

Overdrafts, if any, are repayable in full on demand and are measured at amortized cost.

Interest / borrowing costs

Interest expense / borrowing costs are accounted for on the basis of the effective interest method and are included in finance costs which are charged to income in the period in which these are incurred, except borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Borrowings are reported under accrued finance costs to the extent of the amount remaining unpaid and are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

4.11 Leases

The Company is the lessee.

"At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions."

At initial recognition, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss account if the carrying amount of right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

The right-of-use assets are depreciated on a straight-line method over the shorter of lease term or estimated useful life of the assets. If ownership of the asset transfers to the Company at the end of lease term or the cost reflects the exercise of purchase option, depreciation is calculated over the estimated useful life of the asset. These methods most closely reflect the expected pattern of consumption of future economic benefits.

The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Payments associated with short-term leases and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option.

Judgments and estimates

The Company applies judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

Ijarah contracts

The Company has entered into Ijarah contracts under which it obtains usufruct of an asset for an agreed period for an agreed consideration. The Ijarah contracts are undertaken in compliance with the Shariah essentials for such contracts prescribed by the State Bank of Pakistan. The Company accounts for its Ijarah contracts in accordance with the requirements of IFAS 2 'Ijarah'. Accordingly, Company as a Mustaj'ir (lessee) in the Ijarah contract recognises the Ujrah (lease) payments as an expense in the profit and loss on straight line basis over the Ijarah term.

4.12 Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

4.13 Employees benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the statement of profit or loss when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

The Company operates a defined contribution plan in the form of recognized provident fund scheme for all employees. Contributions to fund are made monthly by the Company and employee at 8.33% of the basic salary. The Company's contributions are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as an asset.

Defined benefits plan

The Company operates a funded gratuity scheme as a defined benefit plan for its permanent employees and also funded defined benefit pension plan. All permanent employees who are in the management cadre of the Company participate in these plans subject to a minimum qualifying period of service according to the terms of employment. Monthly contributions are made to these funds on the basis of actuarial recommendation at the rate of 20% per annum of basic salary for pension and 8.33% per annum of basic salary for gratuity.

Actuarial valuation using projected unit credit method for the schemes was carried out as at 30 September 2024. The main features of defined benefit schemes are mentioned in Note 6.1 and Note 6.2. The Company's net obligation in respect of these defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future

refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liabilities, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Company determines the net interest expense / (income) on the net defined benefit liability / (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability / (asset), taking into account any changes in the net defined benefit liability / (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plan are recognized in profit or loss.

When the benefits of plans are changed or when plans are curtailed, the resulting change in benefits that relate to past service or the gain or loss on curtailment are recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of defined benefit plans when the settlement occurs.

Compensated absences

The Company provides for annual leave encashment to its employees on the basis of un-availed annual leaves, which is worked out on an average daily rate, based upon last drawn basic salary. It is accumulated to a maximum of twenty-eight and sixty-three days for workers and officers respectively. The un-availed annual leaves can be encashed by an employee at the time of retirement.

The Company accounts for the liability in respect of employees' compensated absences in the year in which these are earned. Provisions to cover the obligation are made using the current salary levels of the employees. No actuarial valuation of compensated absences is carried out as the management considers that the financial impact of such valuation will not be material.

4.14 Provisions

Recognition and measurement

Provisions for legal claims and make good obligations are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Judgement and estimates

As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustments to the amount of previously recognised

provision is recognised in the statement of profit or loss unless the provision was originally recognised as part of cost of an asset.

4.15 Contract liabilities

A contract liability is the obligation of the Company to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract. It also includes refund liabilities arising out of customers' right to claim amounts from the Company on account of contractual delays in delivery of performance obligations and incentive on target achievements.

Contract assets

Contract assets arise when the Company performs its performance obligations by transferring goods to a customer before the customer pays its consideration or before payment is due. Contract assets are treated as financial assets for impairment purposes.

Refund liabilities

Refund liabilities are recognized where the Group receives consideration from a customer and expects to refund some, or all, of that consideration to the customer. A refund liability is measured at the amount of consideration received or receivable for which the Group does not expect to be entitled and is updated at the end of each reporting period for changes in circumstances.

Right of return assets

Right of return assets represents the right to recover inventory sold to customers and is based on an estimate of customers who may exercise their right to return the goods and claim a refund. Such rights are measured at the value at which the inventory was previously carried prior to sale, less expected recovery costs and any impairment.

4.16 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate. Government grants relating to the purchase of property, plant and equipment are included in noncurrent liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

4.17 Contingencies and commitments

A contingent liability is disclosed when the company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the company; or the company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

Judgement and estimates

The Company reviews the status of all pending litigations and claims against the Company. Based on the judgment and the advice of the legal advisors for the estimated financial outcome,

appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the reporting date.

Capital commitments, unless those are actual liabilities, are not incorporated in the books of accounts.

4.18 Impairment

Financial assets

The Company recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI; and
- contract assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovery of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Judgement and estimates

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the assets original effective interest rate.

The Company has elected to measure loss allowances for trade debts using IFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Company has established a matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment including forward-looking information.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Impairment on financial assets other than trade debts has been measured on 12 - months expected loss basis and reflects the short maturities of the exposure.

Non-financial assets

The carrying amount of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

An impairment loss is recognized if the carrying amount of the assets or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit or loss. Impairment losses recognized in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then to reduce the carrying amounts of the other assets in the unit on a pro rata basis. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to that extent that the asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized.

Judgement and estimates

The management of the Company reviews carrying amounts of its non-financial assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

4.19 Financial Instruments

Recognition and initial measurement

All financial assets or financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing

component is initially measured at the transaction price.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL).

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Any gain or loss on derecognition is recognized in statement of profit or loss.

Financial assets measured at amortized cost comprise of cash and bank balances, deposits, long term loans, trade debts, term deposits and other receivable.

Debt Instrument - FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit or loss. However, the Company has no such instrument at the reporting date.

Equity Instrument - FVOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

These assets are subsequently measured at fair value. Dividends are recognized as income in statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to statement of profit or loss.

Fair value through profit or loss (FVTPL)

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in statement of profit or loss. Dividend income is presented separately from net gain and losses.

Financial assets at fair value through profit or loss comprise of short-term investments in listed equity securities.

All “regular way” purchases and sales of financial assets are recognized on the settlement date, i.e. the date on which the asset is delivered to or by the company. Regular way purchases or sales of financial assets are those, the contract for which requires delivery of assets within the time frame generally established by the regulation or convention in the market.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in statement of profit or loss.

The Company classifies its financial assets at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Off - setting of financial instruments

Financial assets and liabilities are off-set and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention and ability to settle on a net basis, or realize the asset and settle the liability simultaneously.

4.20 Foreign currencies

Foreign currency transactions are translated into Pakistan Rupees which is the Company's functional and presentation currency using the exchange rates approximating those prevailing at the date of the transaction.

All monetary assets and liabilities in foreign currencies are translated into Pakistan Rupees using the exchange rate at the reporting date. Exchange gains and losses resulting from the settlement of such transactions and from the translations at the yearend exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in statement of profit or loss. All

non-monetary assets and liabilities are translated in Pakistan Rupees using the exchange rates prevailing on the date of transaction or at the date when the fair value was determined.

4.21 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effects.

4.22 Dividend and other distribution

Dividend and other distribution to the Company's shareholders is recognised as a liability in the period in which the dividends are approved by the company's shareholders.

4.23 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit or loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

4.24 Related party transactions

All transactions arising in the normal course of business and are conducted at arm's length at normal commercial rate on the same terms and conditions as third party transactions using valuation modes as admissible, except in rarely extreme circumstances where, subject to approval of the Board of Directors, it is in the interest of the Company to do so. Parties are said to be related if they are able to influence the operating and financial decisions of the Company and vice versa.

4.25 Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Company that makes strategic decisions.

Segment results that are reported to the Board of Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those income, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated. The Company has four reportable business segments: Sugar, Biofuel, Textile and Farms.

Transactions among the operating segments are recorded at cost. Inter-segment sales and purchases are eliminated from the total.

4.26 Comprehensive income

Comprehensive income is the change in equity resulting from transactions and other events, other than changes resulting from transactions with shareholders in their capacity as shareholders. Total comprehensive income comprises all components of profit or loss and other comprehensive income. Other comprehensive income comprises items of income and expense, including reclassification adjustments that are not recognized in profit or loss as required or permitted by approved accounting standards.

4.27 Statement of cashflows

The Company classify:

- cash payments for the principal portion of lease payments as financing activities;
- cash payments for the interest portion as operating activities;
- short-term lease payments and payments for leases of low-value assets as operating activities;
- cash flows from interest paid as operating activities, cash flows from interest received and dividends received as investing activities, and cash flows from dividends paid as financing activities. Interest paid includes the interest portion of the lease liabilities; and
- capitalized interest consistently with interest cash flows that are not capitalized.

4.28 Revenue recognition

Sale of goods

The Company generates revenue primarily from the sale of sugar and bio-fuel and related by-products as well as bio-fertilizers to its customers. Revenue from the sale of goods is recognized at the point in time when the performance obligations arising from the contract with a customer is satisfied and the amount of revenue that it expects to be entitled to can be determined. This usually occurs when control of the asset is transferred to the customer, which is when goods are dispatched or delivered from warehouse to the customers. Invoices are generated and revenue is recognised at that point in time. All the sales are on advance basis, except few invoices that are usually payable within 30 days. Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. Revenue is disclosed net of taxes, returns, rebates, discounts and other allowances, whichever applicable.

Judgement and estimates

When recognizing revenue in relation to the sale of goods to customers, the key performance obligation of the Company is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

Government incentive

Government incentive relating to export sales are recognized when the right to receive such incentives has been established and the underlying conditions are met.

Return on bank deposits

Return on bank deposits is accounted for on a time proportionate basis using the applicable rate of return / interest.

Net unrealized gain / (losses)

Net unrealized gain / (losses) arising on revaluation of securities classified as 'fair value through profit or loss' are included in the statement of profit or loss in the period in which they arise.

Rental income

Rental income is recognized in profit or loss on an accrual basis.

Dividend income

Dividend income is recognized in profit or loss as other income when:

- the Company's right to receive payment has been established;
- is probable that the economic benefits associated with the dividend will flow to the company; and
- the amount of the dividend can be measured reliably.

Foreign currency exchange differences

Foreign currency gains and losses are reported on a net basis.

Other income

Other income, if any, is recognized on an accrual basis.

Annual Contribution Rs (000)	9,355	10,566	11,784	13,230	15,235

19.3. The sensitivity analysis for pension fund and gratuity fund are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligations to significant actuarial assumptions the same method (present value of the defined benefit obligations calculated with the projected unit credit method at the end of the reporting period) has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change as compared to the previous year except for certain changes as given in Note 17.1.8 and Note 17.2.8.

19.4. Risks associated with the defined benefit plans

The defined benefit plans expose the Company to the following risks:

Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate determined by reference to market yields at the end of the reporting period on high quality corporate bonds, or where there is no deep market in such bonds, by reference to market yields on government bonds. Currencies and terms of bond yields used must be consistent with the currency and estimated term of the post-employment benefit obligations being discounted. A decrease in bond interest rates will increase the liability, and vice versa.

Salary risk

The present value of the defined benefit liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the liability and vice versa.

Pension rate risk

The present value of the defined benefit liability is calculated after taking into account the future pension growth of plan participants. As such, an increase in the pension growth rate of the plan participants will increase the liability and vice versa.

Withdrawal rate risk

The present value of the defined benefit liability is calculated by reference to the best estimate of the withdrawal rate / attrition rate of plan participants. As such, an increase in the withdrawal rate may increase / decrease the liability and vice versa depending on the age-service distribution of the existing employees.

Mortality rate risk

The present value of the defined benefit liability is calculated by reference to the best estimate of the mortality of plan participants during employment. An improvement in the mortality rate of the participants may increase / decrease the liability and vice versa depending on the age-service distribution of the exiting employees.

26. CONTINGENCIES AND COMMITMENTS

a) Contingencies

- (i) The Government of Punjab under the powers conferred through the Punjab Excise Act, 1914 through notification No. SO. Tax (E&T) 3-4/2012 dated 03 July 2012, levied a duty of Rs. 2 per liter on manufacturing of spirit (biofuel) with effect from 01 July 2012. In view of legal lacunas, discrimination as to other provinces, no legislative competence and lawful authority of Government of Punjab to impose such duty on industrial ethanol which is not alcohol liquor and the fact that the Company is exporter of the spirit which is exempted under Order 6 of the Punjab Liquor Import, Export, Transportation and Possessions Orders, the management through its legal counsel has challenged the imposition of said levy and is currently contesting it at Lahore High Court, Lahore. Keeping in view all the court proceedings and grounds discussed in various higher courts, Punjab Government, after due deliberations of the Provincial Cabinet of the Punjab Government, on 20 August 2019, through its notification no. SO(E&M)2-5/2018/ED withdrew the imposed duty of Rs. 2 per liter upon the manufacture of spirit in any distillery. As per Company's legal counsel, the Company has clear-cut case and the decision of the case shall be in favor of the Company. In view of the aforesaid, the duty on manufacturing of spirit (biofuel) of Rs. 229.918 million (2023: Rs. 229.918 million) previously deposited with court under protest on this account has been recognized as receivable being refundable.
- (ii) The Company has paid an advance amounting to Rs. 12.999 million (2023: Rs. 12.999 million) to Messrs Industrial Enterprises for designing the boiler project to use only biogas as fuel with no option of burning bagasse. However, the boiler could not generate steam as per specification. It is unlikely that this project will be completed. Therefore the Company has gone into litigation with Industrial Enterprises in Civil Court, Jhang on 03 July 2018 for the recovery of the advance paid along with damages. Based on the advice of legal counsel, there are favourable grounds that the case will be decided in favour of the Company and the advance amount paid will be refunded back.
- (iii) An appellate order was made by Commissioner Inland Revenue, Appeals, Lahore on 30 November 2020 under section 33 of Federal Excise Act, 2005, confirming payment of federal excise duty of Rs. 12.757 million (2023: Rs. 12.757 million) including penalty regarding export of sugar to Afghanistan through land route in 2014. The Company has filed appeal before Appellate Tribunal Inland Revenue, Lahore against this order on 23 December 2020. No provision has been recognized in the books of account as the Company is confident on positive outcome of the appeal, on the advice of legal counsel.
- (iv) The Competition Commission of Pakistan (CCP) imposed penalties of Rs. 312.595 million (2023: Rs. 312.595 million) on sharing commercially sensitive information and Rs. 437.633 million (2023: Rs. 437.633 million) against collective decision on export quantities. Against these penalties, the Company has lodged appeal before Competition Appellate Tribunal on 14 October 2021, whose decision is pending. On the advice of legal counsel, management is confident that the matter will be decided in the favour of the Company.
- (v) Commissioner Inland Revenue filed petition in Lahore High Court, Lahore against the Company on 17 June 2021 regarding the order to recover sales tax of Rs. 78.867 million (2023: Rs. 78.867 million) along with default surcharge and penalty against which the Company filed an appeal before Appellate Tribunal Inland Revenue on 10 November 2020 pending adjudicating at the reporting date. According to legal counsel of the Company, the petition filed by CIR is on weak grounds therefore no provision is recognized in these financial statements.

- (vi) The Company has filed appeals before Appellate Tribunal Inland Revenue on 05 April 2022 against assessment orders under section 11 of the Sales Tax Act, 1990 passed by the Commissioner Inland Revenue (Appeals) regarding the recovery of sales tax of Rs. 8.272 million for the tax periods October 2016 and March 2018. As per Company's legal counsel, no provision is required as the Company has good arguable cases.
- (vii) Deputy Commissioner Inland Revenue issued show cause notices to the Company on 19 May 2022 and on 16 February 2022 against the input tax adjustments of exempt / inadmissible supplies from July 2020 to June 2021 and from July 2021 to November 2021 amounting to Rs. 1.428 million and Rs. 9.282 million respectively in violation of section 8(2) of the Sales Tax Act, 1990. The collective amount was later reduced by CIR (A) to Rs. 3.210 million. The appeals before Appellate Tribunal Inland Revenue dated 18 August 2022 and 18 October 2022 are being pursued by the Company. On the advice of legal counsel, management is confident that the matters will be decided in the favour of the Company.
- (viii) Deputy Commissioner Inland Revenue on 29 June 2021 passed an order under section 122(4) of Income Tax Ordinance, 2001 and made an addition amounting to Rs. 2.127 billion being unexplained income under section 111(1)(b) of Ordinance. The Company on 19 March 2022 filed an appeal before CIR(A). Moreover, due to addition as mentioned above, Additional Commissioner Inland Revenue adjusted the refunds claimed by the Company and a demand of Rs. 31.425 million was created. The Company, being aggrieved has filed an appeal before ATIR on 25 October 2022. On the advice of legal counsel, management is confident that the matters will be decided in the favor of the Company.
- (ix) Commissioner Inland Revenue (CIR) filed sales tax reference no. 50364/2020 against the Company in Lahore High Court, Lahore on 13 October 2020 challenging the judgment of Appellate Tribunal Inland Revenue of setting aside various sales tax / federal excise duty demands of Rs. 28.817 million. As per Company's legal counsel, no provision is required as the reference filed by CIR is on weak grounds and will be dismissed by the Court.
- (x) Commissioner Inland Revenue filed Income Tax reference impugning order dated 12th April, 2022 passed in ITA NO, 1564/LB/2015 pertaining to incorrect application of minimum tax at the rate of 0.5% instead of 1% in the tax year 2011. The matter is still pending for adjudication in Lahore High Court. On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.
- (xi) Commissioner Inland Revenue filed sales tax reference against the Company in Lahore High Court impugning order dated 8th March, 2022 passed by the Appellate Tribunal in STA No. 132/LB/2022. The reference was decided on 1st November, 2023. The matter was remanded back to Tribunal for decision afresh. On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.
- (xii) Commissioner Inland Revenue (CIR) issued order declaring sales tax claimed as inadmissible amounting to Rs. 4.545 million against which appeal has been filed before CIR (Appeals). On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.
- (xiii) The Company's share in contingencies of the equity accounted investee is Rs. 323.152 million (2023: Rs. 785.53 million) and share in bank guarantees issued by various banks on behalf of this investee is Rs. 28.811 million (2023: Rs. 28.811 million) as of the reporting date.
- (xiv) In addition to above-mentioned matters there are certain cases which have been filed against the Company, primarily by the Company's employees, customers and vendors. However, the management is of the view that in the overall context of these financial statements, there would be no significant liability of the Company against such cases.

b) Commitments

44. FINANCIAL RISK MANAGEMENT

44.1. Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies.

(a) Market risk

A market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices such as currency risk, other price risk and interest rate risk. The objective of market risk management is to manage and control market risk exposure within an acceptable range.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies. The Company is not exposed to any currency risk at statement of financial position date as it doesn't have any outstanding balance in foreign currency.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is not exposed to commodity price risk.

Sensitivity analysis

The table below summarizes the impact of increase / decrease in the Pakistan Stock Exchange Limited (PSX) Index on the Company's equity (fair value reserve of FVTOCI investments). The analysis is based on the assumption that the equity index had increased / decreased by 5% with all other variables held constant and all the Company's equity instruments moved according to the historical correlation with the index:

Index	Impact on statement of other comprehensive income (fair value reserve)	
	2024	2023
	Rupees in thousand	
PSX 100 (5% increase)	750	229
PSX 100 (5% decrease)	(750)	(229)

Equity (fair value reserve) would increase / decrease as a result of gains / losses on equity investments classified as fair value through other comprehensive income.

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's interest rate risk arises from long term financing, short term borrowings and deposit in saving accounts. Financial instruments at variable rates expose the Company to cash flow interest rate risk. Financial instruments at fixed rate expose the Company to fair value interest rate risk.

At the reporting date, the interest rate profile of the Company's interest bearing financial instruments was:

	2024 Rupees in thousand	2023
Floating rate instruments		
Financial assets		
Bank balances - saving accounts	(59)	(1,112)
Financial liabilities		
Long term financing	211,765	225,000
Short term borrowings	550,253	672,500
	761,959	896,388

Fair value sensitivity for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect the profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

If interest rates at the year end date, fluctuates by 1% higher / lower with all other variables held constant, loss after taxation for the year would have been Rs. 7.620 million (2023: Rs. 8.964 million) higher / lower mainly as a result of higher / lower interest expense / income on floating rate financial instruments. This analysis is prepared assuming the amounts of financial instruments outstanding at reporting dates were outstanding for the whole year.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2024 Rupees in thousand	2023
Investments	14,992	4,579
Trade debts	100,664	137,753
Loans and advances	13,459	1,553
Deposits	35,535	36,135
Other receivables	23,642	21,264
Bank balances	65,865	62,980
	254,157	264,264

To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Sales contracts and credit terms are approved by the senior management and where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period limit for each type of customers in order to reduce the credit risk.

The Company applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade debts. Management uses actual historical credit loss experience, credit risk characteristics and past days due, adjusted for forward-looking factors specific to the debtors and the economic environment to determine expected credit loss allowance.

The Company's exposure to credit risk and allowance for expected credit losses related to trade debts is disclosed in Note 9.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate:

Meezan Bank Limited	A-1+	AAA	VIS	1	3,810
				106	3,971
				65,865	62,980

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly, the credit risk is minimal.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company manages liquidity risk by maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. As of reporting date, the Company had Rs. 550.253 million (2023: Rs. 672.500 million) available borrowing limits from financial institutions and Rs. 66.572 million (2023: Rs. 63.421 million) cash and bank balances. Management believes the liquidity risk to be low. Followings are the contractual maturities of financial liabilities, including interest payments. The amounts disclosed in the tables are undiscounted cash flows.

44.4. Offsetting financial assets and financial liabilities

As on reporting date, recognized financial instruments are not subject to offsetting as there are no enforceable master netting arrangements and similar agreements.

44.5. Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain strong capital base. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends to be paid to shareholders, issue new shares or sell assets to reduce debt. Consistent with others in the industry and the requirements of the lenders, the Company monitors the capital structure on the basis of gearing ratio. This ratio is calculated as borrowings divided by total capital employed. Borrowings represent long term financing and short term borrowings obtained by the Company. Total capital employed includes 'total equity' as shown in the statement of financial position plus 'borrowings'. The Company's strategy remained unchanged from last year.

		2024	2023
Borrowings	Rupees in thousand	762,018	897,500
Total equity	Rupees in thousand	6,752,599	10,171,600
Total capital employed	Rupees in thousand	7,514,617	11,069,100
Gearing ratio	Percentage	10.14	8.11

Decrease in gearing ratio resulted primarily due to decrease in borrowings.

45. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into following three levels. An explanation of each level follows underneath the table:

	Rupees in thousand			
Recurring fair value measurements	Level 1	Level 2	Level 3	Total
Financial assets				
At 30 September 2024				
At fair value through other comprehensive income	14,992	-	-	14,992
At 30 September 2023				
At fair value through other comprehensive income	4,579	-	-	4,579

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to the short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further there was no transfer out of level 3 measurements.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(ii) **Valuation technique used to determine fair values**

Specific valuation techniques used to value financial instruments include the use of quoted market prices for listed securities.

46. **RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS**

(i) **Fair value hierarchy**

The judgements and estimates are made for the non-financial assets that are recognized and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its non-financial assets into the following three levels.

Rupees in thousand

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further, there was no transfer in and out of level 3.

(ii) Valuation techniques used to determine level 2 fair values

The Company obtains independent valuation for its freehold land, building, plant and machinery at least after every three years. The management updates the assessment of the fair value of property, plant and equipment taking into account the most recent independent valuation. The management determines the value of these assets within a range of reasonable fair value estimates. The best evidence of fair value of land is current prices in an active market for similar lands. The best evidence of fair value of building is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the new construction / replacement value of the same building. The best evidence of fair value of plant and machinery is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the value of new plant and machinery of the same specifications. The fair value of standing crops is based on the support price fixed by the Government and other factors such as estimated crop yield and area under cultivation. The fair value of livestock is estimated on the basis of market prices of livestock of similar age, breed and genetic merit.

Valuation processes

The Company engages external, independent and qualified valuer to determine the fair value of the Company's freehold land, building, plant and machinery after three years. The fair value of these assets has been determined by an independent valuer Messrs Hamid Mukhtar and Company (Private) Limited on 30 September 2021. The fair value of biological assets are determined by the related experts keeping in view the current market conditions and other salient factors.

INDEPENDENT AUDITOR'S REPORT

To the members of Shakarganj Limited

Report on the Audit of the Consolidated Financial Statements

Adverse Opinion

We have audited the annexed consolidated financial statements of Shakarganj Limited ("the Holding Company") and its subsidiary ("the Group"), which comprise the consolidated statement of financial position as at 30 September 2024, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity, the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying consolidated financial statements do not give a true and fair view of the consolidated financial position of the Group as at 30 September 2024 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

Basis for Adverse Opinion

The Group has again sustained a loss after income tax for the year ended 30 September 2024 amounting to Rs. 3,198.83 million, which took the accumulated loss to Rs. 5,363.03 million at the reporting date along with an adverse current ratio at that date. Further, the textile segment of the Holding Company remained closed during the whole period as well as the previous year. The Holding Company has also overdue statutory obligations. The disposal of certain assets are held up due to court cases, while the company needs funds for the upgradation of plant & machinery of textile and sugar divisions at Jhang. There is no written commitment from the directors / shareholders of the Holding Company to finance its above said obligations / working capital requirements.

All these situations indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, which has not been appropriately resolved, assessed and disclosed in these financial statements.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were

addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key Audit Matter(s):

S.No.	Key audit Matters	How the Matters were addressed in our audit
1.	Inventory As at 30 September 2024 inventory comprises consumable stores and spares and stock in trade as disclosed in notes – 12 and 13 to the annexed consolidated financial statements. There is a risk in estimating the eventual NRV of items held, as well as assessing which items may be slow-moving or obsolete. The Group's principal accounting policy on inventory and the critical accounting estimates, judgements and assumptions are disclosed in note 4.6 to the annexed consolidated financial statements. Further, stock in trade in consolidated financial statements as disclosed in note – 13 include: • Raw materials comprising mainly molasses, dairy products, packing materials, etc.; • work-in-process mainly comprising sugar in process, molasses in process, dairy products in-process and polyester in process; and • finished goods mainly in the shape of refined sugar, dairy and juice products, fruit pulps, ethanol, etc. The molasses and ethanol is stored in storage tanks. As the weighing of these inventories of stock in trade is not practicable by obtaining measurements of tanks and converting these measurements to units of volume by using an angle of repose, therefore, management assesses the reasonableness of the quantities on hand by relying on the memorandum record and proportion as per production report. Due to the significance of inventory balances of consumable stores and spares and stock in trade and related estimations involved, this is considered a key audit matter.	Our audit focused on whether the valuation of year-end inventory was in line with IAS 2. This included challenging judgements taken regarding obsolescence and net realizable value provisions. We obtained assurance over the appropriateness of management's assumptions applied in calculating the value of inventory by: • checking the effectiveness of controls associated with the existence and condition of inventories by attending inventory counts at year end with sample / verification test; • critically assessing the Group's provisioning policy, with specific consideration given to aged / slow-moving inventory; • assessed the management's process of measurement and the determination of values using conversion of volumes to total weight as well as confirming it from perpetual record. • obtained and reviewed the inventory valuation report relating to molasses of the external surveyor and assessed its accuracy and authenticity; and • tested the NRV of the inventories held by performing a review of sales close to and subsequent to the year end.

2.	Revenue Recognition As per ISA 240, there is a presumed risk of material misstatement due to inappropriate revenue recognition. This may either result from an overstatement of revenues through premature revenue recognition or recording fictitious revenues or understatement of revenues through improperly shifting revenues to a later period. These revenue may also be manipulated through the use of inappropriate rates for the overstatement / understatement of revenue to achieve desired financial results. The accounting policy related to recognition of revenue by the Group is provided in note 4.29 to the annexed consolidated financial statements. - In view of significant value of transactions and presumed risk of material misstatement involved, we have considered this as a key audit matter.	In this regard, our audit procedures amongst others included the following: • Assessing the appropriateness of the Group's accounting policies for revenue recognition and compliance of those policies with applicable accounting standards including management's assessment of impact of "Revenue from contracts with customers" (IFRS 15). • Obtaining an understanding of the nature of the revenue contracts entered into by the Group, testing a sample of sales contracts to confirm our understanding and assessing whether or not management's application of IFRS 15 requirements was in accordance with the standard. • Performing cut-off procedures for a sample of revenue transactions at year end in order to conclude as to whether they were recognized at the moment the related goods actually sold. • Analyzing other adjustments and credit notes issued after the reporting date, if any. • Performing analytical procedures on entries in the daily ledger related to revenue made by the Group. These procedures were carried out by paying special attention to accounting entries recorded close to the yearend or subsequently, as well as those deemed unusual, among other reasons, due to their nature, amount and date of occurrence. • Reviewing disclosures included in the notes to the annexed consolidated financial statements.
3.	Contingencies As disclosed in Note 32 to the annexed consolidated financial statements, the Group has contingent liabilities in respect of various matters, which are pending adjudication before respective authorities and courts of law. Management has engaged independent lawyers and legal advisors on these matters. Accounting for and disclosures of contingencies is complex and a matter of significance in our audit because judgments and estimates may be required against such contingencies in accordance with applicable financial reporting standards, in relation to the interpretation of laws, statutory rules and	Our audit procedures among others included obtaining an understanding of the process and controls on this area relevant to our audit. Further, we have: • Obtained the letter received from the authorities and reviewed to understand the basis of claims and details of the pending matters. The same was discussed with the Group's management. • Reviewed the correspondence of the Group with the relevant authorities, tax and legal advisors, including judgments or orders passed by the competent authorities, to track the progress of the

	regulations, and the probability of outcome and financial impacts, if any, on the Group for disclosure and recognition and measurement of any provisions. Due to the significance of the amounts involved, uncertainties regarding the outcome of certain matters, and the utilization of substantial management judgments and estimates to assess the same, including the associated financial impacts, we have identified these as a key audit matter. For further information on contingencies, refer to notes 4.17 and 32.	claim up to date the auditor's report is issued. • Obtained and reviewed confirmations from the Group's external tax and legal advisors for their views on the probable outcome of the open tax assessments and other contingencies. • Discussed with in house legal department personnel of the Group, remit and scope of the legislation and to assess reasonableness of management's conclusions on such pending matters. • Reviewed and evaluated the adequacy of disclosures made in respect of such contingencies in notes to consolidated financial statements, to conclude as to whether the disclosure is sufficient for compliance with IAS-37 "Provisions, Contingent Liabilities and Contingent Assets".

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. As described in the Basis for Adverse Opinion section above, the Group should have incorporated and accounted for these adjustments. We have concluded that the other information is materially misstated for the same reason with respect to the amounts or other items in the annual report affected by the failure to incorporate and account for these adjustments.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of Consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless

law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matter

The financial statements of the Group for the year ended 30 September 2023, were audited by another auditor who expressed an adverse opinion on those consolidated financial statements on 15 February 2024. The basis of adverse opinion was:

The Group has suffered loss after taxation of Rs. 441.92 million during the current year and has accumulated losses of Rs. 2,886.49 million as at the reporting date. The current liabilities of the Group exceeded its current assets by Rs. 4,594.51 million. The Holding Company has overdue statutory obligations. The textile segment of the Holding Company remained closed during the whole year. The management of the Holding Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Holding Company which includes Sugar and Biofuel divisions. However, we noted that certain shareholders of the Holding Company have filed petitions in Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective Courts regarding the approval of disposal of certain agricultural land of the Holding Company. As the going concern assumption used in preparation of these consolidated financial statements is dependent upon roll out of the aforesaid turnaround plan and whose roll out requires prior approval of shareholders of the Holding Company in their general meeting and such approval of shareholders and disposal of the Bhone Unit is unlikely in current litigation scenario, hence this situation indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. These consolidated financial statements do not adequately disclose this

The engagement partner on the audit resulting in this independent auditor's report is Shabir Ahmad, FCA.

SML held 52.39% shares of SFPL as at 30 September 2024 (2023: 52.39%)

1.4 Going concern assumption

The Group has suffered the loss after income tax of Rupees 3,198.829 (2023: Rupees 441.921) million and its accumulated losses are of Rupees 5,363.033 (2023: Rupees 2,886.495) million as at 30 September 2024 along with adverse current ratio. Moreover, the Group has overdue statutory

obligations. Furthermore, Textile segment of the Group remained closed during the whole year. Certain shareholders of the Group have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Group. These factors indicate the existence of material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these financial statements have been prepared on going concern basis due to following reasons:

The Group is making arrangements to sell its agriculture land having market value of Rupees 755.547 million. For this purpose, approval of shareholders has been obtained in Annual General Meeting of the Group held on 28 February 2022 subject to further orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection from lenders. The proceeds through disposal of land will be utilized by the Group to pay to sugarcane growers and to settle the other liabilities of the Group while the remaining proceeds will be utilized for up gradation of plant and machinery of textile and sugar divisions at Jhang.

The management of the Group has firmed up a turnaround plan based on disposal of the Bhone Unit of the Group which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 30 September 2024 is Rupees 7.051 billion. Price discovery by the management for the whole Bhone Unit of the Group including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Group. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2024.

The Group is in the process of installing the falling film evaporators. Falling film evaporators are alternative to Robert type evaporators and help to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would also increase the recovery ratio accordingly.

The Group remains committed to its best efforts to improve liquidity position. The financial projections of the Group show improvements in cash generation and profits. The management considers that the measures as explained above would result in availability of adequate financial resources for the Group to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, these financial statements have been prepared on a going concern basis which assumes that the Group will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.

1.5 Basis of consolidation

These consolidated financial statements comprise the financial statements of the Holding Company and its subsidiary companies named in note - 1.2 and note - 1.3 above as at 30 June 2024. These consolidated financial statements have been prepared from the information available in the audited financial statements of the Holding Company for the year ended 30 June 2024 and the separate audited financial statements of the subsidiaries for the year ended 30 June 2024.

a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. The subsidiaries are fully consolidated from the date of acquisition, being the date on which the Holding Company obtains control, and continue to be consolidated until the date such control ceases.

The financial statements of the subsidiary companies have been consolidated on a line-by-line basis and the carrying values of the investments held by the Holding Company have been eliminated against the shareholders' equity in the subsidiary companies.

The financial statements of the subsidiaries are prepared for the same reporting year as the Holding Company, using consistent accounting policies.

All intra-Group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions that are recognized in their financial statements are eliminated in full.

b) **Non-controlling interest**

Non-controlling interest is that part of net results of operations and of net assets of the subsidiaries which are not owned by the Holding Company either directly or indirectly. Non-controlling interest is presented as a separate item in the consolidated financial statements. The Group applies a policy of treating transactions with non-controlling interests as transactions with parties external to the Group. Non-controlling interest is recorded at proportionate share of net assets at the time of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transaction.

c) **Loss of control**

On the loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in consolidated statement of profit or loss. In addition, any amounts previously recognised in other comprehensive income in respect of that subsidiary are reclassified to the consolidated profit and loss account. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently that retained interest is accounted for as an equity-accounted investee, joint venture or as an available for sale financial asset depending on the level of influence retained.

2. **STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards or IFAS, the provisions of and directives issued under the Companies Act, 2017, have been followed.

3. **BASIS OF MEASUREMENT**

a) **Accounting convention**

These financial statements have been prepared following accrual basis of accounting except for the statement of cash flows.

These financial statements have been prepared under the historical cost convention without any adjustments for the effect of inflation or current values, except for the following material items in the statement of financial position:

- Inventories that are valued at lower of weighted / moving average cost or Net Realizable Value (NRV) in accordance with IAS 2;
- Freehold land, buildings on freehold land and plant and machinery that stands at the revalued amount in accordance with IAS 16;
- Biological assets at fair value less estimated point-of-sale costs as per IAS 41;
- Actuarial valuation of pension and gratuity as per IAS 19; and
- Certain financial instruments which are carried at their fair value in accordance with IFRS 9.

b) Functional and presentation currency

The financial statements are presented in Pakistani Rupee (Rs.) which is the Group's functional and presentation currency. All financial information presented in Pakistan Rupees has been rounded to nearest rupee, unless otherwise indicated.

c) Critical accounting estimates, judgements and assumptions

The preparation of financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. In addition, it requires management to exercise judgment in the process of applying the Group's accounting policies. The areas involving a high degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are documented in the following accounting policies and notes, and relate primarily to:

Description	Note
• Current income tax expense, provision for current tax and recognition of deferred tax asset (for carried forward tax losses)	4.1
• Useful lives and residual values of property, plant and equipment as well as fair values	4.2
• Useful lives, residual values and amortization method of intangible assets	4.3
• Fair value less estimated point-of-sale costs of biological assets	4.5
• Inventories (stock in trade and consumable stores and spares)	4.6
• Lease term	4.11
• Estimation of provisions	4.14
• Estimation of contingent liabilities	4.17
• <i>Expected credit losses of certain financial assets under IFRS 9</i>	4.18
• <i>Impairment loss of non-financial assets other than inventories</i>	4.18
• <i>Revenue from contracts with customers involving sale of goods</i>	4.29
• <i>Classifications</i>	

The revisions to accounting estimates (if any) are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

d) Change in accounting policy

During the year, the Institute of Chartered Accountants of Pakistan (ICAP) has withdrawn Technical Release 27 'IAS 12, Income Taxes (Revised 2012)' and issued the 'IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes' (the Guidance). Accordingly, in accordance with the Guidance, the Group has changed its accounting policy to recognize minimum and final taxes as 'Levy' under IAS 37 "Provisions, Contingent Liabilities and Contingent Assets" which were previously being recognized as 'Income tax'. The Group has accounted for the effects of these changes in accounting policy retrospectively under para 22 of IAS 8 "Accounting Policies, Change in Accounting Estimates and Errors;" and the corresponding figures have been restated in these consolidated financial statements.

The management believes that the new policy provides reliable and more relevant information to the users of the financial statements.

The effect of restatements is as follows:

Particulars	Had there been no change in accounting policy	Impact of change in accounting policy	After incorporating effect of change in accounting policy

e) Standards, interpretations and amendments to publish approved accounting standards

The following amendments to existing standards have been published that are applicable to the Group's financial statements covering annual periods, beginning on or after the following dates:

- New accounting standards interpretations and amendments to accounting standards that are effective and relevant

Certain standard amendments and interpretations to approved accounting standards are effective for the accounting periods beginning on or after 01 October 2023 but are considered not to be relevant or to have any significant effect on the Group operations and are, therefore, not detailed in these financial statements.

The Group adopted the narrow-scope amendments to the International Accounting Standard (IAS) 1, Presentation of Financial Statements which have been effective for annual reporting periods beginning on or after 01 January 2023. Although the amendments did not result in any

changes to accounting policy themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting the Group to provide useful entity-specific accounting policy information that users need to understand other information in the financial statements.

Management reviewed the accounting policies and updates to the information disclosed in Note 4 Material accounting policies (30 September 2023: Significant accounting policies) in certain instances in line with the amendments and concluded that all its accounting policies are material for disclosure.

- New accounting standards and amendments to standards not yet effective

There are certain standards, amendments to the approved accounting standards and interpretations that are mandatory for the Group's accounting periods beginning on or after 01 October 2024 but are considered not to be relevant or to have any significant effect on the Group's operations and are, therefore, not detailed in these financial statements, except for the following.

		Effective for the period beginning on or after
IAS 21	Amendments to IAS 21 'The effects of Changes in Foreign Exchange Rates' address situations where a currency may lack exchangeability, often due to government-imposed controls. In such cases, companies must estimate a spot exchange rate reflecting orderly transactions at the measurement date.	01 January 2025
IFRS - 16	Amendments to IFRS 16, clarify how a seller-lessee subsequently measures sale and leaseback transactions.	01 January 2024
IAS-1	Amendment to IAS 1 - Non-current liabilities with covenants and amendments regarding the classification of liabilities as current or non-current.	01 January 2024
IFRS 7 and IAS 7	Amendments to IAS 7 and IFRS 7 'Supplier Finance Arrangements to add disclosure requirements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements.	01 January 2024
IFRS 7 and 9	IFRS 7 and IFRS 9 which clarify the date of recognition and derecognition of a financial asset or financial liability. The Group's management at present is in the process of assessing the full impacts of these new standards and the amendments to IFRS 7 and IFRS 9 and is expecting to complete the assessment in due course.	01 January 2026
IFRS-10 / IAS-28	IFRS 10 - Consolidated Financial Statements and IAS 28 - Investment in Associates and Joint Ventures (Amendment regarding sale or contribution of assets between an investor and its associate or Joint Venture).	Deferred indefinitely
IFRS 17	Insurance Contracts (New standard)	01 January 2026

New Standards issued by IASB but have not yet been notified / adopted by SECP

IFRS 18	IFRS 18 Presentation and Disclosure in Financial Statements and IFRS 19 Subsidiaries without Public Accountability: Disclosures. These standards will become part of the Group's financial reporting framework upon adoption by the SECP.	01 January 2027
IFRS 19	Subsidiaries without Public Accountability - Disclosures has been issued by IASB.	01 January 2027
IFRS - 1	First Time Adoption of IFRS (restructured version)	01 July 2009

The Group's management at present is in the process of assessing the full impacts of these new standards and the new amendments and is expecting to complete the assessment in due course.

4. MATERIAL ACCOUNTING POLICY INFORMATION

These policies have been consistently applied to all the years presented, except for the impact of adoption of new standards and amendments as disclosed in Note 3(d) and (e) above. The material accounting policies are as follows:

4.1 Income tax / levy

Income tax comprises of current tax and deferred tax. Income tax expense is recognized in the consolidated statement of profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity (if any), and in which case the tax amounts are recognized directly in in other comprehensive income or equity.

Income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Levy

In accordance with the Income Tax Ordinance, 2001, computation of turnover tax and final tax is not based on taxable income. Therefore, as per IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the ICAP, these fall within the scope of IFRIC 21 / IAS 37 and accordingly have been classified as levy in these financial statements, except for taxes on dividends on the Group's investments in subsidiaries and associates which are specifically within the scope of IAS 12 and hence these continue to be categorised as current income tax.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit / loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses and credits only if it is probable that future taxable amounts will be available to utilise those temporary differences and unused tax losses and credits.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of property, plant and equipment) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Sales tax

Revenues, expenses and assets are recognized net off amount of sales tax except:

- Where sales tax incurred on a purchase of asset or service is not recoverable from the taxation authority, in which case the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables or payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Judgment and estimates

Significant judgment is required in determining the income tax expenses and corresponding provision for tax. There are many transactions and calculations for which the ultimate tax determination is uncertain as these matters are being contested at various legal forums. The Group recognizes liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax assets and liabilities in the period in which such determination is made.

Further, the carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. If required, carrying amount of deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profits to allow the benefit of part or all of that recognised deferred tax asset to be utilised. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Off-setting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable

right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4.2 Property, plant and equipment

Operating fixed assets – tangible

Owned

Property, plant and equipment except freehold land, buildings on freehold land and plant and machinery are stated at cost less accumulated depreciation and accumulated impairment losses (if any). Freehold land is stated at revalued amount less accumulated impairment losses (if any). Buildings on freehold land and plant and machinery are stated at revalued amount less accumulated depreciation and accumulated impairment losses (if any). The accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of these assets; and thereafter the carrying amount of these assets are adjusted to the revalued amount. Cost of property, plant and equipment consists of historical cost, borrowing cost pertaining to erection / construction period of qualifying assets and other directly attributable cost of bringing the asset to working condition.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefit associated with item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the period in which they are incurred.

De-recognition

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the consolidated statement of profit or loss in the year the asset is de-recognized.

Depreciation

Depreciation on all operating fixed assets is charged to statement of profit or loss by applying the reducing balance method so as to write off the depreciable amount of the assets over their estimated useful lives at the rates given in Note 5.1. The residual values and useful lives are reviewed by the management at each financial year end and adjusted if impact on depreciation is significant. Depreciation on additions to property, plant and equipment is charged from the month in which the asset is acquired or capitalized, while no depreciation is charged for the month in which the asset is disposed of.

Capital work in progress

Capital work-in-progress is stated at cost less any identified impairment loss and represents expenditure incurred on property, plant and equipment during construction and installation. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. Cost also includes applicable borrowing costs. Transfers are made to relevant operating fixed assets category as and when the assets are available for use.

Revaluation

Any revaluation increase arising on the revaluation of free hold land and building on free hold land and plant & machinery is recognized in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on property, plant and equipment", except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of freehold land and building on freehold land and plant & machinery is charged to profit or loss to the extent that it exceeds the balance, if any, held in the Revaluation surplus on property, plant and equipment relating to a previous revaluation of that asset. The surplus on revaluation of building on free hold land and

plant & machinery to the extent of incremental depreciation charged (net of deferred tax) is transferred to unappropriated profit.

The frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years.

Judgment and estimates

The Group reviews the useful lives and residual values of property, plant and equipment annually by considering expected pattern of economic benefit that the Group expects to derive from the item and the maximum period up to which such benefits are expected to be available. Any change in estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

4.3 Intangibles

Measurement

Intangible assets, other than goodwill, are measured at cost less accumulated amortization and accumulated impairment losses. Amortization is charged so as to allocate the cost of assets over their estimated useful lives, using the straight-line method.

Research and development expenditure is charged to 'administrative and general expenses' in the consolidated statement of profit or loss, as and when incurred.

Judgment and estimates

The useful lives, residual values and amortization method are reviewed on a regular basis. The effect of any changes in estimate accounted for on a prospective basis. All intangible assets are estimated to have definite useful lives.

4.4 Investments

Investments intended to be held for less than twelve months from the reporting date or to be sold to raise operating capital are included in current assets, all other investments are classified as non-current. Management determines the classification of its investments at the time of purchase depending on the purpose for which the investments are required and re-evaluates this classification on regular basis.

Investment in associates

Investments in associates are accounted for using the equity method, whereby the investment is initially recorded at cost and adjusted thereafter for the post-acquisition change in the Group's share of the net assets of the associates / joint ventures. The consolidated statement of profit or loss reflects the Group's share of the results of the operations of the associates / joint ventures.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associates / joint ventures is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate / joint venture and its carrying value and recognises the same in the profit or loss.

4.5 Biological assets

Biological assets comprises standing crops and livestock. These are stated at fair value less estimated point-of-sale costs, with any resultant gain or loss recognized in the consolidated statement of profit or loss. The fair value of standing crops is based on the support price fixed by

the Government and other factors such as estimated crop yield and area under cultivation. The fair value of livestock is estimated on the basis of market prices of livestock of similar age, breed and genetic merit. Point-of-sale costs include all costs that are necessary to sell the assets, excluding costs necessary to get the assets to the market.

4.6 Inventories

Measurement

Inventories comprise refined sugar, ethanol, dairy and juice products, fruit pulps, bagasse, molasses, sugar and molasses in process, goods in transit, consumables stores and spares. Inventories are stated at the lower of cost and net realizable value. Cost is calculated on the following basis:

- Raw materials

These are measured and valued on weighted average cost.

- Finished goods and work-in-process

These are valued at the average annual production cost, which comprise cost of direct material, labour and appropriate manufacturing overheads.

- Molasses and bagasse

These are valued at their net realizable value.

- Consumable stores and spares

Consumables stores and spares are valued principally at weighted average cost, while items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus other charges paid thereon.

Net realizable value represents the estimated selling price in the ordinary course of the business less all estimated costs of completion and estimated costs necessary to be incurred in order to make the sale.

Impairment

At each reporting date, inventories are assessed for impairment. If inventory is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in the cost of sales in the consolidated statement of profit or loss.

Judgments and estimates

- The Group reviews the carrying amount of stock-in-trade on a regular basis. Carrying amount of stock-in-trade is adjusted where the net realizable value is below the cost.
- The Group reviews the consumable stores and spares for possible impairment on an annual basis. Any change in estimates in future years might affect the carrying amounts of the respective items of consumable stores and spares with a corresponding effect on the provision.

4.7 Trade debts, deposits and other receivables

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group.

Actual credit loss experience over past years is used to base the calculation of expected credit loss.

4.8 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of statement of cash flows, cash and cash equivalents comprise cash in hand, cash at banks on current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amounts of cash net of temporary bank or books overdrafts / overdrawn.

4.9 Non-current assets are classified as held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use and are available for immediate sale and sale is highly probable. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expenses.

4.10 Borrowings / loans and borrowing costs

Interest bearing borrowings / Loans

Interest bearing borrowings / loans are recorded at the proceeds received. Borrowings are subsequently stated at amortized cost, any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest rate method. Finance costs are accounted for on accrual basis and are reported under accrued mark up to the extent of the amount remaining unpaid.

Interest free loans payable on discretion of the Group

Interest free loans given by directors and sponsors of the Group and repayable at the discretion of the Group are initially measured and subsequently recognized in line with Technical Release - 32 (TR 32 - Accounting Directors' Loan) issued by the Institute of Chartered Accountants of Pakistan (ICAP), these loans are shown as part of equity.

Overdrafts

Overdrafts, if any, are repayable in full on demand and are measured at amortized cost.

Interest / borrowing costs

Interest expense / borrowing costs are accounted for on the basis of the effective interest method and are included in finance costs which are charged to income in the period in which these are incurred , except borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Borrowings are reported under accrued finance costs to the extent of the amount remaining unpaid and are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

4.11 Leases

The Group is the lessee.

"At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions."

At initial recognition, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Group is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss account if the carrying amount of right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

The right-of-use assets are depreciated on a straight-line method over the shorter of lease term or estimated useful life of the assets. If ownership of the asset transfers to the Group at the end of lease term or the cost reflects the exercise of purchase option, depreciation is calculated over the estimated useful life of the asset. These methods most closely reflect the expected pattern of consumption of future economic benefits.

The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Payments associated with short-term leases and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option.

Judgments and estimates

The Group applies judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

Ijarah contracts

The Group has entered into Ijarah contracts under which it obtains usufruct of an asset for an agreed period for an agreed consideration. The Ijarah contracts are undertaken in compliance with the Shariah essentials for such contracts prescribed by the State Bank of Pakistan. The Group accounts for its Ijarah contracts in accordance with the requirements of IFAS 2 'Ijarah'. Accordingly, Group as a Mustajir (lessee) in the Ijarah contract recognises the Ujrah (lease) payments as an expense in the profit and loss on straight line basis over the Ijarah term.

4.12 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

4.13 Employees benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the consolidated statement of profit or loss when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

The Group operates a defined contribution plan in the form of recognized provident fund scheme for all employees. Contributions to fund are made monthly by the Group and employee at 8.33% of the basic salary. The Group's contributions are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as an asset.

Defined benefits plan

The Group operates a funded gratuity scheme as a defined benefit plan for its permanent employees and also funded defined benefit pension plan. All permanent employees who are in the management cadre of the Group participate in these plans subject to a minimum qualifying period of service according to the terms of employment. Monthly contributions are made to these funds on the basis of actuarial recommendation at the rate of 20% per annum of basic salary for pension and 8.33% per annum of basic salary for gratuity.

Actuarial valuation using projected unit credit method for the schemes was carried out as at 30 September 2024. The main features of defined benefit schemes are mentioned in respective notes. The Group's net obligation in respect of these defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds

from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liabilities, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Group determines the net interest expense / (income) on the net defined benefit liability / (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability / (asset), taking into account any changes in the net defined benefit liability / (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plan are recognized in profit or loss.

When the benefits of plans are changed or when plans are curtailed, the resulting change in benefits that relate to past service or the gain or loss on curtailment are recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of defined benefit plans when the settlement occurs.

Accumulated compensated absences

The Subsidiary Company provides leave encashment benefit to its employees. Employees are entitled to receive 14 days leaves per annum. The un-utilized leaves are accumulated subject to a maximum of 28 days. The unutilized accumulated leaves are encashed at the time of leaving the service. Provisions are made at each reporting date by Subsidiary Company to cover the obligation for accumulating compensated absences and are charged to consolidated statement of profit or loss.

Provision is made in the consolidated financial statements on the basis of actuarial recommendations. All actuarial gains or losses, current service cost, past service cost and interest cost are recognized in consolidated statement of profit or loss. The latest actuarial valuation was carried out as at reporting date.

4.14 Provisions

Recognition and measurement

Provisions for legal claims and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Judgement and estimates

As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustments to the amount of previously recognised

provision is recognised in the consolidated statement of profit or loss unless the provision was originally recognised as part of cost of an asset.

4.15 Contract balances

Contract liabilities

A contract liability is the obligation of the Group to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract. It also includes refund liabilities arising out of customers' right to claim amounts from the Group on account of contractual delays in delivery of performance obligations and incentive on target achievements.

Contract assets

Contract assets arise when the Group performs its performance obligations by transferring goods to a customer before the customer pays its consideration or before payment is due. Contract assets are treated as financial assets for impairment purposes.

Refund liabilities

Refund liabilities are recognized where the Group receives consideration from a customer and expects to refund some, or all, of that consideration to the customer. A refund liability is measured at the amount of consideration received or receivable for which the Group does not expect to be entitled and is updated at the end of each reporting period for changes in circumstances.

Right of return assets

Right of return assets represents the right to recover inventory sold to customers and is based on an estimate of customers who may exercise their right to return the goods and claim a refund. Such rights are measured at the value at which the inventory was previously carried prior to sale, less expected recovery costs and any impairment.

4.16 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate. Government grants relating to the purchase of property, plant and equipment are included in noncurrent liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

4.17 Contingencies and commitments

A contingent liability is disclosed when the Group has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Group; or the Group has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

Judgement and estimates

The Group reviews the status of all pending litigations and claims against the Group. Based on the judgment and the advice of the legal advisors for the estimated financial outcome, appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the reporting date.

Capital commitments, unless those are actual liabilities, are not incorporated in the books of accounts.

4.18 Impairment

Financial assets

The Group recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI; and
- contract assets.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort.

This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovery of a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Judgement and estimates

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets original effective interest rate.

The Group has elected to measure loss allowances for trade debts using IFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment including forward-looking information.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Impairment on financial assets other than trade debts has been measured on 12 - months expected loss basis and reflects the short maturities of the exposure.

Non-financial assets

The carrying amount of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

An impairment loss is recognized if the carrying amount of the assets or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the consolidated statement of profit or loss. Impairment losses recognized in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then to reduce the carrying amounts of the other assets in the unit on a pro rata basis. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to that extent that the asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized.

Judgement and estimates

The management of the Group reviews carrying amounts of its non-financial assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

4.19 Financial Instruments

Recognition and initial measurement

All financial assets or financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL).

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in consolidated statement of profit or loss. Any gain or loss on derecognition is recognized in consolidated statement of profit or loss.

Financial assets measured at amortized cost comprise cash and bank balances, deposits, long-term loans / advances, trade and other receivables, etc.

Debt Instrument – FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in consolidated statement of profit or loss. Other net gains and losses are recognized in OCI. On

derecognition, gains and losses accumulated in OCI are reclassified to consolidated statement of profit or loss. However, the Group has no such instrument at the reporting date.

Equity Instrument - FVOCI

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

These assets are subsequently measured at fair value. Dividends are recognized as income in consolidated statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to statement of profit or loss.

Fair value through profit or loss (FVTPL)

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL.

On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in consolidated statement of profit or loss. Dividend income is presented separately from net gain and losses.

Financial assets at fair value through profit or loss comprise of short-term investments in listed equity securities.

All "regular way" purchases and sales of financial assets are recognized on the settlement date, i.e. the date on which the asset is delivered to or by the Group. Regular way purchases or sales of financial assets are those, the contract for which requires delivery of assets within the time frame generally established by the regulation or convention in the market.

Financial assets - Business model assessment

For the purposes of the assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g., non-recourse features).

Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in consolidated statement of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in consolidated statement of profit or loss. Any gain or loss on derecognition is also recognized in consolidated statement of profit or loss.

Financial liabilities comprise contractual trade and other payables, short term borrowings, long term financing, deposits, accrued mark-up, unclaimed / unpaid dividend, etc.

The Subsidiary Company has provided an 'Equity Warrant Option' to BIPL under which BIPL may opt for conversion of its musharakah finance claim, either wholly or partially, into ordinary shares of the Subsidiary Company at a fixed price of Rs. 15 per share. The facility has been treated as a compound financial instrument with the debt instrument being measured first using an effective rate of 14.12% per annum while the remainder has been classified as equity portion. In subsequent years, markup expense shall be recognized through statement of profit or loss by using the same rate of interest, and equivalent amount shall be reinstated to the loan through unwinding of discount.

Derecognition

Financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in consolidated statement of profit or loss.

The Group classifies its financial assets at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Off - setting of financial instruments

Financial assets and liabilities are off-set and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention and ability to settle on a net basis, or realize the asset and settle the liability simultaneously.

4.20 Foreign currencies

Foreign currency transactions are translated into Pakistan Rupees which is the Group's functional and presentation currency using the exchange rates approximating those prevailing at the date of the transaction.

All monetary assets and liabilities in foreign currencies are translated into Pakistan Rupees using the exchange rate at the reporting date. Exchange gains and losses resulting from the settlement of such transactions and from the translations at the yearend exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in consolidated statement of profit or loss. All non-monetary assets and liabilities are translated in Pakistan Rupees using the exchange rates prevailing on the date of transaction or at the date when the fair value was determined.

4.21 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effects.

4.22 Dividend and other distribution

Dividend and other distribution to the Group's shareholders is recognised as a liability in the period in which the dividends are approved by the Group's shareholders.

4.23 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit or loss attributable to ordinary shareholders of the Group that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

4.24 Related party transactions

All transactions arising in the normal course of business and are conducted at arm's length at normal commercial rate on the same terms and conditions as third-party transactions using valuation modes as admissible, except in rarely extreme circumstances where, subject to approval of the Board of Directors, it is in the interest of the Group to do so. Parties are said to be related if they are able to influence the operating and financial decisions of the Group and vice versa.

4.25 Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorization for issue, about conditions that existed at the end of the reporting period, the Group will assess if the information affects the amounts that it recognizes in the financial statements. The Group will adjust the amounts recognized in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in the light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognized in its financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

4.26 Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Group that makes strategic decisions.

Segment results that are reported to the Board of Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those income, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated. The Group has the following reportable business segments: Sugar, Biofuel, Textile, Dairy (Producing dairy and juice products) and Juice (Producing fruit pulps) and Farms.

Transactions among the operating segments are recorded at cost. Inter-segment sales and purchases are eliminated from the total.

4.27 Comprehensive income

Comprehensive income is the change in equity resulting from transactions and other events, other than changes resulting from transactions with shareholders in their capacity as shareholders. Total comprehensive income comprises all components of profit or loss and other comprehensive income. Other comprehensive income comprises items of income and expense, including reclassification adjustments that are not recognized in profit or loss as required or permitted by approved accounting standards.

4.28 Statement of cashflows

The Group classify:

- cash payments for the principal portion of lease payments as financing activities;
- cash payments for the interest portion as operating activities;
- short-term lease payments and payments for leases of low-value assets as operating activities;
- cash flows from interest paid as operating activities, cash flows from interest received and dividends received as investing activities, and cash flows from dividends paid as financing activities. Interest paid includes the interest portion of the lease liabilities; and
- capitalized interest consistently with interest cash flows that are not capitalized.

4.29 Revenue recognition

Sale of goods

The Group generates revenue primarily from the sale of sugar, ethanol and related by-products and Dairy (Producing dairy and juice products) and Juice (Producing fruit pulps) as well as bio-fertilizers to its customers. Revenue from the sale of goods is recognized at the point in time when the performance obligations arising from the contract with a customer is satisfied and the amount of revenue that it expects to be entitled to can be determined. This usually occurs when control of the asset is transferred to the customer, which is when goods are dispatched or delivered from warehouse to the customers in case of local sales and bill of lading in case of exports. Invoices are generated and revenue is recognised at that point in time. All the sales are on advance basis, except few invoices that are usually payable within 30 days. Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. Revenue is disclosed net of taxes, returns, rebates, discounts and other allowances, whichever applicable.

Judgement and estimates

When recognizing revenue in relation to the sale of goods to customers, the key performance obligation of the Group is considered to be the point of delivery of the goods to the customer, as

this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

Government incentive

Government incentive relating to export sales are recognized when the right to receive such incentives has been established and the underlying conditions are met.

Return on bank deposits

Return on bank deposits is accounted for on a time proportionate basis using the applicable rate of return / interest.

Net unrealized gain / (losses)

Net unrealized gain / (losses) arising on revaluation of securities classified as 'fair value through profit or loss' are included in the consolidated statement of profit or loss in the period in which they arise.

Rental income

Rental income is recognized in profit or loss on an accrual basis.

Dividend income

Dividend income is recognized in profit or loss as other income when:

- the Group's right to receive payment has been established;
- is probable that the economic benefits associated with the dividend will flow to the Group; and
- the amount of the dividend can be measured reliably.

Foreign currency exchange differences

Foreign currency gains and losses are reported on a net basis.

Other income

Other income, if any, is recognized on an accrual basis.

Due to unprecedented effects of COVID-19 epidemic, the grace period was extended in accordance with the SBP's circular namely BPRD Circular no. 13 of 2020 dated March 26, 2020 as supplemented by BPRD Circular no. 11 of 2020 dated April 09, 2020 and BPRD Circular no. 25 of 2020 dated June 16, 2020 under which banks were required to process and grant customers deferral of the payment of principal amount of loan up to one year. As per the modified agreement, the principal repayment commenced from June 11, 2021 and is to be repaid in 16 equal quarterly installments. The facility carries a mark-up rate of 6 month KIBOR plus 3.50% per annum, reset at the beginning of each semi-annual period aligned with six monthly rental payments. It is secured against post-dated cheques, a specific charge of Rs. 125 million and a charge of Rs. 60 million on all present and future fixed assets excluding land and building but including plant, machinery and equipments. The effective markup rate during the period ranged from 21.23% to 28.19% per annum (September 30, 2023: 19.57% to 28.19% per annum). On March 01, 2023, the Company requested Sindh Modaraba Management Limited regarding the deferment of principal payments and on June 23, 2023, this deferment request was approved and the principal repayment were rescheduled by nine months i.e., principal repayment that was falling due on March 11, 2023 was subsequently due on December 11, 2023. All due payments were made during the year.	Semi annually	Quarterly	Post dated cheques and a title of the assets in the name of SMML for entire facility period.

Diminishing Musharaka Sukuk	290,000	326,250	3 Month KIBOR + 2.5%	22.69%-25.39%	This represents rated, privately placed and secured Diminishing Musharakah Sukuk of Rs. 725 million issued in 2018. It was originally repayable in 20 equal quarterly installments starting from October 10, 2019. The loan was obtained for financing business operations. It carries mark-up at the rate of 3 month KIBOR plus 2.5% per annum to be reset on one business day prior to beginning of each subsequent quarterly period for rental payment due at the end of that quarter and the markup is payable quarterly. The effective markup rate during the period ranged from 22.69% to 25.39% per annum (2023: 17.86% to 25.39% per annum). It is secured against first pari passu charge over fixed assets of the Company amounting to Rs. 967 million. On July 17, 2023, the Company requested Pak Oman Investment Company Limited (POICL) for one-year deferment of principal payments. On September 21, 2023 this deferment request was approved and the payment schedule was rescheduled by one year. Therefore, the principal repayment that was initially falling due on July 10, 2023 was subsequently payable on July 10, 2024. As of September 30, 2024, the Company was not in compliance with certain financial covenants, including the current ratio, debt service coverage ratio, and interest coverage ratio as outlined in the financing agreement with Pak Oman Investment Limited. This breach of covenants has not yet led POICL to demand immediate repayment of the outstanding balance. However, due to the Company's lack of an unconditional right to defer settlement for at least 12 months beyond the reporting date, the management has classified the Diminishing Musharakah Sukuk liability of Rs. 290 million as a current liability. As of the date of approval of these financial statements, the Company's lenders have not provided any relaxation to the Company. Management is however confident that its lenders will not demand repayment of the whole amount of these facilities, before respective due dates for each instalment. 24.2.2.12 Risks associated with pension fund and gratuity fund

The pension fund and gratuity fund expose the Company to the following risks:

Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate determined by reference to market yields at the end of the reporting period on high quality corporate bonds, or where there is no deep market in such bonds, by reference to market yields on government bonds. Currencies and terms of bonds yields used must be consistent with the currency and estimated term of the post-employment benefit obligations being discounted. A decrease in bond interest rate will increase the liability, and vice versa.

Salary risk

The present value of the defined benefit liability is calculated by reference to the future salaries of the plan participants. As such an increase in the salary of the plan participants will increase the liability and vice versa.

Pension rate risk

The present value of the defined benefit liability is calculated after taking into account the future pension growth of plan participants. As such, an increase in the pension growth rate of the plan participants will increase the liability and vice versa.

Withdrawal rate risk

The present value of the defined benefit liability is calculated by reference to the best estimate of the withdrawal rate / attrition rate of plan participants. As such, an increase in the withdrawal rate may increase / decrease the liability and vice versa depending on the age-service distribution of the existing employees.

Mortality rate risk

The present value of the defined benefit liability is calculated by reference to the best estimate of the mortality of plan participants during employment. An improvement in the mortality rate of the participants may increase / decrease the liability and vice versa depending on the age-service distribution of the existing employees.

24.2.3 Staff retirement gratuity

Benefit paid by the Company during the year	(3,122)	(4,140)
As at 30 September	27,482	25,923

24.2.4.5 The principal actuarial assumptions used were as follows:

Future salary increases (per annum)	11.25%	15.75%
Discount rate (per annum)	12.25%	16.75%
Expected mortality rate	SLIC (2001-05) mortality table	

24.2.4.6 The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	2024	2023
Discount rate	1.00%	1.00%
Increase in assumption (Rupees in thousand)	(2,931)	(1,708)

Increase in assumption (Rupees in thousand)	1,228	1,929
Decrease in assumption (Rupees in thousand)	(3,006)	(1,695)

24.2.4.7 Risks associated with staff retirement gratuity and accumulating compensated absences

The staff retirement gratuity and accumulating compensated absences expose the Company to the following risks:

- Salary increase / inflation risk

The liabilities of the defined benefit plans are sensitive to the salary increases.

- Discount rate risk

The risk of changes in discount rate may have an impact on the plan's liability.

- Mortality risk

Actual mortality experience may be different than that assumed in the calculation.

- Withdrawal risk

Actual withdrawals experience may be different from that assumed in the calculation.

24.2.5 The sensitivity analysis for pension fund, gratuity fund, staff retirement gratuity and accumulating compensated absences are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligations to significant actuarial assumptions the same method (present value of the defined benefit obligations calculated with the projected unit credit method at the end of the reporting period) has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change as compared to previous year except for certain changes as given above

26.1. On April 01, 2019, Company obtained Musharakah financing facility amounting to Rs. 280 million from BankIslami Pakistan Limited - BIPL (a related party) for a period of five years ending on 31 March 2024. The principal amount of financing facility was repayable on March 31, 2024 in bullet payment. As explained in Note 27.1 below, the Musharakah facility amounting to Rs. 120 million was converted into Running Musharakah facility in 2022. On March 29, 2024, an agreement between BankIslami Pakistan Limited and the Company extended the tenure of the Musharakah financing facility, amounting to Rs. 160 million, until March 31, 2026.

26.2. To secure the musharakah facility, the Company has provided an 'Equity Warrant Option' to BIPL under which BIPL may opt for conversion of its musharakah finance claim, either wholly or partially, into ordinary shares of the Company at a fixed price of Rs. 15 per share. The Musharakah facility has been treated as a compound financial instrument with the debt instrument being measured first using an effective rate of 14.12% per annum while the remainder has been classified as equity portion as detailed below. In subsequent years, markup expense shall be recognized through statement of profit or loss by using the same rate of interest, and equivalent amount shall be reinstated to the loan through unwinding of discount.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2023

26.3. During the year 2022, based on a revised facility letter, signed with the Company and BIPL, Musharakah facility amounting to Rs. 120 million was converted into a short term borrowing / running musharakah carrying a mark-up of 3 month KIBOR plus 1% at 16.09% (refer to note 32.3 of the financial statements). As result of this facility agreement, BIPL has opted out of the conversion option carried under the Musharakah agreement signed dated December 18, 2018 to the extent of Rs. 120 million.

32. CONTINGENCIES AND COMMITMENTS

a) Contingencies

32.1 The Government of Punjab under the powers conferred through the Punjab Excise Act, 1914 through notification No. SO. Tax (E&T) 3-4/2012 dated 03 July 2012, levied a duty of Rs. 2 per liter on manufacturing of spirit (biofuel) with effect from 01 July 2012. In view of legal lacunas, discrimination as to other provinces, no legislative competence and lawful authority of Government of Punjab to impose such duty on industrial ethanol which is not alcohol liquor and the fact that the Company is exporter of the spirit which is exempted under Order 6 of the Punjab Liquor Import, Export, Transportation and Possessions Orders, the management through its legal counsel has challenged the imposition of said levy and is currently contesting it at Lahore High Court, Lahore. Keeping in view all the court proceedings and grounds discussed in various higher courts, Punjab Government, after due deliberations of the Provincial Cabinet of the Punjab Government, on 20 August 2019, through its notification no. SO(E&M)2-5/2018/ED withdrew the imposed duty of Rs. 2 per liter upon the manufacture of spirit in any distillery. As per Company's legal counsel, the Company has clear-cut case and the decision of the case shall be in favor of the Company. In view of the aforesaid, the duty on manufacturing of spirit (biofuel) of Rs. 229.918 million (2023: Rs. 229.918 million) previously deposited with court under protest on this account has been recognized as receivable being refundable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2023

- 32.2 The Company has paid an advance amounting to Rs. 12.999 million (2023: Rs. 12.999 million) to Messrs Industrial Enterprises for designing the boiler project to use only biogas as fuel with no option of burning bagasse. However, the boiler could not generate steam as per specification. It is unlikely that this project will be completed. Therefore the Company has gone into litigation with Industrial Enterprises in Civil Court, Jhang on 03 July 2018 for the recovery of the advance paid along with damages. Based on the advice of legal counsel, there are favourable grounds that the case will be decided in favour of the Company and the advance amount paid will be refunded back.
- 32.3 An appellate order was made by Commissioner Inland Revenue, Appeals, Lahore on 30 November 2020 under section 33 of Federal Excise Act, 2005, confirming payment of federal excise duty of Rs. 12.757 million (2023: Rs. 12.757 million) including penalty regarding export of sugar to Afghanistan through land route in 2014. The Company has filed appeal before Appellate Tribunal Inland Revenue, Lahore against this order on 23 December 2020. No provision has been recognized in the books of account as the Company is confident on positive outcome of the appeal, on the advice of legal counsel.
- 32.4 The Competition Commission of Pakistan (CCP) imposed penalties of Rs. 312.595 million (2023: Rs. 312.595 million) on sharing commercially sensitive information and Rs. 437.633 million (2023: Rs. 437.633 million) against collective decision on export quantities. Against these penalties, the Company has lodged appeal before Competition Appellate Tribunal on 14 October 2021, whose decision is pending. On the advice of legal counsel, management is confident that the matter will be decided in the favour of the Company.
- 32.5 Commissioner Inland Revenue filed petition in Lahore High Court, Lahore against the Company on 17 June 2021 regarding the order to recover sales tax of Rs. 78.867 million (2023: Rs. 78.867 million) along with default surcharge and penalty against which the Company filed an appeal before Appellate Tribunal Inland Revenue on 10 November 2020 pending adjudicating at the reporting date. According to legal counsel of the Company, the petition filed by CIR is on weak grounds therefore no provision is recognized in these financial statements.
- 32.6 The Company has filed appeals before Appellate Tribunal Inland Revenue on 05 April 2022 against assessment orders under section 11 of the Sales Tax Act, 1990 passed by the Commissioner Inland Revenue (Appeals) regarding the recovery of sales tax of Rs. 8.272 million for the tax periods October 2016 and March 2018. As per Company's legal counsel, no provision is required as the Company has good arguable cases.
- 32.7 Deputy Commissioner Inland Revenue issued show cause notices to the Company on 19 May 2022 and on 16 February 2022 against the input tax adjustments of exempt / inadmissible supplies from July 2020 to June 2021 and from July 2021 to November 2021 amounting to Rs. 1.428 million and Rs. 9.282 million respectively in violation of section 8(2) of the Sales Tax Act, 1990. The collective amount was later reduced by CIR (A) to Rs. 3.210 million. The appeals before Appellate Tribunal Inland Revenue dated 18 August 2022 and 18 October 2022 are being pursued by the Company. On the advice of legal counsel, management is confident that the matters will be decided in the favour of the Company.
- 32.8 Deputy Commissioner Inland Revenue on 29 June 2021 passed an order under section 122(4) of Income Tax Ordinance, 2001 and made an addition amounting to Rs. 2.127 billion being unexplained income under section 111(1)(b) of Ordinance. The Company on 19 March 2022 filed an appeal before CIR(A). Moreover, due to addition as mentioned above, Additional Commissioner Inland Revenue adjusted the refunds claimed by the Company and a demand of Rs. 31.425 million was created. The Company, being aggrieved has filed an appeal before ATIR on 25 October 2022. On the advice of legal counsel, management is confident that the matters will be decided in the favor of the Company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2023

32.9 Commissioner Inland Revenue (CIR) filed sales tax reference no. 50364/2020 against the Company in Lahore High Court, Lahore on 13 October 2020 challenging the judgment of Appellate Tribunal Inland Revenue of setting aside various sales tax / federal excise duty demands of Rs. 28.817 million. As per Company's legal counsel, no provision is required as the reference filed by CIR is on weak grounds and will be dismissed by the Court.

32.10 Commissioner Inland Revenue filed Income Tax reference impugning order dated 12th April, 2022 passed in ITA NO, 1564/LB/2015 pertaining to incorrect application of minimum tax at the rate of 0.5% instead of 1% in the tax year 2011. The matter is still pending for adjudication in Lahore High Court. On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.

Commissioner Inland Revenue (CIR) issued order declaring sales tax claimed as inadmissible amounting to Rs. 4.545 million against which appeal has been filed before CIR (Appeals). On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.

32.11 Commissioner Inland Revenue filed sales tax reference against the Company in Lahore High Court impugning order dated 8th March, 2022 passed by the Appellate Tribunal in STA No. 132/LB/2022. The reference was decided on 1st November, 2023. The matter was remanded back to Tribunal for decision afresh. On the advice of legal counsel, management is confident that the matter will be decided in favour of the Company.

32.12 In addition to above-mentioned matters there are certain cases which have been filed against the Company, primarily by the Company's employees, customers and vendors. However, the management is of the view that in the overall context of these financial statements, there would be no significant liability of the Company against such cases.

32.13 The Subsidiary Company has preferred an appeal before the Commissioner Appeals against order passed by the Additional Commissioner Inland Revenue for the tax year 2011 whereby demand of Rs.6.25 million was created under section 122(5A) of the Ordinance along with additions in the income at Rs.91 million. However, in request for rectification, the demand was curtailed to Rs. 1.29 million. The learned Commissioner Appeals has deleted the tax demand of Rs. 1.29 million while additions to the tune of Rs. 1.28 million remain in field by deleting impugned addition of Rs. 89 million. Both the Company and department are in further appeals before the honourable Appellate Tribunal Inland Revenue, which are pending for adjudication. The Company anticipates a favorable outcome in this ongoing matter.

32.14 Assessment for the tax year 2012 was amended under Section 122(5A) of the Income Tax Ordinance, 2001 resulting into additions of Rs. 17.210 million and income tax demand of Rs. 3.37 million. On appeal, the Commissioner Inland Revenue (Appeals) (CIR(A)) has deleted all the additions and demand vide order number 05 dated 12 July 2018. However the department has preferred further appeal against this order of the CIR(A) which is pending for adjudication before the Appellate Tribunal Inland Revenue. Based on opinion of the Subsidiary Company's tax advisor, management is confident that no tax liability would arise, therefore, no provision has been made in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2023

- 32.15 Proceedings under Section 122 (5A) of Income Tax Ordinance, 2001 were initiated and order passed for the tax year 2013 wherein arbitrary additions to the tune of Rs. 177.44 million and tax demand of Rs. 85.45 million were made. This triggered the Subsidiary Company for filing an appeal before the Commissioner Inland Revenue Appeals (CIR(A)), who vide order dated 14 June 2018 annulled the amended assessment order for de-novo proceedings. In reassessment proceedings, additions were curtailed to Rs. 32.63 million. On filing an appeal before the CIR(A), additions to the tune of Rs. 25.15 million were annulled through order number 01 dated 06 January 2020. The Subsidiary Company has preferred an appeal against the said order before the Appellate Tribunal Inland Revenue which is pending for hearing. Based on tax advisor's opinion, management is confident that no tax liability would arise, therefore, no provision has been made in these consolidated financial statements.
- 32.16 The Deputy Commissioner Inland Revenue passed an order dated 26 October 2020 under section 11(2) of the Sales Tax Act, 1990 and raised tax demand of Rs. 88.93 million against inadmissible input tax adjustment during the tax periods from July 2014 to June 2017. On filing of appeal, the Commissioner Inland Revenue Appeals vide order No. 21/2020 dated 20 February 2021 upheld the demand of Rs. 1.909 million by disallowing input tax on certain items. No provision has been made in these consolidated financial statements, since the management of the Subsidiary Company, based on tax advisor's opinion, is confident that no liability can be arisen.
- 32.17 Proceedings under sections 161/205 of the Income Tax Ordinance, 2001 for the tax years 2014 and 2015 were initiated and concluded by Deputy Commissioner Inland Revenue on 14 February 2017 and 03 March 2017 respectively. Under these proceedings, demands of Rs. 1.35 million and Rs. 1.4 million respectively were created. The Subsidiary Company has filed appeals before the Commissioner Inland Revenue (Appeals) (CIR(A)) against orders of afore-mentioned years. With respect to tax year 2014, the appeal of the Subsidiary Company was heard by CIR(A) who deleted impugned recovery amounting to Rs. 0.247 million vide order dated 21 May 2020. The default surcharge was also deleted subject to verification of refunds. Subsidiary Company and department had preferred further appeals before the Appellate Tribunal Inland Revenue which are pending for adjudication. The appeal for tax year 2015 has been concluded by the CIR(A) by deleting impugned demand of Rs. 0.904 million vide order dated 23 September 2020. Based on tax advisor's opinion, management expects favorable outcome of the appeals, therefore no provision has been recorded in these consolidated financial statements.
- 32.18 The case of the Subsidiary Company was selected for audit of its income tax affairs for the tax year 2014 in the random computerized balloting held on 14 September 2015. The proceedings under Section 177 read with Section 122 of the Income Tax Ordinance, 2001 were completed creating tax demand of Rs. 3.07 million and impugned additions of Rs. 71.31 million. On appeal before the Commissioner Inland Revenue (Appeals) (CIR(A)), additions to the tune of Rs. 5.99 million were deleted and demand of tax was confirmed through order number 03 dated 05 June 2020. Subsidiary Company and the department have further assailed the order before the Appellate Tribunal Inland Revenue which is pending for adjudication. Based on the tax advisor's opinion, management is confident of favorable outcome of the appeal. Therefore, no provision has been made in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 SEPTEMBER 2023

- 32.19 The Collector of Customs issued a revised classification ruling through a public notice on 4 April 2023, categorizing 'Tea Whitener' produced by the dairy companies under Chapter 21 of the Customs Act, 1969. This ruling diverges from previous classifications in 2011 and 2019, which placed the product under Chapter 19. Notably, the classification under Chapter 21 is subject to the standard rate of sales tax, unlike the zero rating applicable under Chapter 19. Accordingly, if this ruling had been effective from April 4, 2023, the resultant sales tax due to the Federal Board of Revenue on the sale of tea whitener would amount to Rs. 513.76 million. Expressing dissatisfaction, the dairy companies filed appeals before the Honorable Lahore High Court (LHC) against the Collector of Customs' order. The LHC transformed the petition into a representation before the FBR, instructing the provision of a proper hearing opportunity. Following the LHC's directives, the Member (Customs Policy) conducted the hearing and issued an order on 19 September 2023, upholding the Collector's ruling. This order has been challenged before the LHC. The LHC, in response, issued a stay order on 25 September 2023, stipulating that the contested classification ruling should not be implemented, and the treatment of tea whitener should follow prior practices. Based on advice from legal counsel, the Company's management is confident that the decision will be in favor of the Company. Additionally, in the event of an unfavorable decision, the management asserts that the Collector's order will be applicable prospectively from the date of the LHC's order to be issued in response to the aforementioned pending petition. The company anticipates a favorable outcome in this ongoing matter.
- 32.20 The DCIR passed an order u/s 11(2) of the Sales Tax Act, 1990 dated October 26, 2023 for tax periods January 2018 to June 2019. Sales tax demand of Rs. 11.86 million has been raised on grounds that 100% input tax has been adjusted instead of restricting it to 90% of the output tax in violation of Section 8(B)(1) of the Sales Tax Act, 1990. On appeal before the CIR(A), the demand of Rs. 11.86 million has been deleted vide order dated 22 December 2023 whereas penalty and default surcharge amounting Rs. 0.59 million has been maintained. The Subsidiary Company has preferred an appeal before the ATIR and expects a favourable decision on the matter.
- 32.21 Utility providers i.e. Sui Northern Gas Pipeline Limited and Faisalabad Electric Supply Company levied additional taxes totalling Rs. 4.67 million on March-April 2022 gas and electricity bills due to a brief two-day inactive sales tax status. Being aggrieved with the additional taxes, the Company contested this with the Commissioner Inland Revenue (CIR), who upheld the taxes. The Subsidiary Company being dissatisfied with CIR's order filed a petition before Lahore High Court (LHC), LHC instructed the CIR to reconsider the order, taking into account evidence of active status. However, the CIR upheld the original order. The Subsidiary Company being aggrieved filed an appeal before Appellate Tribunal Inland Revenue (ATIR) which nullified the CIR's order. The CIR being aggrieved has filed a sales tax reference before LHC against ATIR's order which is pending adjudication. The Subsidiary company anticipates a favorable outcome in this ongoing matter.
- 32.22 The Bank of Punjab filed an appeal before the Lahore High Court Lahore against the order dated 12 July 2018 passed by the Banking Court in suit No. 492/1/2015 whereby the recovery for Rs. 2.4 Million in suit of the plaintiff was dismissed. The matter is pending for adjudication before the Lahore High Court. The Subsidiary company anticipates a favorable outcome in this ongoing matter.
- 32.23 Company received a notice wherein proceedings under section 122 (9) read with section 122(5A) and 111(1)(c) of the Income Tax Ordinance, 2001 for the tax year 2023 dated January 29, 2024 was initiated and the department passed the order against the taxpayer company with arbitrary additions of Rs. 140.95 million. Being aggrieved, the Subsidiary Company preferred an appeal against Commissioner Inland Revenue (Appeals), which was transferred to Appellate Tribunal Inland Revenue (ATIR) on account of amendment in law and was subsequently heard on August 01, 2024, however the order has not been yet released by the ATIR.

51. FINANCIAL RISK MANAGEMENT

51.1. Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Board of Directors of the Holding Company and Subsidiary Company have overall responsibility for the establishment and oversight of each Company's risk management framework. The Board of each Company is also responsible for developing and monitoring each Company's risk management policies.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group's exposure to currency risk was as follows:

	2024	2023
Trade receivables - USD	134,336	11,242
Trade payables - USD	(223,980)	(179,990)
Cash and bank balances - USD	5,812	14,291
	(83,832)	(154,457)
Following significant exchange rates were applied during the year:		
Rupees per US Dollar		
Average rate	283.16	304.87
Reporting date rate	277.71	288.60

Sensitivity analysis

If the functional currency, at reporting date, had weakened / strengthened by 5% against the USD with all other variables held constant, the impact on loss after taxation for the year would have been Rs. 1.164 million (2023: Rs. 2.228 million) lower / higher mainly as a result of exchange gains / losses on translation of foreign exchange denominated financial instruments. Currency risk sensitivity to foreign exchange movements has been calculated on a symmetric basis.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Group is not exposed to commodity price risk.

Sensitivity analysis

The table below summarizes the impact of increase / decrease in the Pakistan Stock Exchange Limited (PSX) Index on the Group's equity (fair value reserve of FVTOCI investments). The analysis is based on the assumption that the equity index had increased / decreased by 5% with all other variables of FVTOCI instruments held constant and all the Group's equity instruments moved according to the historical correlation with the index:

Index	Impact on statement of other comprehensive income (fair value reserve)	
	2024	2023
	Rupees in thousand	
PSX 100 (5% increase)	750	229
PSX 100 (5% decrease)	(750)	(229)

Equity (fair value reserve) would increase / decrease as a result of gains / losses on equity investments classified as FVTOCI.

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's interest rate risk arises from long term financing, lease liabilities, short term borrowings, term deposit receipt and deposits in saving accounts. Financial instruments at variable rates expose the Group to cash flow interest rate risk. Financial instruments at fixed rate expose the Group to fair value interest rate risk.

At the reporting date, the interest rate profile of the Group's interest bearing financial instruments was:

	2024 Rupees in thousand	2023
Fixed rate instruments		
Financial liabilities		
Musharakah financing - debt portion	125,874	149,452
Lease liabilities	211,169	397,004
Floating rate instruments		
Financial assets		
Bank balances - saving accounts	(1,541)	(4,946)
Financial liabilities		
Long term financing	533,015	607,500
Short term borrowings	870,253	1,024,700
Musharakah financing	125,874	149,542
	1,527,601	1,776,796

Fair value sensitivity for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss of the Group.

Cash flow sensitivity analysis for variable rate instruments

If interest rates at the year end date, fluctuates by 1% higher / lower with all other variables held constant, loss after taxation for the year would have been Rs. 15.276 million (2023: Rs. 17.768 million) higher / lower mainly as a result of higher / lower interest expense / income on floating rate financial instruments. This analysis is prepared assuming the amounts of financial instruments outstanding at reporting dates were outstanding for the whole year.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2024 Rupees in thousand	2023
Investments	14,992	4,579
Trade debts	198,457	187,750
Loans and advances	58,280	55,020
Deposits	123,905	120,264
Other receivables	23,642	21,264
Bank balances	262,480	131,588
	681,756	520,465

To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Sales contracts and credit terms are approved by the senior management and where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period limit for each type of customers in order to reduce the credit risk.

The Group applies the IFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade debts. Management uses actual historical credit loss experience, credit risk characteristics and past days due, adjusted for forward-looking factors specific to the debtors and the economic environment to determine expected credit loss allowance.

The Group's exposure to credit risk and allowance for expected credit losses related to trade debts is disclosed in Note 24.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate.

The credit quality of Group's bank balances can be assessed with reference to external credit ratings as follows:

Due to the Group's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counterparties on their obligations to the Group. Accordingly, the credit risk is minimal.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Group manages liquidity risk by maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. As of reporting date, the Group had Rs. 550,253 million (2023: Rs. 672,500) available borrowing limits from financial institutions and Rs. 263,669 million (2022: Rs. 133,620 million) cash and bank balances. Management believes the liquidity risk to be low. Followings are the contractual maturities of financial liabilities, including interest payments. The amounts disclosed in the tables are undiscounted cash flows.

51.4. Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends to be paid to shareholders, issue new shares or sell assets to reduce debt. Consistent with others in the industry and the requirements of the lenders, the Group monitors the capital structure on the basis of gearing ratio. This ratio is calculated as borrowings divided by total capital employed. Borrowings represent long term financing and short term borrowings obtained by the Group. Total capital employed includes 'total equity' as shown in the consolidated statement of financial position plus 'borrowings'.

	2024	2023
Borrowings (Rupees in thousand)	1,534,309	1,781,652

53. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these consolidated financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into following three levels. An explanation of each level follows underneath the table:

	Rupees in thousand			
Recurring fair value measurements	Level 1	Level 2	Level 3	Total
Financial assets				
At 30 September 2024				
At fair value through other comprehensive income	14,992	-	-	14,992
At 30 September 2023				
At fair value through other comprehensive income	4,579	-	-	4,579

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to the short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further there was no transfer out of level 3 measurements.

The Group's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(ii) Valuation technique used to determine fair values

Specific valuation technique used to value financial instruments include the use of quoted market prices for listed securities.

54. RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS

(i) Fair value hierarchy

The judgements and estimates are made for the non-financial assets that are recognized and measured at fair value in these consolidated financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its non-financial assets into the following three levels.

	Rupees in thousand			
	Level 1	Level 2	Level 3	Total
At 30 September 2024				
Recurring fair value measurements				
Property, plant and equipment				
Freehold land	-	3,092,816	-	3,092,816

Right-of-use assets - Plant and machinery	-	-	518,548	518,548
Biological assets	-	34,404	585	34,989
Total non-financial assets	-	13,750,881	5,207,513	18,958,394
At 30 September 2023				
Recurring fair value measurements				
Property, plant and equipment				
Freehold land	-	3,070,816	-	3,070,816
Building	-	1,220,492	554,915	1,775,407
Plant and machinery	-	10,105,093	4,398,989	14,504,082
Right-of-use assets - Plant and machinery	-	-	545,840	545,840
Biological assets	-	28,889	1,632	30,521
Total non-financial assets	-	14,425,290	5,501,376	19,926,666

(ii) Valuation techniques used to determine level 2 fair values

The Group obtains independent valuation for its freehold land, building, plant and machinery at least after every three years. The management updates the assessment of the fair value of property, plant and equipment taking into account the most recent independent valuation. The management determines the value of these assets within a range of reasonable fair value estimates. The best evidence of fair value of land is current prices in an active market for similar lands. The best evidence of fair value of building is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the new construction / replacement value of the same building. The best evidence of fair value of plant and machinery is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the value of new plant and machinery of the same specifications. The fair value of standing crops is based on the support price fixed by the Government and other factors such as estimated crop yield and area under cultivation. The fair value of livestock is estimated on the basis of market prices of livestock of similar age, breed and genetic merit.

Valuation processes

The Group engages external, independent and qualified valuers to determine the fair value of the Group's freehold land, building, plant and machinery after three years. The fair value of these assets has been determined by independent valuers Messrs Hamid Mukhtar and Company (Private) Limited and Messrs Surval on 30 September 2021 and on 30 September 2022 respectively. The fair value of biological assets are determined by the related experts keeping in view the current market conditions and other salient factors.

اگلے کرشنگ سیزن کے لئے حکومت نے گنے کی قیمت مقرر نہیں کی ہے اور نہ ہی اس کے لئے کوئی نوٹیفکیشن جاری کیا گیا ہے۔ امید ہے کہ پنجاب حکومت مارکیٹ کی قوتوں کو منصفانہ کھیل کے لئے تمام شعبوں میں کام کرنے کی اجازت دیتی رہے گی۔ یہ عنصر بہتر مارجن کے ساتھ بہتر کاروباری ماحول پیدا کرنے کا سبب بن سکتا ہے۔ کم کرشنگ اور مختصر سیزن کے پیش نظر ہمارے بائیو فیول آپریشنز کے لئے خام مال قابل عمل قیمتوں پر دستیاب نہیں تھا۔ جبکہ ہماری ڈسٹریز کے آپریشنز کا مستقبل کا نقطہ نظر ہمیشہ اچھے معیار کے مولا سز کی مسلسل دستیابی پر منحصر ہوتا ہے۔ زیادہ قیمتوں اور نقد بہاؤ کی کمی کی وجہ سے بڑے پیمانے پر خریداری کی توقع نہیں ہے، تاہم، انتظامیہ اگلے سیزن میں ڈسٹریز کو گنجائش پر چلانے کے لئے اپنی پوری کوشش کرنے کے لئے پرعزم ہے۔ شرح سود میں مزید کٹوتی سے صنعتوں کی مالی پریشانیوں کو دور کرنے میں بھی مدد ملے گی۔ تاہم ٹیکسٹائل کے کاروبار میں مشکل کاروباری ماحول کی وجہ سے خام مال کی قیمت زیادہ ہونے کی وجہ سے ابھی تک آپریشن شروع نہیں کیا جا سکا۔ جیسا کہ ہماری پچھلی سالانہ رپورٹ میں ذکر کیا گیا ہے، انتظامیہ لیکویڈیٹی کی کمی پر قابو پانے کے لئے اقدامات کر رہی ہے اور ہمیں امید ہے کہ کمپنی اپنا آپریشن جاری رکھے گی۔ تمام چیلنجوں کے باوجود، ہم چیلنجنگ وقت سے گزرنے کے لئے پرعزم ہیں۔

مالیاتی حسابات

پاکستان میں قابل اطلاق اکاؤنٹنگ اور رپورٹنگ معیارات کے تحت درکار اکٹویز ایکٹ، 2017 کی ضروریات (XIX of 2017) کے مطابق، انتظامیہ ایسے داخلی کنٹرول کے لئے مالی حسابات کی تیاری اور منصفانہ پریزنٹیشن کی اپنی ذمہ داری سے آگاہ ہے کیونکہ انتظامیہ کا تعین مالی حسابات کی تیاری کو مستحکم کرنے کے لئے ضروری ہے جس میں مواد غلطی سے پاک ہو، چاہے دھوکہ دہی یا غلطی کی وجہ سے ہو۔

چیف ایگزیکٹو آفیسر اور چیف فنانشل آفیسر نے مالیاتی حسابات اپنے دستخطوں کے ساتھ باقاعدہ توثیق شدہ بورڈ آف ڈائریکٹرز کے غور و خوض اور منظوری کے لئے پیش کئے ہیں اور بورڈ غور و خوض اور منظوری کے بعد مالی حسابات جاری اور ترسیل کرنے کے لئے دستخط کرنے کا مجاز ہے۔ کمپنی کے مالیاتی حسابات کمپنی کے ڈائریکٹرز، کریسٹن حیدر بھیم، جی اینڈ کمپنی، چارٹرڈ اکاؤنٹنٹس کی طرف سے باقاعدہ نظر ثانی شدہ اور منظور شدہ ہیں اور ان کی رپورٹ مالیاتی حسابات کے ہمراہ منسلک ہے۔ ڈائریکٹرز چیف ایگزیکٹو کے جائزہ اور اس سالانہ رپورٹ کے مواد کی تصدیق کرتے ہیں اور اکٹویز ایکٹ 2017ء کی دفعہ 227 کی شرائط اور مندرجہ ذیل کمپنیز (کوڈ آف کارپوریٹ گورننس) کے ضابطے 2017 کے مطابق ڈائریکٹرز رپورٹ کا لازمی حصہ بنے گا۔

ڈیویڈنڈ اور کیریڈ فارورڈ

ڈائریکٹرز نے 30 ستمبر 2024 کو ختم ہونے والے سال کے لئے ڈیویڈنڈ کی ادائیگی کی سفارش نہیں کی ہے۔ اس کے علاوہ کوئی رقم عام ریزرو یا کسی بھی دیگر ریزرو فنڈز کا وٹ میں آگے نہیں بھیجی جارہی ہے۔

بعد کے واقعات

مالی سال جس سے یہ بیلنس شیٹ متعلقہ ہے کے اختتام اور ڈائریکٹرز رپورٹ کی تاریخ کے درمیان کمپنی کی مالی حالت پر اثر انداز ہونے والی کوئی مادی تبدیلیاں وقوع پذیر اور وعدے نہیں کئے گئے ہیں۔

ادائیگیوں، ڈیبٹ یا قرض میں نا دہندگی

کمپنی واجب رقم کی بروقت واپسی کی اپنی ذمہ داری کو تسلیم کرتی ہے اور صنعت میں کامیابی حاصل کرنے والے بہترین طریقوں کی تعمیل کی جاتی ہے یہ بیان کیا گیا ہے کہ ذریعہ جائزہ سال کے دوران کسی بھی قرض یا ڈیبٹ کی ادائیگی میں کوئی نا دہندگی نہیں ہوئی سوائے اس کے جیسا کہ مالی بیانات میں ظاہر کیا گیا ہے۔

کاروبار کی نوعیت میں تبدیلی

کمپنی کے کاروبار کی نوعیت سے متعلق مالی سال کے دوران کوئی تبدیلی نہیں ہوئی ہے۔

متعلقہ پارٹی کے معاملات

آڈٹ کمیٹی کے جائزہ اور سفارش کے بعد تمام متعلقہ پارٹی لین دین کو بورڈ کی طرف سے منظور کیا گیا ہے۔ کمپنی نے اس سالانہ رپورٹ سے منسلک اپنے مالی حسابات میں متعلقہ پارٹی معاملات کے بارے میں تفصیلی وضاحت کی ہے۔ اس طرح کا وضاحت کمپنیز ایکٹ، 2017 کے چوتھے شیڈول اور قابل اطلاق بین الاقوامی مالیاتی رپورٹنگ معیارات کی ضروریات کے مطابق ہے۔

مالی جائزہ اور گونگ کنسرن مفروضہ

کم کرٹنگ اور پیداوار کے پیش نظر، مالی نتائج حوصلہ افزا نہیں تھے، تاہم، کمپنی بہتر کارکردگی حاصل کرنے اور مستقبل میں اپنی لیکویڈیٹی منظر نامے کو بہتر بنانے کے لئے اپنی بہترین کوششوں کے لئے پرعزم ہے۔ پاکستان اسٹاک ایکسچینج کی جانب سے شکر گنج لمیٹڈ کو نان کمپلائنٹ کی فہرست میں شامل کیا گیا ہے کیونکہ اس کے موجودہ واجبات اس کے موجودہ اثاثوں سے 5,417.81 ملین روپے زیادہ ہیں۔ تاہم، کمپنی اپنی لیکویڈیٹی منظر نامے کو بہتر بنانے کے لئے پرعزم ہے۔ لیکویڈیٹی بحران پر قابو پانے کے لئے مختلف اقدامات کی منصوبہ بندی کی گئی ہے جیسا کہ نوٹ 1.3 میں اس کے ساتھ منسلک مالی بیانات میں دیا گیا ہے۔ کارکردگی، تاثیر اور پیداواری لاگت کو کم کرنے کے ذریعے کمپنی کی پیداوار اور منافع کو بہتر بنانے کے لئے ہر ممکن کوشش کی جارہی ہے۔ انتظامیہ کا خیال ہے کہ بیان کردہ اقدامات کے نتیجے میں کمپنی کو مستقبل قریب میں اپنے کاروبار کے تسلسل کو برقرار رکھنے اور اس طرح اس کی تشویش کی حیثیت کو برقرار رکھنے کے لئے مناسب مالی وسائل کی دستیابی ہو سکتی ہے۔ تاہم، جیسا کہ اوپر ذکر کیا گیا ہے، کاروباری ماحول ایسا تھا کہ کمپنی کو بھاری نقصانات کے ساتھ گئے کو کرش کرنے پر مجبور ہونا پڑا جس نے پیش رفت کو شدید متاثر کیا۔ لیکن پھر بھی کمپنی کی انتظامیہ مستقبل میں جہاں بھی مواقع پیدا ہوں موقع لینے کے لئے پرعزم تھی۔

مستقبل کا نقطہ نظر

بورڈ آف ڈائریکٹرز کی طرف سے حد کے مطابق جائزہ لیا گیا، کمپنی کے تمام حکموں کے سربراہ "ایگزیکٹوز" تصور کئے جائیں گے۔

نان ایگزیکٹو اور آزاد ڈائریکٹرز کا معاوضہ

بورڈ آف ڈائریکٹرز نے ایک "ڈائریکٹرز ریمینڈیشن پالیسی" کی منظوری دی ہے، منظور شدہ پالیسی کی اہم خصوصیات حسب ذیل ہیں:

- ✓ کوئی ڈائریکٹر اپنی خود کی ریمینڈیشن متعین نہیں کرے گا/گی۔
- ✓ باقاعدہ پیڈ چیف ایگزیکٹو، سپانسرز اور یا فیملی ڈائریکٹرز اور کل وقتی کام کرنے والے ڈائریکٹرز کے علاوہ بورڈ اور اسکی کمیٹی کے اجلاسوں میں شرکت کے لئے ڈائریکٹر میٹنگ فیس کی رقم 50,000 روپے (پچاس ہزار روپے صرف) یا بورڈ کی طرف سے وقفہ وقت متعین کردہ کے مطابق ہوگی۔
- ✓ ڈائریکٹرز اجلاسوں میں شرکت کے لئے سفری، قیام اور دیگر اخراجات کے بشمول تمام مناسب اخراجات لینے کے بھی اہل ہوں گے۔

بورڈ آف ڈائریکٹرز اور اسکی کمیٹیوں کی کارکردگی کی تشخیص

ہیومن ریسورس اینڈ ریمینڈیشن کمیٹی نے انفرادی بورڈ یا کمیٹی ارکان کی طرف سے جو بھی صورت ہو خود تشخیصی کے قائم شدہ میکانزم پر مبنی بورڈ آف ڈائریکٹرز اور اس کی کمیٹیوں کی کارکردگی کا جائزہ لیا ہے۔ مندرجہ بالا میکانزم بورڈ کی طرف سے ہیومن ریسورس اینڈ ریمینڈیشن کمیٹی کی سفارش پر منظور کیا گیا۔

سی ای او کی کارکردگی کی تشخیص

سال کے دوران بورڈ کی ہیومن ریسورس اینڈ ریمینڈیشن کمیٹی نے تشخیصی نظام پر مبنی قائم شدہ کارکردگی کے مطابق سی ای او کی کارکردگی کا تعین کیا۔ مندرجہ ذیل معیار پر تشخیصی جائزہ لیا گیا:

- ✓ قیادت
- ✓ پالیسی اور حکمت عملی
- ✓ لوگوں کی مینجمنٹ
- ✓ بزنس پراسیس / مہارت
- ✓ گورننس اور تعمیل
- ✓ مالیاتی کارکردگی
- ✓ معاشرہ پر اثرات

اس کے بعد، کمیٹی کی سفارش پر جائزہ کے بعد بورڈ کی طرف سے تشخیص کی منظوری دی گئی۔

محفوظ، صحت مند اور تعلیم یافتہ کمیونیز کا قیام ہیں۔ ہمارا سوشل ایکشن پروگرام (شکر گنج فاؤنڈیشن کے تحت) "Sukh Char Programme" عنوان کے تحت ہماری وسیع کمیونٹی میں سماجی خدمات کی ورائٹی مہیا کرتا ہے۔ ان خدمات میں تعلیم، صحت کی حفاظت، فنون کی ترقی اور ہمارے ثقافتی ورثہ کی حفاظت شامل ہیں۔

ہمارا سکول کو اپنانے کا اقدام 35 مقامی گریڈز اور بوائز سکولوں کو مدد فراہم کرتا ہے جس میں جہاں ضرورت ہو پینے کا صاف پانی، نیوٹریشن سپلیمنٹ، یونیفارمز، بنیادی ڈھانچہ کی بحالی اور اضافی سہولیات کی تعمیر شامل ہیں۔ اولافلیورڈ دودھ کی فراہمی ہماری باقاعدہ خصوصیت ہے اور دو سکولوں میں 235 طلباء کو اولافلیورڈ دودھ مستقل بنیادوں پر فراہم کیا جا چکا ہے۔ شکر گنج سٹیز فاؤنڈیشن کے ایجوکیشن پروگرام کو بھی مدد فراہم کرتی ہے۔ تعلیم کو بنیادی تعاون فراہم کرنے کے مقصد کے ساتھ ایک پبلک سروسز کے طور پر شکر گنج کے پریسز میں ٹیچرز ٹریننگ انسٹیٹیوٹ قائم کیا گیا ہے۔

شکر گنج سکول کے بچوں کو خصوصی مراعات بھی دیتا ہے جس میں سکول کے امتحانات میں اعلیٰ نمبرز حاصل کرنے والوں کو اسکالرشپس اور انعامات، سکول کے بچوں کے لئے کھیلوں کے مقابلے اور سکول کے بچوں اور اساتذہ کیلئے انٹر سکول خوشخطی کے مقابلے شامل ہیں۔ ہمارے ہیلتھ کیئر کے اقدامات ہماری وسیع کمیونٹی کے دروزے پر بنیادی طبی سہولیات فراہم کرتے ہیں۔ ماہر ڈاکٹروں، پیرامیڈیکل سٹاف کی تین ٹیموں اور موبائل ڈسپنسریوں نے سال کے دوران 11,000 سے زائد مریضوں کا علاج کیا۔

ہم اسکول آف آرٹ اینڈ کیلنڈر گرافی میں سٹرکچرڈ بینک پروگرام میں فنکارانہ مہارتوں کو بہتر بنانے میں مقامی ذہانت کو مدد فراہم کرتے ہیں۔ سکول میں شکر گنج کے زیر انتظام ان فنکاروں کے کام کی نمائش اور ثقافتی ورثہ کی ترقی کیلئے ایک ڈسپلے سنٹر بھی قائم کیا گیا ہے۔ سال 2023-2024 میں فیشن ڈیزائننگ اور فائن آرٹس چھ مہینوں میں کل 240 طلباء پاس آؤٹ ہوئے ہیں۔

صحت، حفاظت اور ماحول

جیسا کہ ہم ہمیشہ مثالی کارپوریٹ شہری بننے کا ارادہ رکھتے ہیں، صحت، حفاظت، اور ماحولیاتی خدشات ہمیشہ ہمارے اہم فوکل پوائنٹس ہیں۔ ہم اپنے ملازمین، ٹھیکیداروں اور مہمانوں کے لئے صحت مند، محفوظ اور صاف حالات فراہم کرنے کے لئے مصروف عمل ہیں۔ ایک اچھا کام کرنے والا ماحول فراہم کرنے میں حفاظت سے زیادہ کسی اور کو اعلیٰ ترجیح نہیں دی جاتی ہے اور ہم شدید چوٹ اور حادثے کے اوقات کو صفر درجہ تک کم کرنے کے لئے مسلسل کوشاں رہتے ہیں۔ شکر گنج ٹیم کے تقریباً بارہ سوارا کین نے پاکستان ہلال احمر سوسائٹی، پنجاب اور ریسکیو 1122 کے تعاون سے ابتدائی طبی امداد میں پیشہ ورانہ تربیت اور ٹھیکہ کاری حاصل کرنے کے لئے منظم پروگرام میں حصہ لیا ہے۔ مزید برآں، ٹیم شکر گنج کے تقریباً 65 ارکان نے W.W.F کے ورک پلیس سیفٹی اور ڈیزسٹ ورک میں حصہ لیا ہے۔ ممکنہ حادثات سے نمٹنے کے لئے حفاظتی اقدامات اور ٹریننگ اور بروقت رد عمل کے طریقہ کار نے شدید زخم اور حادثات کو کم سے کم کیا۔

ماحولیاتی تحفظ کے معاملات کو ہمیشہ منافع کے خدشات سے زیادہ ترجیح دی جاتی ہے۔ شکر گنج اپنی تمام مصنوعات کو قابل تجدید فصلوں اور خام مال سے پیدا کرتی ہے اور ہمارے ماحول کو نقصان پہنچانے کی لاگت میں منافع بنانے میں یقین نہیں رکھتی ہے۔ ہم فعال طور پر اپنی کمیونٹی میں اور قومی سطح پر ماحولیاتی تحفظ کی سرگرمیوں کو فنڈ اور معاونت دیتے ہیں۔ بجلی کی بچت اور اصفر ضیاع کا مقصد ہماری اہم ماحول دوست پالیسیاں ہیں۔ ہماری پروڈکشن لائنوں میں چینی کی بانی مصنوعات کے استعمال نے فوسل فیوئلز کے استعمال اور فضلہ کو ضائع کرنے کے مسائل کو نمایاں طور پر کم کر دیا ہے۔ ہمارے پیداواری عمل میں ڈسٹری سپوٹ واش قطعی ویسٹ مصنوعات ہے۔ اب اسے حیاتیاتی طریقہ سے بطور ایندھن یا نیوگیس تیار کی جاتی ہے اور پانی آبیلاشی کے لئے استعمال کیا جاتا ہے۔ اس کے علاوہ ہم زمین کے حیاتیاتی کیڑوں کے کنٹرول، نامیاتی زراعت کی تکنیک، اور تمام قدرتی غذائی اجزاء کی واپسی اور فروغ دینے کی حوصلہ افزائی کرتے ہیں جو کہ ملوں تک شوگر کین کی سپلائی سے لائے جاتے ہیں۔ ہم ورلڈ وائیڈ فنڈ فار نیچر۔ پاکستان کی سرگرمیوں کی بھرپور حمایت کرتے ہیں، پانی کے انتظام کے لیے باقاعدہ تربیتی اور تعلیمی پروگرام چلاتے ہیں اور ہر سال دوبارہ درخت لگانے کی مہم میں حصہ لیتے ہیں۔ ہم نے موسم بہار اور خزاں کی شجرکاری مہموں کے دوران 8,500 پودے لگائے۔ ایچ ای کے بارے میں ہمارا نقطہ نظر ہمارے مشن زیر و ابجد میں واضح ہے جو صفر حادثات اور کام سے متعلق بیماریوں کو ہدف بناتا ہے۔ مشن زیر و ابجد کو مؤثر طریقے سے نافذ کرنے کے لئے، ہم اپنے لوگوں کو اختیار بناتے ہیں اور ان کی حوصلہ افزائی کرتے ہیں کہ وہ اپنا کردار ادا کریں۔ HSE کا ہمارا نقطہ نظر ہمارے مشن زیر و ابجد میں ظاہر ہوتا ہے جو صفر حادثات اور کام سے متعلق کمیوں کو نشانہ بناتا ہے۔ مشن زیر و ابجد کو مؤثر طریقے سے نافذ کرنے کے لئے، ہم اپنے لوگوں کو اپنے حصہ کا کردار ادا کرنے کے لئے اختیار بناتے اور حوصلہ افزائی کرتے ہیں۔ ہم سب کو اپنے کام کی جگہوں کو محفوظ رکھنے میں اپنے حصہ کا کردار ادا کرنا چاہئے۔ سب سے زیادہ مؤثر طریقوں میں سے ایک جو ہم کر سکتے ہیں اپنے ارد گرد کے خطرات کے بارے میں آگاہ رہنا اور ان سے نمٹنے کے لئے کارروائی کرنا ہے۔ لہذا ہم اپنے تمام لوگوں کی فعال طور پر ان کے کام کے ماحول کا باقاعدگی سے جائزہ لینے اور کسی بھی شناختی خطرات کی اطلاع دینے کے لئے سرگرمی کی حوصلہ افزائی کرتے ہیں۔ اس کے نتیجے میں، ہم نے بغیر لوسٹ ٹائم انجری کے 3.16 ملین سیف ورکنگ مین گھنٹے حاصل کیے ہیں۔

ایک محفوظ اور صحت مند کام کے ماحول کو یقینی بنانے کے لیے، کمپنی اپنی صحت اور حفاظت کے طریقوں کو بائی مرض کی ڈیولپمنٹ کے مطابق ڈھال رہی ہے۔ کمپنی کے احاطے کے اندر سخت چیکنگ کو یقینی بنایا گیا ہے اور اقدامات میں عمل کی درجہ بندی بھی شامل ہے جو بلا تعطل کارروائیوں کے لیے دفتر میں موجود ہونا ضروری ہے۔

شکر گنج ماحولیات، آلودگی کی روک تھام، اور قابل اطلاق قانونی اور دیگر ضروریات کی تعمیل کی طرح، اپنے ملازمین کو ان کے فرائض انجام دینے کے لئے ایک صحت مند اور محفوظ کام کی جگہ فراہم کرنے کے لئے پرعزم

ملین روپے بعد از ٹیکس نقصان کیا۔ کمپنی نے شکر گنج فوڈ پراڈکٹس لمیٹڈ میں اپنی ایکویٹی اکاؤنٹ انویسٹمنٹ میں پچھلے سال 87.83 ملین روپے منافع کے مقابلے میں 137.33 ملین روپے نقصان کیا۔

بنیادی خطرات اور غیر یقینی صورتحال کا مقابلہ

کمپنی کو درپیش بنیادی خطرات اور غیر یقینی صورتحال حسب ذیل ہیں۔

- ✓ چینی کی قیمت فروخت کے مقابلے گرنے کی زیادہ قیمت خرید۔
- ✓ تیار پراڈکٹس پر بھاری ٹیکسز، سیلز ٹیکس ریٹس۔
- ✓ آبپاشی کے لیے پانی کی کمی، فصل کی فی ایکڑ پیداوار میں کمی اور کم صلاحیتی استعمالات۔
- ✓ نقصان دہ سیاسی دلچسپیاں
- ✓ زراعت پر مبنی صنعت، قدرتی آفات کے حالات کے اصل خطرات۔
- ✓ پیداوار اور لیبر کی لاگت میں اضافہ۔
- ✓ آپریشنل اخراجات میں مجموعی افراط زر میں اضافہ۔
- ✓ ماحولیاتی تعلقات اور شوگر فرمی مصنوعات۔
- ✓ روپے کی قدر میں مزید کمی لاگت میں اضافہ پر متبہ ہوگی۔

جامع انٹرنل کنٹرول

کمپنی کے انٹرنل کنٹرول کا نظام ڈیزائن میں مستحکم ہے اور اسے مؤثر طریقے سے لاگو اور نگرانی کی جاتی ہے۔ بورڈ آف ڈائریکٹرز انٹرنل کنٹرولز کے ماحول کی بابت اپنی ذمہ داریوں سے آگاہ ہے اور اس کے مطابق آپریشنز کی مؤثرگی کو یقینی بنانے، کمپنی کے اثاثوں کی حفاظت، قابل اطلاق قوانین و ضوابط کی تعمیل اور قابل اعتماد مالی رپورٹنگ کیلئے انٹرنل کنٹرولز کا مؤثر نظام قائم کیا ہے۔ آڈٹ سروس خود مختار انٹرنل آڈٹ فنکشن کام کر رہا ہے اور ایسا فنکشن فنانشل کنٹرولز کے اطلاق کی باقاعدگی سے تشخیص اور نگرانی کرتا ہے۔ بورڈ کی آڈٹ کمیٹی، سہ ماہی بنیاد پر باقاعدگی سے انٹرنل کنٹرول فریم ورک اور مالیاتی حسابات کی مؤثرگی کا جائزہ لیتی ہے۔

آڈیٹرز

آڈیٹر کریسٹن حیدر بھیم جی اینڈ کمپنی، چارٹرڈ اکاؤنٹنٹس ریشز ہو جائیں گے اور انہوں نے خود کو دوبارہ تفری کے لیے پیش کیا ہے۔ بورڈ نے، آڈٹ کمیٹی کی سفارش پر آئندہ سالانہ جنرل میٹنگ میں ممبران کے غور کے لیے کریسٹن حیدر بھیم جی اینڈ کمپنی، چارٹرڈ اکاؤنٹنٹس کو بطور آڈیٹر دوبارہ مقرر کرنے کی سفارش کی ہے۔

کارپوریٹ سماجی ذمہ داری

ہم کمیونٹی، جس میں کاروبار کرتے ہیں، میں فعال طور پر حصہ لینے اور ماحول کو بہتر بنانے کے مواقع تلاش کرتے ہیں۔ بنیادی توجہ کے ہمارے شعبے تعلیم، صحت اور حفاظت، توانائی کی بچت، فضلہ کی کمی اور کمیونٹی کی تعمیر ہیں۔ سال کے دوران شکر گنج نے ان سرگرمیوں میں 22.62 ملین روپے کا حصہ شامل کیا۔ کارپوریٹ کمیونٹی کا ایک ذمہ دار رکن ہونے کی حیثیت سے، شکر گنج نے ہمیشہ ٹیکسز اور دیگر حکومتی لیویز کی مد میں قومی معیشت میں کافی حصہ شامل کیا ہے۔ کمپنی کا وفاقی، صوبائی اور ملکی ٹیکسز کا حصہ زبردست سال کے دوران 1,434 ملین روپے تھا۔

شکر گنج میں، کارپوریٹ سماجی ذمہ داری (سی ایس آر) ایک بنیادی اسٹریٹجک مینجمنٹ چلائی ہے جو ہمارے کاروبار، ماحول اور سٹیک ہولڈرز کو اس انداز سے قائم کرتی ہے جو ہمارے وژن کو مدد دیتی ہے اور ہماری اقدار کو برقرار رکھتی ہے۔ ہمارا مقصد کمیونٹی میں ہم کاروبار کرتے ہیں میں ایک مثبت کردار ادا کرنا ہے۔ ہماری کمیونٹی انوومنٹ پالیسی ہمارے اخلاقی رویہ کے بنیادی عناصر میں سے ایک ہے۔ ہمارا مشترکہ مقصد ڈیور کرنے کیلئے مقامی کمیونٹی کے ساتھ طویل مدتی تعلقات تعمیر کرنے میں مصروف ہمارے پروگرامز، منصوبے جو براہ راست مقامی ضروریات کو پورا کرتے ہیں میں وقت اور ذرائع کی سرمایہ کاری کے ذریعے مضبوط،

ڈائریکٹر کی رپورٹ

محترم شکر گنج حصص داران:

شکر گنج لمیٹڈ ("کمپنی") کے ڈائریکٹر 30 ستمبر 2024ء کو ختم ہونے والے مالی سال کے لئے اپنی رپورٹ مع کمپنی کے نظر ثانی شدہ مالیاتی حسابات بخوشی پیش کر رہے ہیں۔

کمپنی کے معاملات کی حالت اور اس کے کاروبار کا جائزہ

کمپنی پاکستان میں قائم ہوئی اور پاکستان سٹاک ایکسچینج پر مندرج ہے۔ یہ بنیادی طور پر چینی، بانیو فیول، یارن (ٹیکسٹائل) کی تیاری، خریداری اور فروخت کے کاروبار میں مشغول ہے۔ کمپنی کی بنیادی مینوفیکچرنگ سہولیات جھنگ اور سیٹلاٹ مینوفیکچرنگ سہولیات بھون میں واقع ہیں۔

مالیاتی نتائج:

کمپنی کے مالیاتی نتائج کا خلاصہ درج ذیل ہے:

روپے ہزاروں میں

2023	2024	
9,561,824	8,831,779	آمدن
(322,715)	(2,022,994)	مجموعی نقصان
(935,593)	(2,677,667)	آپریشنز سے نقصان

(863,213)	(3,074,175)	قبل از لیوی اور ٹیکس نقصان
(116,218)	(109,639)	لیوی
433,212	126,370	انکم ٹیکس
(546,219)	(3,057,444)	بعد از انکم ٹیکس نقصان
(4.37)	(24.46)	نقصان فی شیئر - بنیادی اور معتدل (روپے)

کمپنی کے کاروبار کا جائزہ

کرشنگ سیزن صرف 91 دنوں تک جاری رہا اور یہ شکر گنج کی تاریخ میں سب سے مختصر کرشنگ سیزن میں سے ایک تھا۔ مشکل سیزن کا سامنا کیا گیا کیونکہ چینی کی فروخت کی قیمت میں اضافے کے بغیر سیزن کے دوران گنے کی خریداری کی قیمتیں آسمان کو چھو گئیں۔ کاروباری ماحول ایسا تھا کہ کمپنی بھاری نقصان کے ساتھ گنے کو کرش کرنے پر مجبور تھی۔ سیزن کے آغاز میں گنے کی امدادی قیمت 400 روپے فی 40 کلوگرام تک بڑھا دی گئی تھی جیسا کہ پنجاب حکومت نے نوٹیفکیشن جاری کیا تھا۔ تاہم کسان اس نرخ پر گنے کی فراہمی کے لیے تیار نہیں تھے اور ملیں 500 روپے فی 40 کلوگرام سے بھی زیادہ قیمت پر گنے خریدنے پر مجبور تھیں۔ گنے کی ممکنہ قیمتوں پر دستیابی نہ ہونے کی وجہ سے 12 فروری 2024 کو بھون ڈویژن اور 23 فروری 2024 کو جھنگ ڈویژن میں کرشنگ مہم بند کر دی گئی۔ انتہائی مشکل صورتحال کے باوجود آپ کی کمپنی 778,454 میٹرک ٹن گنے کو کرش کرنے میں کامیاب رہی جبکہ پچھلے سال اسی عرصے میں 1,019,181 میٹرک ٹن گنے کی کرشنگ کی گئی تھی۔

مذکورہ صورتحال کی وجہ سے ایک بڑا چیلنج درپیش ہے کیونکہ چینی کی قیمت کبھی طے نہیں کی گئی بلکہ حکومت نے مختلف اقدامات کر کے اس پر منفی کنٹرول کیا۔ ہمارے بانیو فیول کے کاروبار کو بین الاقوامی مارکیٹ میں کم طلب اور ممکنہ قیمتوں پر مولاسز کی عدم دستیابی کی وجہ سے بھی نقصان پہنچا تھا۔ یارن مارکیٹ کی مجموعی صورتحال اور ٹیکسٹائل سیکٹر میں مشکل کاروباری ماحول جاری رہنے کی وجہ سے ہمارا ٹیکسٹائل کاروبار بھی بری طرح متاثر ہوا ہے لہذا سال کے دوران پلانٹ نہیں چل سکا۔

کمپنی نے پچھلے سال کے دوران 322.72 ملین روپے مجموعی نقصان کے مقابلے میں اس سال کے دوران 2,022.99 ملین روپے مجموعی نقصان کیا۔ پچھلے سال 935.59 ملین روپے نقصان کے مقابلے میں آپریشنز سے نقصان 2,677.67 ملین روپے تھا۔ کمپنی نے ٹیکس سے پہلے 3,183.81 ملین روپے نقصان اور پچھلے سال ٹیکس کے بعد 546.22 ملین روپے کے نقصان کے مقابلے میں ٹیکس کے بعد 3,057.44 ملین روپے

10- سی ای او کی کارکردگی کا جائزہ: بورڈ منصفانہ اور منظم طریقے سے سی ای او کی کارکردگی کی تشخیص کرتا ہے اور اس بات کو یقینی بناتا ہے کہ سی ای او کی تنخواہ کمپنی کی کارکردگی، حصص داران کے مفادات اور کمپنی کی طویل مدتی کامیابی سے موزوں طور منسلک ہے۔

11- بورڈ کی ساخت اور محرکات: بورڈ کا سائز اور ساخت بورڈ کے طریقہ کار کو کنٹرول کرنے کے لئے کافی ہے اور اراکین بورڈ کے کام میں فعال طور پر مصروف ہیں۔ بورڈ اپنی ذمہ داریوں کی ادائیگی کے لئے کافی ضروریات کو پورا کرتا ہے۔

مجموعی طور پر، میں سمجھتا ہوں کہ سخت معاشی صورتحال کے باوجود اگلے تین سالوں کے لئے کمپنی کی اسٹریٹجک سمت واضح اور مناسب ہے۔ مزید یہ کہ مجموعی کارپوریٹ حکمت عملی تیار کرنے اور اس کے جائزہ لینے میں اپنائے جانے والے عمل اور کمپنی کے مقاصد کی تکمیل جامع ہے۔ یہاں میں انتظامیہ اور اپنے لوگوں کو ان کے عزم، استقامت اور آزمائش کی اس گھڑی میں انتھک تعاون کے لیے بھی تسلیم کرنا چاہوں گا، وہ گزشتہ چند سالوں کی مشکلات کے باوجود ہمارے ساتھ ثابت قدم رہے اور ڈیلیوریز کرتے رہے۔

میں مسلسل تعاون کے لیے تمام اسٹیک ہولڈرز کا شکریہ ادا کرنا چاہوں گا، اور مجھے امید ہے کہ کمپنی کی آپ کی سرپرستی آنے والے سالوں میں بھی جاری رہے گی۔

چیمبرمین کی جائزہ رپورٹ

مجھے شکر گنج لمیٹڈ کے حصص داروں کے سامنے بورڈ کی مجموعی کارکردگی اور کمپنی کے اغراض و مقاصد کے حصول میں اس کے کردار کی تائید کی یہ رپورٹ پیش کرتے ہوئے بے حد خوشی ہو رہی ہے۔

شکر گنج نے کاروباری معاملات کا ایک مؤثر اور محتاط انتظامات کا حمایتی مضبوط گورننس فریم ورک لاگو کیا ہے جو کمپنی کی طویل مدتی کامیابی حاصل کرنے میں اہم کردار ادا کرتا ہے۔

سال کے دوران بورڈ کمیٹیوں نے بڑی صلاحیت کے ساتھ کام جاری رکھا۔ آڈٹ کمیٹی نے خاص طور پر کاروبار سے منسلک خطرات کے انتظام اور کنٹرول پر توجہ مرکوز رکھی ہے۔ ساتھ ہی ساتھ، ہیومن ریسورس اور ریمیزیشن کمیٹی نے اس بات کو یقینی بنایا ہے کہ کارکردگی کے انتظامات، ایچ آر عملے، معاوضہ اور فوائد کے بارے میں ایچ آر کی پالیسیاں مارکیٹ کے مقابلہ کی ہیں اور صرف کمپنی کی کارکردگی اور حصص داران کے مفادات کے ساتھ نہیں بلکہ کمپنی کی طویل مدتی کامیابی سے بھی موزوں طور پر منسلک ہیں۔

بورڈ نے مجموعی طور پر سالانہ رپورٹ اور مالی حسابات کا جائزہ لیا ہے، اور خوشی سے اس بات کی تصدیق کی ہے کہ مجموعی طور پر لی گئی ان کی جائزہ رپورٹ اور مالی حسابات، منصفانہ، متوازن اور قابل فہم ہیں۔

بورڈ خود تشخیص کی بنیاد پر، مالی سال کے اختتام کے بعد ہر سال اپنی مؤثرگی اور کارکردگی کا جائزہ لیتا ہے۔ اس طرح کا گذشتہ جائزہ مالی سال 2024 کے لئے اکتوبر 2024 میں کیا گیا تھا۔ بورڈ کی مجموعی طور پر مؤثرگی اطمینان بخش تھی۔ شعبے جن میں بہتری کی ضرورت ہے ان پر مناسب طریقے سے غور و خوض کیا گیا ہے اور موزوں کارروائی کے منصوبے تیار کئے گئے ہیں۔

مجموعی تشخیص مندرجہ ذیل لازمی اجزاء کی تشخیص پر مبنی تھی:

- 1- **نقطہ نظر، مشن اور اقدار:** بورڈ کے اراکین موجودہ نقطہ نظر، مشن اور اقدار سے واقف ہیں اور تنظیم کے لئے انہیں موزوں پاتے ہیں۔
- 2- **اسٹریٹجک منصوبہ بندی میں مصروفیت:** بورڈ حصص داروں کو بخوبی سمجھتا ہے جن کو تنظیم خدمات فراہم کرتی ہے یعنی اپنے حصص داران، زمیندار، صارفین، ملازمین، وینڈرز، معاشرہ وغیرہ۔ بورڈ کا اسٹریٹجک نقطہ نظر ہے کہ اگلے تین سے پانچ سالوں میں تنظیم کو کس طرح تیار رہنا چاہئے اور اس کی ترقی کو ٹریک کرنے کے لئے اہم اشاروں کی نشاندہی کی ہے۔
- 3- **پالیسیوں کی تشکیل:** بورڈ نے ایسی پالیسیاں تشکیل دی ہیں جو بورڈ کی ذمہ داری اور کمپنی کے آپریشنز کے تمام ضروری شعبوں کا احاطہ کرتی ہیں۔
- 4- **تنظیم کی کاروباری سرگرمیوں کی نگرانی:** بورڈ تنظیم کی موجودہ کاروباری سرگرمیوں بشمول ہر ایک اہم سرگرمی کی مضبوطی اور کمزوری کے بارے بخوبی واقف ہے اور سرگرمی/شعبہ وار کارکردگی کی نگرانی کے لئے ایک مؤثر طریقہ کار رکھتا ہے۔
- 5- **مالی وسائل کے انتظام کی مہارت:** بورڈ کمپنی کے مالی وسائل کے انتظامات سے متعلق اہم پہلوؤں کے بارے میں جانتا ہے اور بروقت بنیاد پر مناسب سمت اور نگرانی فراہم کرتا ہے۔
- 6- **مؤثر مالی نگرانی کی فراہمی:** بورڈ یقینی بناتا ہے کہ بجٹ سالانہ اسٹریٹجک منصوبہ میں قائم ترجیحات کی عکاسی کرتا ہے اور یہ اکاؤنٹس کے آڈٹ یا آزاد آزمائشی پر قابو پانے والے قواعد و ضوابط پر عمل کرتا ہے اور آزاد آڈیٹر کی رپورٹ اور مینجمنٹ لیٹر میں تمام سفارشات پر غور کرتا ہے۔
- 7- **ایک ذمہ دار آجر کا کردار ادا کرنا:** بورڈ نے ضروری پالیسیاں تشکیل دی ہیں جو اس بات کو یقینی بناتی ہیں کہ تنظیم عملے، ٹھیکیداروں، وینڈرز اور اس کی جانب سے کام کرنے والے کسی دوسرے فرد کی طرف مناسب اور قانونی طریقے کا سلوک روا رکھتی ہے۔
- 8- **بورڈ اور عملہ کے درمیان تعلقات:** بورڈ اور انتظامی عملے کے کردار اور ذمہ داریوں کی واضح طور پر وضاحت فہم، باہمی اعتماد کا ماحول اور بورڈ اور انتظامیہ کے درمیان احترام موجود ہے۔
- 9- **تنظیم کے بارے عوامی تصور:** بورڈ کے اراکان کمیونٹی میں تنظیم کے مثبت تصور کو فروغ دیتے ہیں۔
